Mattapan Bank Robbery Foiled

CITY HALL BRIBERY INDICTMENT

KUBITSKY NAMED IN TRUE BILL

Grand Jury Finds Evidence to Hold Poultry Dealer in Scandal Probe

An indictment charging Abraham Kubitsky with bribery in connection with the so-called City Hall turkey scandal was returned by the Suffolk grand jury today.

Kubitsky appeared before Judge Bishop, pleaded not guilty to the indictment and was held in $2,000 for trial.

The bribery charge grew out of the presentation by Abraham Kubitsky of the Richmond Poultry Company of two $100 bills, a turkey and a box of cigars to Dr. Patrick H. Mullowney, deputy health commissioner of Boston, shortly before Christmas.

This was after Dr. Mullowney had registered objection to the health department granting Kubitsky a license for a poultry slaughtering house.

The license was sought after Kubitsky had bought from Batchelder & Snyder's a part of the latter's market plant.

Dr. Mullowney, on receipt of the "gifts" made a report to the district

In Foiled Bank Plot

Irving Bezanson (at top) and Paul Nilson, Mattapan bank messengers for whom alleged plotters were lying in wait when arrested, according to the police.

TRAP 3 IN PLOT TO ROB BANK

Mysterious Tip Enables Cop to Foil Holdup of Mattapan Messengers

A mysterious tip to the police prevented a holdup and robbery of two messengers of the Mattapan National Bank.

Paul Nilson of No. 27 Lincoln street, Mattapan, and Irving Bezanson of No. 8 Bailey avenue, Milton, messengers of the bank, were sent to the Sibley Drug Store at No. 281 Talbot avenue, Dorchester, to collect a large sum of money.

Shortly after they left the bank a telephone call to Station 13 informed the police of an impending crime. No name was given by the caller and the reason for suspicion was likewise kept secret.

COP WINS IN GUN PLAY.

Acting on the "tip" officers were detached to cover the route followed by the two messengers. Patrolman James A. McRae was sent to the corner of Talbot avenue and Calenial avenue. He saw three young men and approached them. They started to run.

One turned and levelled a revolver at the officer. McRae whipped out his own gun. The youth dropped his weapon in the snow. Threatening to shoot to kill if they did not stop, McRae called on all three to halt. They surrendered.

GUNMAN HELD IN $11,000.

They gave their names as John J. Conroy, twenty, of No. 17 Dale street, South Boston; George Barnett, twenty, of No. 100 Dorchester street, Dorchester, and Mark Ridge

"STUFFY" M'INNIS MUST FIGHT FOR JOB

By NICK FLATLEY.

St. Petersburg, Fla., March 10.—In the language of Benny Osthus, popular announcer:

"Long John Henry in this corner!

"John (Stuffy) McInnis in that corner!

"Both boys are members of this club and will battle to a finish!"

The first round of the big bout is billed to be staged here next week when McInnis parades into town determined to be the regular first-sacker of the tribe.

"That's my job," remarked Henry today. "And I'm going to keep it. Of course, McInnis is a nice fellow and all that, but he's not going to play first base for the Braves this year."

And from Gloucester, McInnis digressed:

"I'll have a big year at first for the Braves."

Stuffy has been one of the game's greatest first basemen; Henry proved he candy kid when he hopped up from New Orleans last season and plugged the hole caused by the illness of Hollke.

Anyhow the fight is on. All of which should tend to add zest to the training season of the Tribe.

RED SOX NEW ROOKIE TO RIVAL BABE RUTH

By CHARLES E. PARKER

Hot Springs, Ark., March 10.—"Lefty" O'Doul, who has been crashing the ball over Whittington Park fences each day, must look to his laurels from now on if advance information on the latest arrival to the Red Sox camp means anything.

That latest arrival is Floyd Herman of Pasadena, Calif., late of the Omaha, Western League, where he negotiated a batting average of .416 for the season of 1922.

Floyd is another one of the giants on the Red Sox roster, standing 6 feet 3½ inches and rattling the Fairbanks at 193 pounds.

He is a first baseman with a willingness to play the outfield, and bats and throws from the port side. He came to the Red Sox via the Detroit Club, although never having played for the Tigers.

Rain interfered with the regular practice program today. Manager Chance took the tossers to a local corner lot where they tossed the ball back and forth for an hour, and then started over the Ozarks on a long hike.

LAWYER DILLAWAY ARRESTED

Boston Man Is Charged With Misappropriating $15,000 Funds

George L. Dillaway, State street attorney and organizer of the Franco-Boston Navigation Company, was arrested on a secret indictment today, charged with appropriating to his own use $15,000, property of the corporation.

The indictment, returned by the Suffolk County Grand Jury, resulted from information furnished by the Boston Bar Association, which will institute disbarment proceedings against Dillaway.

According to Robert T. Bushnell, receiver of the corporation, the only explanation made by Dillaway in regard to the missing assets was that he had invested the money and lost it.

Dillaway, a well-known attorney, who maintained luxurious offices on State street, organized the company September 17, 1919. Julia W. Troy of Belmont was made president, Anatole Farvaque of St. Malo, France, treasurer, and George L. Dillaway of Wakefield clerk.

VESSEL FOUNDERS.

The directors were President Troy, Nina C. Tugman and George L. Dillaway. The corporation was financed by M. Farvaque, who was represented by Pierre Andrieux, whose home is St. Pierre, Miquelon Islands.

A schooner, the Annie P. McFadden, was purchased, and loaded with a consignment of flour and other merchandise. The vessel foundered in the Azores December 16, 1919, and was later towed to a port in the Azores, becoming the subject of considerable litigation.

In August and October of 1920 the Aetna Insurance Company of Hartford and the Boston Insurance Company paid $7,500 each to the corporation and to Dillaway, a total of $15,000, as insurance on the schooner.

VANDERBILT BRIDE HAS DIPHTHERIA

Newport, R. I., March 10.—Mrs. Gloria Morgan Vanderbilt, bride of a few days of Reginald C. Vanderbilt, is ill at Sandy Point Farm, with diphtheria.

Several nurses are in constant attendance.

The Vanderbilts arrived here March 6. Since then Mrs. Vanderbilt has not been seen.

SEEKS TO REVOKE SOLLEY'S SENTENCE

Attorney Frederick Daggett appeared before Judge Nelson P. Brown today and asked that the six months sentence on George W. Solley, former executive secretary of the Loyal Coalition, be revoked.

Solley was sentenced a year an a half ago, but sentence was suspended to permit him to take the case to the Supreme Court on exceptions. The revocation was sought on the ground that the health of Solley and his wife, with whom he is living at Rockport, is poor. Judge Brown reserved decision.

THE WEATHER

Boston and Vicinity: Unsettled, generally fair tonight and Sunday; probably rain or snow Sunday night, with falling temperature. Fresh to strong westerly winds, becoming variable Sunday.

Sun rises at 6:06; sets at 5:44.
Moon rises at 1:25 a. m.
High tide at 3:11 a. m.; 5:47 p. m.
Temperature: Maximum 36 at 11 a. m.; minimum, 22 at 4 a. m.; average 27.
Light all vehicles at 6:44 p. m.

RICH MAN'S RUM IS SEIZED

Salem, March 10.—A snowdrift cost rum runners $15,000 worth of real liquor, said to be consigned to a New York millionaire's North Shore Summer home today, when the bootleggers' truck stalled on Highland avenue.

Police Chauffeur Lawrence Olsson, en route to his home, offered assistance. The actions of the driver and other men in a touring car directly behind excited his suspicions.

Olsson telephoned headquarters and to a customs officer. Investigation disclosed the liquor hidden in smaller cases inside large cases.

MYSTIC INDIAN SIGN LEFT BEHIND BY HEAD OF CRIME SCHOOL

BURGLAR IS SUAVE WORKER

Continued from First Page.

suavely to his "pupil" why the "jobbed erred.

"Third, my dear friend: The care at hand is in need of the help of accepting honesty. The premises are without valuables, when an occupant appears.

He took his underwriter's arm bowed and made Mrs. Cora Bennett assisted his guest to an automobile and ordered his chauffeur to drive away.

Two days before he had rented the apartment of Mrs. Cora Bennett elder worth of the house for the when she emerged from her apartment and found him at work with a plumber on the back of an apartment across the court. He introduced Mrs. Kenneth Baker, who had been sent.

This is his description given to police by Mrs. Cora Bennett:

"The man was about six feet tall. He wore a derby hat and light gray spats, and colored silk necktie. His overcoat was black cheviotlike with a velvet collar. He wore one suede glove and held the other in that hand. I thought he was going to shake hands with me at first, and I noted his hand when he reached it out. It was clean and manicured."

Mrs. Cora Bennett told the watch and reported a person since the burglary. It must have been Peter Pan, who lives outside the mail at her apartment.

She opened the door and drew it open quickly, before the man she was a man running down and a word to say, she declared.

He straightened up slowly and said:

"Well, well, more of and more deaths. You're not Mrs. Baker to me."

He paused in surprise and the other man ran down the stairs. Home was on the other side of the house. A second before the door closed on Mrs. Cora Bennett's astonished face the man who was "not Mrs. Baker to me" was seen to smile.

"What a mere battle of wits this is!" he communed softly. "Why is this little man so interested in the servant girl? Indeed and those questions 'pleasantly' that I asked."

VOICE FROM BELOW

Suddenly a voice from the basement floor of the building answered and the man above paused that he was vexed.

"Come on, let's go. Grace the janitor ain't around!" was the command from below.

"Whatever the trouble, I am not responsible," the man above told Mrs. Cora's face.

"A man of breeding he must be," Mrs. Cora's face.

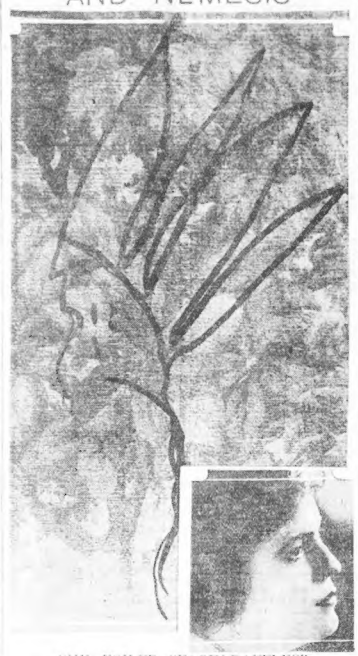
"Clumsy a bit, but evidently not sent that an attempt at unlocking is in order. I sure didn't want to meet the janitor—not at present."

"I realize didn't. Miss Cora, that had such a fortune moment. Instead of the man for the janitor may would be considerably disappointed.

"Good-bye!"

An investigation is being made of the marking of the Baker door with a roughly drawn "Indian head." The same mark was found on the Cora apartment. This is considered to be the sign that "All Is Well"

CROOK'S MYSTIC SIGN AND 'NEMESIS'



SHE FOILED "FAGIN-RAFFLES"

Mrs. Ira Cara who frightened burglar and his "pupil" away and, set up the master crook's mystery also, a crudely drawn Indian face to remain on the doors of Two Back Bay apartments that he had visited.

TRAP THREE IN BANK PLOT

Continued from First Page.

PHONES BLESSING TO LYNN ELOPERS

A campaign started in the office of Lynn Gas & Electric Company, aimed at the elopement and marriage of Miss Dorothy Wallace and Leslie W. Bishop of Lynn, it became known today.

Miss Wallace informed her mother, Mrs. Margaret Wallace, of New Hampshire, that she was going to a concert with Lynn Holmes, and left at 7:30 with W. H. Holmes of No. 24 Hanover street.

About one-thirty Mrs. Wallace received a telephone call from her daughter, who tearfully remarked: "Well, we're married."

The couple were met by the Rev. Mr. Morse, rector of the Church of the Incarnation. Lynn. Mrs. Wallace gave the young people her blessing and they departed on honeymoon.

REARREST REVERE MAN AS SLAYER

On an indictment charging murder Saverio Calabretta, twenty-six years old, of No. 889 Broadway, Revere, was arrested today. Felix Cepercilla of Saugus was also to death, and his brother, Rocco, wounded, in front of Calabretta's house, the night of February 13. Calabretta pleaded self-defense, before Judge Carter in Chelsea Court and was released.

He said the brothers entered him outside, produced weapons and demanded money and that he shot them both. Felix's hand gripped a knife and a revolver lay near Rocco, when police arrived.

COMMITTEE REJECTS GEN. EDWARDS' BUST

The petition of Governor's Councillor Charles L. Burrill and a group of distinguished citizens to authorize the State Art Commission to accept the Paolo bust of General Charles E. Edwards, was rejected today by the Legislative Committee on Public Works. The bust was offered to the Boston Art Commission. Following that Burrill, Mayor Curley, General Cole, General Lenox, Lewis raised a fund of $5,000 to purchase the bust, which they offered to the State.

CORONER'S INQUEST OVER ACTRESS' DEATH

Chicago, March 10.—Investigation of the sudden death of Mrs. Helen Crawford Ackerman, an actress, known on the stage as Helen Crawford, moved on to the coroner's inquest today after an autopsy had failed to show that death resulted from other natural causes. Mrs. Ackerman died in a hotel. A search was started for a man known as "Lee," who corresponded with her.

WOMAN 'DRY' FAILS TO CONVICT DOCTOR

Dr. Henry Landesman of Roxbury, charged with assault and battery on Hannah Brigham, prohibition agent, was discharged by Commissioner Hayes in Federal Court today.

The commissioner declared if prohibition agents exceeded their rights Dr. Landesman did well to resist, and added:

"I can't think a doctor is subject to personal examination as well as search of his records.

"If the records were not correct Mrs. Brigham had to do was to prove that fact. These prohibition agents should receive instructions as to their duties and limitations."

INDICT 3 WOMEN AS HOLDUP LURES

The Suffolk County Grand Jury today returned a number of secret indictments, several of them against women, including three who were charged with complicity in recent holdup cases and robberies.

Another woman was indicted for perjury, it being charged she became unduly for a notorious gunman to the extent of $2,000, when she had no property. The gunman, who appealed from a two-years' sentence imposed in the lower court, left parts unknown.

345 KILLED BY GAS IN NEW YORK CITY

New York, March 10 — Seven cases of death by gas inhalation during the last 24 hours were reported today to the police, bringing the total for the last five months to 345.

PRINCE LIPPE FINED SEVEN MILLIONS

Essen, March 10 (By the Associated Press).—Aniee Maginot, French Minister of War, arrived today for a conference with General Degoutte, French commander in the Ruhr.

Worden, March 10.—Prince Friedrich Wilhelm von Lippe, the German Nationalist agitator, was fined 7,000,000 marks. The Prince was charged with stirring up agitation against the forces of occupation.

The Prince had a blackjack but no warms when arrested or he would have been sentenced to prison.

He will be held until he pays the 7,000,000 marks.

Burgomaster Zimmermann of Bauer has been fined 10,000,000 marks for refusing to fill certain French requisitions.

Germans and French Tired of Struggle

London, March 10 (By the Associated Press).—Although offering no very definite evidence to support their statements, some of the British correspondents in the Ruhr assert that there is a tendency toward peace and that both sides would welcome a settlement, ending the strain of the past few weeks.

Both the workers and the industrialists on the German side are tired of the struggle, the correspondents say, the former seeing no hope of winning, while at the same time their sufferings are augmented daily. The industrialists, with the exception of one or two of the most influential, are feeling increasingly the pinch of lost trade and are fearing for the future.

The French on their part are represented as suffering scarcely less. They have not got what they went into the Ruhr to obtain, and French industries are being seriously affected by the curtailment of the coal supply.

DIST.-ATTY. HARRIS STARTS FOR TAYLOR

United States District Attorney Robert O. Harris left today for Chicago in pursuit of the extradition of Frank L. Taylor and Abraham Goldman. Taylor, as former president of the First National Bank of Warren, recently looted to a group of bank swindlers of which the head is reputed to be Joseph B. Marcino, ex-barber. Goldman is Marcino's father-in-law. Taylor has signified his willingness to return and testify. Mr. Harris said he would stay in Chicago until all legal bars to the extradition of Taylor and Goldman were removed. He will accompany to Chicago by Assistant United States Attorney John Sullivan and several witnesses.

BANK OFFICIAL FOUND SLAIN IN HIS YARD

Centerburg, O., March 10.—Knox County officials today were investigating the finding of the body of Lemuel M. Dally, vice-president and cashier of the First National Bank of Centerburg. Dally was shot dead in his barn. Nearby, a revolver was picked up. Officials of the bank said they found no shortage.

Joseph S. Howe Dead

Methuen, March 10.—Joseph S. Howe, from 1857 until 1915, town treasurer and tax collector of this is dead, aged ninety years. He served in the State Senate in 1870 and the House in 1872.

Telegraph Briefs

New York.—One telephone system with link this entire world is the future, Charles G. Dubois, president of the Western Electric Company, predicted today. "We are just at the beginning of a big forward movement in communication which will tax our resources to the utmost," he said.

Albany.—The Democratic party in New York State gained 65,704 enrolled voters during the year. The Republican host, their enrollment figures showing a decrease of 137,921 from last year's.

Danville, Ill.—"Uncle Joe" Cannon, the patriarch of Congress, was back under his own roof today, definitely retired from public service for the first time since he went to Washington during the administration of President Grant.

New York.—Alexander P. Moore, newly appointed ambassador to Spain and Senator Hiram W. Johnson of California, were among the passengers sailing today on the George Washington for Europe.

Washington.—Fire destroyed eight buildings at the army post at Fort Myer. The damage was $110,000. Fourteen men were slightly hurt. Some hospital patients were carried to safety.

Washington. — President Harding has approved the terms of the agreement for arbitration of the dispute between Chile and Peru over the territory of Tacna-Arica, Secretary of State Hughes announced today.

Cleveland.—Mrs. Josephine Dordarraro, thirty-two, and her nine-months' old baby is dead and police are searching for a boarder said to be the owner of a still that exploded in the house, fatally burning the woman and child.

Under Fire

PERCY M. NELSON.

ARREST LAWYER DILLAWAY

Continued from First Page.

The Franco-Boston Navigation Company went into the hands of a receiver July 12, 1920.

The Canadian government then took a hand in the proceedings, bringing suit against Pierre Andrieux and the corporation for the Canadian National Railways and a flour company. It was charged that Andrieux obtained a cargo of flour, which with the Annie McFadden sailed, without any freight having been paid.

FORMS OTHER COMPANIES

The suit was brought in Suffolk Superior Court, which ordered that the stock held by Andrieux in the Franco-Boston Navigation Company be turned over to the Canadian government.

Meantime Dillaway organized the Charles River Amusement Corporation, with the same directors as the navigation company, incorporated for $50,000 with a par value of $100. On November 26 of the same year 1920, he organized the Maesmach Trust, formed for the purpose of conducting lumbering operations in Vermont.

The Vermont-Boston Company of Hubbardston, Vt., was then organized as an operating company, and was succeeded by the Maesmont Lumber Company, which went into bankruptcy in 1921.

It is charged that Dillaway, without authority, invested about $8,000 of the proceeds of the Franco-Boston Navigation Company in the Maesmont Trust.

REALIZED ABOUT $3,000.

When Receiver Bushnell was appointed in July, 1920, he immediately made demands on Dillaway for the monies, books, minutes of meetings and other papers of the corporation. Dillaway, according to the receiver, turned over to him $300 in cash, declaring the rest of the assets he had invested and lost.

Since that time the receiver has liquidated all of Dillaway's personal property and realized only about $3,000. This included the house at Harts Hill, Wakefield, turned over by Mrs. Josephine S. Dillaway on July 21, 1922.

According to Dillaway's figures of receipts and expenditures, the corporation should have had a balance of $5,093.76 in addition to the $10,000 collected from the two insurance companies. It was learned that when the schooner was wrecked Dillaway and his son, Hanson M. Dillaway, in the Azores, charging the corporation $1,038.58 for the journey, which included a fee of $500.

BOSTON BAR ASSOCIATION.

About this time, or a little later, M. Farvacque appointed Henry Dagort of No. 397 Main street, Medford, as his representative, giving him a power of attorney. Mr. Dagort made a preliminary investigation and then notified the Bar Association, which called the matter to the district attorney's attention.

Assistant District Attorney Robert Robinson on March 2 last turned the case over to Inspector George Augustus, who obtained the evidence which was presented to the grand jury. As soon as the indictment was returned a search was made by Inspector Dorsey and Augusta for Dillaway, who was believed to have established a residence in Malden.

It was learned that the corporation owes the Commonwealth $1,685.10 for failure to file an income tax return for 1921, and is in debt to the Federal authorities for a similar reason.

New Danish Prince

Copenhagen, March 10.—Princess Helena, wife of Prince Herald, brother of the King of Denmark, gave birth to a baby son today.

PROBE CAREER OF ENSIGN IN BOSTON

Facts concerning the manifold activities of Ensign Percy M. Nelson, U. S. N., Annapolis '03, are being investigated by the Middlesex County Grand Jury, and it is expected that this body will slap the good-looking sailor for a row of indictments.

During his stay in Boston and other parts of New England, Nelson, the Boston American learned today, went in for wine, woman and song, and the burden of his song was a little bank ballad entitled, "No Account" or "Insufficient Funds."

Percy made many a bookmaker happy with his liberal largesse. As long as his checkbook held blanks he signed checks, it is charged.

Numerous individuals in New Jersey, Boston, Cambridge and New Bedford hold the interesting little souvenirs signed by Percy. In addition, Baltimore (where he is at present under arrest) is looking into the matter of the two wives, for Percy is, among other things, an alleged bigamist.

Inspectors Patrick Hurley and John T. Nollan of the Cambridge police have been looking into the activities of Percy hereabouts, and they have found plenty. The chief mourner seems to be Robert Porte, owner of a garage at No. 2 Vassar street. It was in Mr. Porte's garage that Ensign Nelson kept his beautiful motor car with the special engine.

Mr. Porte has a mechanic who used to be in the navy—young Samuel Josephson. It develops that Josephson and Nelson were mates aboard the U. S. S. Gresham, and the mechanic introduced Nelson to Porte. Porte noticed when putting oil in the big model that the engine had no serial number or other mark of identification.

He mentioned this to Nelson, who explained that it was a special engine, made by himself. The car was the latest thing in rumrunning. It had an electric searchlight, bulwarker, flower vase and other knick-knacks.

Nelson feared Porte telling Joseph-son he was going to the bank one day, and mentioned casually he had three checks for $250 each, and would Mr. Porte cash them for him. Mr. Porte would and did. Percy then drove away and Porte hasn't seen him since.

Another check for $250, drawn on the American Exchange and Savings Bank of Baltimore, netted Ensign Nelson $250. It is alleged, when he presented it for payment at the Waltham Trust Company February 5th. The police of Springfield want him for passing $2,000 worth of bad checks.

According to police, Nelson's age and wife are a Baltimore girl who had $25,000 when she married him. Nelson now is quite respectable. Nelson is accused of burning up the $25,000 in night life in Boston, New York and other cities.

VETS LAID OFF SUE CITY FOR WEEK'S PAY

Lawrence, March 10.—Fifty-seven ex-service men recently laid off for a week on laborers in the department of health and charities, today brought suit against Alderman William H. D. Vose, who held them off, and the city for a week's pay. Alderman Vose has reinstated the men. He says he was misled and merely because there was no work.

SACCO ON 24TH DAY OF HUNGER STRIKE

Nicola Sacco, convicted with Bartolomeo Vanzetti of the murders of a South Braintree paymaster and his guard, today entered the twenty-fourth day of his hunger strike. He has refused to eat all food placed before him by Dedham jail officials. He is confining to drink large quantities of water.

HENRY M. ROBINSON & CO.

This firm, consisting of Henry M. Robinson, President, the founder of the business; Joseph Maynard Pratt, Vice-President, and Allen Robinson, Treasurer, has a unique distinction for the reason that each member of this partnership in his younger days was a vender of flowers on the streets of Boston, and they are well remembered in many of the side streets of this city.

The business, which was started in a basement on Court Square by Henry M., in 1899, proved to be a rapid youngster and immediately assumed a healthy growth, during which made it necessary to move to larger quarters at 15 Province street. Previous to this time his brother, Charles, and Joseph Murphy, became associated with him. They proved to be so much in line and their ideas and suggestions developed out from their original business of dealing in trees and other horse accessories until they now take in every branch pertaining to the florist business.

Today they manufacture and sell everything used in the florist business, from the start of the plants to the finished product, and their purchase by the retail customer. They are not only among the largest dealers in America in florists' supplies but have the distinction of being the largest wholesale dealers in cut flowers in the world.

Their constant growth again advised them to move to larger quarters, and now, which they in turn outgrow, and are now housed at 262 Washington street, where they occupy an ore floor over half an acre of space, and from there they ship to all parts of the country. Their customers, as a general will greatly appreciate the privilege of seeing this up-to-date plant and the modern method of handling the forcifial blooms which nature has so kindly provided.

So this company, which has ever been noted in the New York and Boston for genuine dollar and quality satisfaction, invites its friends and the public to inspect their new quarters at 537 to 541 Tremont St., Boston, on Saturday, March 10, when they will be glad to show you around, to share the pleasure of this opening to celebrate the phenomenal rise from flower boys on the street to acknowledged leaders in the floral world.

HANDY BAG COUPON No. 27 Clip It Now!

Present this coupon, with two others clipped from the Boston American on consecutive days, with 33 cents, at the first floor of the Boston American, No. 80 Summer street, and receive one of Boston's New Handy Bags.

(Note—If you want it sent by mail send 5 cents extra. Address Handy Bag Dept., Boston American. Do NOT mail postage stamps as cash.)

CITY HALL 'TURKEY' BBIBE INDICTMENT

Continued from First Page.

attorney. According to later report made by the Finance Commission, Dr. Francis X. Mahoney, health commissioner, objected to such a report being made, and sought to indict Dr. Mullowney to return the gifts.

As a result of the dispute Dr. Mullowney was removed from office but was reinstated after a hearing.

The report of the Finance Commission on the case stirred up more trouble. This report recommended that Mayor Curley remove Health Commissioner Mahoney immediately. It also asked for a revocation of the permit granted by Dr. Mahoney January 12, to the Richmond Live Poultry Co.

The report stated that the Finance Commission had turned over to the district attorney a 16 money order from Dr. Mullowney which was intended payment, the Commission charged, for the turkey, the cigars and the $500.

The Commission reported, among its "findings of fact," that:

"The health commissioner (Mahoney) not only refused to complain to the District Attorney or to a proper execution of the action of Mr. Kubitsky in sending money and articles of value to Deputy Commissioner Mullowney on December 21, 1922, but actually tried to dissuade Deputy Commissioner Mullowney from making such complaint or from making the matter public."

"The health commissioner suspended Deputy Commissioner Mullowney without justifiable cause.

"The health commissioner reinstated Deputy Commissioner Mullowney on February 5, 1923, after a hearing on the ground that Deputy Commissioner Mullowney was justified in disobeying the health commissioner because he had been advised by the district attorney's office to hold as evidence the money and articles sent him by Mr. Kubitsky."

Commissioner Mahoney declared in answer to the Finance Commission's report, that the first thing that would strike the reader was that the Finance Commission believes and recommended that he be removed from office while it was perfectly content to have Dr. Mullowney remain in office. He went on:

"One would think that the money, cigars and turkey had been delivered to me instead of Dr. Mullowney.

SINGULAR THING.

"Another singular thing is that the commission recommends that I be removed because I did not send the case immediately to the district attorney's office, although the commission finds as a fact that the articles were delivered to Dr. Mullowney's house and that Dr. Mullowney notified me of the fact the next day and also notified me that he had turned the matter over to the district attorney's office the night before."

Commissioner Mahoney threatened to seek criminal indictment against the members of the Finance Commission for its report. He was backed by Mayor Curley in his assertion. The Mayor termed it "the most malicious and slandering report ever issued against an individual by the history of the Finance Commission."

The Mayor declared he would not remove Dr. Mahoney. Instead, he directed Assistant Corporation Counsel Joseph H. Lyons to prepare a brief to seek indictments of the finance commissioners and their "model secretary, John C. L. Downing."

SEIZE NEGRO WOMAN AS DOPE PEDLAR

Mary Beoth, colored, of No. 33 West Springfield street, South End, was arrested today by Narcotic Agents O'Malley, Kelley and Whitaker, who bought eight "decks" of cocaine and two of morphine with marked money. She was arraigned before Commissioner Hayes and held for the grand jury in $1,000. The agents say she has been peddling dope for months among the colored people of the Columbus avenue section.

BRITAIN SENDS MORE WARSHIPS TO TURKEY

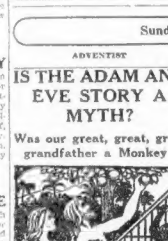
London, March 10.—The British battleship Marlborough, with five destroyers, will sail for Constantinople next Tuesday, it was learned today.

Sunday Services

ADVENTIST

IS THE ADAM AND EVE STORY A MYTH?

Was our great, great, great grandfather a Monkey?



Infidelity Is Baffled

at the overwhelming array of evidence brought out by Evangelist R. S. Price in his strikingly illustrated lecture in Defense of the Bible.

COME—SEE—HEAR SUNDAY NIGHT at 7:30 ADVENTIST TEMPLE

Cor. Warren Ave. and W. Canton St.

Mr. Price will answer these questions:

Did God make the earth in six days or did it take millions of years?

Where did life come from?

Was Adam made from dust?

Did Noah build an ark?

The Meetings That Are Different

GIRL TELLS OF KIDNAPING

Coal Man Breaks Under Suits

Today

News for Mars
One Suicide, One Joke
Great Surgery
Frozen Frogs

—By Arthur Brisbane—

Copyright, 1923, Star Co.

YOU WOULD ask a man from Mars, "What do they look like up there? What was happening when you left."

If today in Mars the same questions were put to you about the earth, you would answer about as follows:

PEOPLE ON EARTH are two legged, balancing themselves skillfully on small feet. They can look up at the sky, clouds and stars, but do so rarely. Most of them look down or straight ahead, seeking money or food. They look worried, usually.

NOT KNOWING exactly what would interest a Martian, from today's collection of earth's news you give him these samples:

A man jumped off the Washington Monument and killed himself. Of what was he thinking as he went up? How much, if any thinking, did he do as he whirled down, 550 feet to the bottom?

THEY LIKE jokes on the earth. One clerk in a bank locked another clerk in a vault with a time lock. The clerk locked in, and rescued alive, is in danger of insanity. That joke worked.

SURGERY IS sometimes used in place of miraculous power to cast out devils, that is to say, insanity. A boy in his teens is found on the roadside, a raving maniac. The doctors cut a piece of bone from his skull and remove a blood clot from the brain. Now his mind works normally. This doesn't mean that the mind or soul is physical. It means that mind works only through good machinery.

LIFE ENDURES strange conditions. The country ships frogs at one dollar apiece to Japan for breeding purposes. The frog shipped, *packed in ice*, will arrive at Japan's frog farms apparently frozen solid. Japanese breeders will handle them carefully, thaw them out gradually. Soon they will be hopping around as cheerful as ever, ready to perpetuate their kind and supply blind frog legs for the fastidious. Cold does not destroy low forms of life. Disease germs live in ice.

IN JAPAN advance thought demands "the single standard of morals" for men and women. That's a long step from the compound where young girls were sold, retained for the convenience of Japanese manhood and its double standard.

SENATOR HORAH wants a real world court. He is welcome to want it as long as he doesn't succeed in getting the United States into it. He also wants the United States to recognize Russian government. That is common sense.

LOUIS SIEBOLD, intelligent Washington correspondent, calls attention to the fact that if we get mixed up in that world court we might accidentally find the court deciding for us what we must do about allowing the Japanese to own land and citizenship in California. That will interest Hiram Johnson and his friends.

IN A BEEHIVE it would seem strange if a drone or the queen bee invited the workers to a party. Among men it seems natural. England's King invites the Labor party to dine with him next Thursday and attend a royal party at Buckingham Palace the next day. Labor accepts, considering it great honor to be invited by the royal family that labor has fed, dressed and nursed for centuries.

THE LABOR MEN will wear silk knee breeches, silk stockings and take lessons in conduct. They will be told not to speak until the King or Queen speaks to them, must call the King "Sir" and the Queen "Ma'am."

The laboring men will try to maintain their proud democratic independence in presence of royalty, and won't succeed very well.

ARCHEOLOGISTS ANNOUNCE that ladies of ancient Egypt put rouge on their eyelids. Nobody knows what this passion for decoration means. Nature puts something that looks like rouge on the eyelids of certain kinds of monkeys, and that pleases monkeys of the other sex.

NOT MUCH news besides the above to tell the man from Mars as you read this morning's papers.

KIDNAPED GIRL SLEPT IN COAL BIN

MARGARET SCEVIOUR

Fourteen-year-old South Boston girl who was kidnaped by two men in auto, rode around with them all day Monday, was dumped out near her home, slept five nights in coal bin, and lived all that time on two hot dogs, according to her remarkable story.

AUTOISTS ACCUSED BY GIRL

Says She Slept in Coal Bin and Lived Five Days on Two "Hot Dogs"

"I was kidnaped by two men in an automobile Monday morning. They rode me around all day, then dumped me out near home. I hid in a coal bin in a cellar near home that night. I lived five days on two hot-dogs. I slept nights in the coal bin. Friday the police found me in a doorway."

That was the gist of a strange story told today by fourteen-year-old Margaret Sceviour of Athens street, South Boston.

Special Officer Eaton and Patrolman Olsen of Athens street police station, who found the girl, located one of the two motorists in whose machine the girl says she was riding Monday.

This chap, a young man living near the girl's home, admitted that he was riding with him and a companion.

SLEPT IN COAL BIN.

Margaret daughter of Mr. and Mrs. Joseph Sceviour, started for school Monday morning. She was not seen again by her parents until the police found her Friday, crouched in a doorway of an Athens street house. She was about as grimy and black as a white girl could be. Her appearance bore out her story of having slept in a coal bin.

Her own story today was:

"I was on my way to school Monday morning. Two strange young men in a touring car asked me to have a ride. I didn't want to go to school. I took the ride. They rode me around nearly all day. I don't know just where the machine went, somewhere in Dorchester, I think. I did not get out of the car. They wouldn't let me. Finally they dumped me out near my home.

"I was afraid to return home that night. So I went into the cellar of a house on Athens street near my home and slept in the coal bin that night.

FOUND IN DOORWAY.

"Tuesday morning I was hungry. I had a dime. I went out and spent a nickel for a hot dog. That was all I ate Tuesday. I slept Tuesday night in the coal bin. I was afraid to go home.

"Wednesday I spent my other nickel for a second hot dog. That was all I had to eat Wednesday. Thursday I didn't eat at all. I slept there Thursday night. I was very hungry Friday. I was out and, while I was in a doorway, the police found me and took me home."

The doorway where Margaret was found is within a block of Athens street police station. Persons who saw her told the police.

Margaret was questioned again today by the police, but would not make any accusations against the two motorists of having been physically harmed.

She was in a dazed condition and told her story in answer to questions.

Aristocratic Cattle on Ship for Lieut. Gov. Fuller

Lieutenant-Governor Alvin T. Fuller will receive a herd of full-blooded Guernsey cattle on the Atlantic transport line freighter Michigan, due Monday. The herd consists of fifty-five cows and heifers and one bull.

The cattle were bought on the island of Guernsey by Mr. Fuller on his recent European trip. They are to form the nucleus of a future herd of large proportions which will range the Fuller acres in Ryc.

On arrival here the aristocratic bovine immigrants will be taken to the Littleton animal quarantine station for observation as to their freedom from disease. The formality is comparable to holding a duke and a flock of countesses down at Gallup's Island to determine whether they park cooties in their hair.

50,000 WAR ON VICE IN LYNN

Inter-Church Union Organizes Campaign, Following a Revel in Park

The most widespread vice crusade in the history of Lynn got under way in that city today.

As the result of a four-day revel in a house at Grovenor Park last month, the Inter-Church Union, with 50,000 church members, has organized a campaign whereby each member becomes a volunteer crusader against vice in any form that may show in Lynn.

At a conference today, attended by Chief of Police Thomas M. Burckes and Police Inspectors Murphy and Stevens, who investigated the Grovenor Park party, the Rev. Chester J. Underhill of the Church Union told of the plans of the organization.

"There are twenty-six churches in the union," he said. "Fourteen of them have already signified their willingness to co-operate along the lines laid down. The other twelve will undoubtedly do so at an early date.

"Each of the twenty-six churches is to have a committee of three, which will receive reports from all the members of the church. The committee will report to the pastor of the church, and the pastor, in turn, will report to us. Each church will be held responsible for conditions within a radius of a quarter of a mile of the church. Thus the city will be covered like a blanket.

"The Grovenor Park incident, with its booze, its women, its drugs and its unprintable debauchery, was given the city of Lynn a snitch that must be eradicated. We know that you of the police department are eager to co-operate. We know also that certain others in the city are covering up.

"We are going after all violators of the city's morality laws. We are going to clean up Lynn. The Mayor will get a report of every violation we uncover, as will the police department, so that there will be no excuse for lack of punishment."

Saved With Daughter at Fire

MRS. ALBERT ST. PIERRE

RESCUE 12 AT TWO FIRES IN LYNN

Twelve persons, three of them women and children, were driven from their homes and the business section of the city was threatened by two separate fires in Lynn today.

The first fire, in the three-story tenement house at No. 8 Palfrey street, sent six families out into the freezing temperature, several being assisted by police and firemen.

Mrs. Albert St. Pierre and her daughter Ruth, aged ten, who were asleep, were carried out by officers.

The fire started in the basement in the apartment occupied by Mr. and Mrs. Albert St. Pierre in the front basement. Mr. St. Pierre raised through the house awakening other tenants.

Patrolmen Ryan, Hickey, Rack and Kennedy of the Lynn police, who responded early, aided through the building, assisting the inmates to the street.

Among those assisted out were Mrs. Evelyn Barrows, George Brown, Mr. and Mrs. Arthur Blanchard, Mrs. Josephine Demos, Virginia Demos, aged thirteen; Theresa Demos, aged six, and Eugene Demos, aged five; Mrs. Catherine Vose, Mrs. George Pratt and her daughter Margaret, aged eleven.

Damage was estimated at $4,000.

Shortly after two alarms were sounded for a fire in the Knights of Columbus building at No. 90 Market street. The location, in the heart of the business section, caused grave fears and the additional alarm was sounded as a precaution.

The fire started somewhere in the centre of the building, from unknown origin. Clouds of smoke hampered the firemen. The building is a four-story brick structure occupied on the first floor by the Patterson Clothing Company and Goddard Brothers Dry Goods Company.

Quick work on the part of the firemen prevented a spread to adjoining buildings, and damage will not exceed $1,000.

TROUBLES TOO MUCH FOR PRATT

$50,000 Love Action and the Servants' Demands for Pay Cause His Illness

A $20,000 breach of promise suit.

Several minor suits for back wages from a band of servants.

Hardening arteries, and complete nervous collapse.

This is the list of troubles that Frank E. Pratt, 63-year-old coal baron, is facing in his apartment at No. 87 St. Mary's street, Brookline.

Against his overwhelming liabilities he has but one asset, according to his attorney, George E. Mosher. That is his trusting wife, who has hurried from New York to nurse him through the collapse brought on by a $20,000 suit brought by Mrs. Hettie Potter, who charges that he promised to marry her, posing as a single man.

Mrs. Potter, a Medford divorcee, states she has known him for more than twelve years, and that he told her he was divorced and begged her to marry him. They made definite plans to marry, she asserts, and were going to New York for the ceremony, when he was taken suddenly ill, and the trip was postponed.

It was only after he failed to join her in a New Hampshire Summer colony last September, she declares, that she learned of his wife.

The chauffeur who drove Mrs. Potter to New Hampshire, and the other servants who attended her there, have filed suit against Pratt.

PRESTON TO ADOPT ONG'S 3 CHILDREN

The adoption of the three minor children of Eugene W. Ong, former vice-president of the United Fruit Company, is sought by their grandfather, Andrew W. Preston, founder and president of the company, in a petition filed in Essex County Probate Court, Salem.

A. W. Preston

The children, now in custody of their mother, Mrs. Bessie W. Ong, Preston's daughter, who divorced her husband January 26. The children are Patricia W., aged five; Richard P., six, and Dorothy, thirteen.

STORM-SWEPT SHIP ARRIVES 10 DAYS LATE

Ten days overdue, the American steamship West Haven arrived today from Rotterdam and Antwerp, after a passage delayed by storms and ice in the North Sea, which swept across the ship from an ice field off Sable Island. She ran short of fuel and Captain F. C. Culver put in to Halifax. While there Lawrence Dempsey of Norfolk, Va., a seaman, was struck by a revolving winch and killed.

MAD DOG ROUTS WORCESTER FAMILY

Worcester, March 10.—A collie dog owned by Mr. and Mrs. Albert G. Wilson, drove members of the family into the street today. A patrolman answered the cries for assistance and the animal sprang at him and was clubbed to death. It is believed the dog was mad. The head will be sent to Boston for examination.

MRS. KAUFFMAN DIES IN ATLANTIC CITY

Atlantic City, N. J., March 10.—Mrs. Etta Kauffman, fifty-seven years old, widow of Abraham Kauffman, New England knitting mill owner, died of heart disease in her apartment in a beach front hotel here. Her home was in New York city.

ARREST FOUR IN EAST BOSTON DRUG RAID

One of the biggest raids in the history of East Boston took place today when police seized narcotic drugs of unknown value, hypodermic needles, three barrels containing 134 gallons of wine and a quantity of brandy at the double house, Nos. 137 and 139 Condor street.

Four persons were arrested. They are Lucy and Pasquale Vennzetto, both twenty-three; Josephine Melli and Nicola Andrea. All were arraigned later in East Boston district court on charges of violating the drug and prohibition laws.

For some time the police of Station 7 have been investigating the activities of the four, especially the women, whom they allege have acted as agents for the men in dispensing dope to bolters and addicts.

A search warrant was obtained and today Sargeant Freeman led a raiding squad to the house. They found the contraband concealed in a number of ingenious hiding places.

The drugs, in pill and powder form, will be analyzed.

There appears to be some doubt as to just what kind of dope was found in one box.

This is a whitish powder that does not resemble cocaine or morphine. It is thought this may be some derivative of morphine.

POLICE ON TRAIL OF GIRL'S KIDNAPERS

Rochester, March 10. (By International News Service).—Police, scouring the city and surrounding country for three men who kidnaped a young woman here today, predicted arrests before night. Special officers, armed with a description of the kidnapers' car and the license number, were on the trail of the owner. The abduction, one of the boldest ever perpetrated in the city, was witnessed by H. J. Canover, motor man. Three men leaped out of an automobile and surrounded a young woman about 20 years of age. According to Conover, the woman screamed and fought fiercely, but was quickly overpowered and carried to the car. The men threw her into the rear seat and drove off.

NO. STATION TUNNEL BLOCKED BY TIEUP

Thousands of commuters were delayed today and traffic on the Boston Elevated and Eastern Massachusetts Street Railway Company surface lines leading into the tunnel at North Station was tied up for a half hour when a one-man car of the Eastern Massachusetts stalled at Causeway and Beverly streets. Something went wrong with the air. Thousands of passengers left the cars and walked or took the Elevated at North Station. Surface cars were finally diverted along Washington and Canal streets to Haymarket square.

'BABY DOLL' THE SLAYER, CRIES HUSBAND

Did Harry "Sneaky" Baker confess to the murder of Dwight Chapman of Westboro for love of Eleanor "Baby Doll" Baker?

Did the affinity of former Patrolman John "Terry" McGovern point Westboros "man about town" to death with a claw-hammer in a drunken rage?

Baker, in a petition for a pardon from his sentence of life imprisonment in Charlestown, says yes.

Embittered by the girl's betrayal of his trust, Baker now declares he will tell all. His story has gone to Governor Cox in a personal letter, which is accompanied by a formal petition drawn by his counsel.

Harry Baker

"Baby Doll"

It is commonly believed Baker pleaded guilty to second degree murder and accepted a sentence of life after Baby Doll had thrown herself on her knees and begged him to confess. This was in Worcester jail during the trial.

Baker's petition for a pardon was today sent by Governor Cox to the State Pardon Board. The board will investigate and report back to the Governor. A hearing will be held next Thursday at Charlestown State Prison, where Baker is serving.

Today to friends he is reported to have said: "I lied and said I killed Chapman because I loved her. Then I would have died willingly to save her life. I would have given not life anytime for her until—well, until all this come out about her and that policeman, Terry McGovern.

"When that was told to me and friends showed me the newspapers with accounts of it all, I saw what a sucker I had been. Baby Doll killed Chapman. She was drunk. She beat out his brains with that claw hammer."

INSURANCE MAN OWES $23,581; ASSETS $150

Paul Everingham, insurance agent of Boston, today filed an involuntary petition in bankruptcy, giving his liabilities at $23,581 and his assets at $150, consisting of clothing. The State Street Trust Company, for $6,000 on promissory notes, and William F. Childs of Chicago for $4,600, are the principal creditors

STATE PRISON CONDEMNED BY FORBES

The Charlestown State Prison is insanitary and antiquated, discipline is unnecessarily severe and no effort is made to cure or reform the prisoner.

Prisoners are committed into dark and solitary confinement for several days for nothing worse than an insolent look.

These are some indictments against the State Prison contained in the report of W. Cameron Forbes, former Governor-General of the Philippine Islands, who was appointed by Governor Cox to inspect the institution.

"Sleeping quarters," Forbes declared, "are narrow and ill-ventilated. The cells are dark with no adequate air and sunshine facilities. The sanitary arrangements are antiquated and barbaric and not creditable to the good name of the State. Offensive odors are serious.

MEALS AND SEWERAGE.

"The prisoners are not allowed to eat in a common dining room, but have to take their food to their cells and eat in the same room with sewerage and their beds. This is inimical to effective prison hygiene and renders the cells difficult to keep clear of vermin.

"Prison schools are neither well organized nor adequate. The prison shops are poorly constructed.

"We found a great variety of opinion about the character of officials. In the main they seemed to be earnest and humane.

"The consensus of opinion was that a certain proportion of [illegible] against their position and were unnecessarily harsh and severe on prisoners.

"It was charged that some of the officers 'had it in' for certain prisoners, and were determined to get them; did not allow them to have unbroken rest at night; kept them awake by flashing lights in their faces as they slept, and goaded them into retort and then punished them severely for it.

"We got no proof of this, but found it to be the consensus of opinion.

"SILENT INSOLENCE."

"There is need in the prison a system of punishment by dark and solitary confinement. The proportion of those who suffered this punishment or any punishment is relatively small. Some of them were regarded as incorrigible. Some expressed interviewed said that they believed some of the cases such that could not be handled in any other way.

"I find that 'insolence' includes an offence known to officers of the prison as 'silent insolence.' The record will show that there were given several days of dark and solitary confinement with bread and water for an insolent look, having said nothing.

"While not general, it is a serious matter. Dark and solitary confinement should be prohibited."

Forbes closed by recommending that the entire prison be abolished and a new, modern institution built.

To Take New Position

Harry W. Spaulding of Manchester, N. H., who was recently made comptroller of customs at Boston, will assume his new duties Monday. He will be sworn in by Collector Wilfred W. Lufkin at noon.

REJECT REVERE PLAN FOR TROLLEY MERGER

The appeal of the people of Revere and Chelsea for better street railway service by merging the lines of the Boston Elevated and Eastern Massachusetts was turned down today by the legislative Committee on Street Railways. The committee has decided to report in favor of the creation of a planning board to devise improved transportation for the Metropolitan district.

M'ADOO DISPUTES BALFOUR'S SPEECH

Los Angeles, March (By the Associated Press).—William G. McAdoo, Secretary of the Treasury during the World War, said in a statement to the Associated Press today that it was never suggested by Lord Balfour or himself that Great Britain should assume responsibility for loans made by the United States to allied governments other than Great Britain.

FRANK FERDINAND IS LAID AWAY

Major Curley officially represented the city at the funeral services this afternoon of Frank Ferdinand, veteran furniture dealer of Roxbury, which were held at the Dudley Street Baptist Church. Prominent business men of Greater Boston were present.

Rev. Arthur T. Brooks, pastor, conducted the services. Music was under the direction of William Hamblion, presiding at the organ, which was given to the church about a year ago by Mr. Ferdinand. A male quartette sang favorite selections of Mr. Ferdinand, "Nearer My God to Thee," "Onward Christian Soldiers," "The Old Land," and "America."

The honorary pallbearers were Victor A. Heath, manager and treasurer of the Ferdinand store Charles E. Osgood, Frederic L. Rugg, of the National Rockland Bank; Alonso E. Yout, secretary of the Massachusetts Furniture Dealers' Association; James G. Knowles, representing the Timothy Smith store; George H. Corey, vice-president of the Old Colony Atlantic Bank; A. McArthur, Felix Smith, Judge Albert F. Hayden, of Roxbury Municipal Court; Associate Justice Wilfred Bolster of Municipal Court; Colonel William A. Gaston, Nelson P. Curtis, Ernest A. Reuter, R. Elmer Townsend, Louis K. Liggett, Anselm L. Bacon and Stanley M. Bolster.

The ushers were Edward Burnett, assistant manager of the Ferdinand store; James L. Hickey, Thomas Davis, Edmund Lamb, George Kelly, Bernard Morgan, George I. Green, Harry Richmond and Charles H. Cochrane.

The Frank Ferdinand store was closed all day.

THOUSANDS OF BAY STATERS LOSE IN STEEL COMPANY CRASH

SUBURBAN INVESTORS VICTIMS

Concern With 15 Subsidiaries Ran Hub Restaurants; No Fraud Is Charged

By HARRY A. BENWELL.

Thousands of dollars of Boston and Massachusetts money is involved in the crash of the L. R. Steel Co., Inc., of New York, it was learned today.

The Steel Company, parent organization of fourteen subsidiaries, sold thousands of shares of stock in this State during the past three years.

On February 27 last the home office at Buffalo, N. Y., requested the Department of Public Utilities to cancel the company's registration as brokers.

One of the stocks dealt in to a large extent in this vicinity was that of the Charles Weedman Corporation chain of lunchrooms, two of which are located at No. 7 School street and at No. 422 Washington street.

MANY OFFICES IN STATE.

The request for the cancellation of registration came after the Department of Public Utilities had made ineffectual efforts to obtain financial statements of the companies whose stock was being sold.

The L. R. Steel Company, Inc., maintained two offices in Boston, one at No. 209 Tremont Building and the other at No. 100 Old South Building. Alvin O. Eddy of West Roxbury was said to have been in charge of the Boston interests of the company.

Other offices were maintained at Brockton, Cambridge, Lawrence, Lowell, New Bedford, Springfield, Worcester and Lynn, with one of the biggest selling organizations known.

15 SUBSIDIARIES.

The principal stocks dealt in were those of the Weeghman Lunchrooms, the Mary Lincoln Candy Company, Inc., the Steel Realty Development Corporation and Steel's Department Stores, Inc. Other subsidiary organizations were the L. R. Steel Service Corporation of New York, which was the stock selling part of the outfit; L. R. Steel Company, Ltd., Federal Stores Company, L. R. Steel Service Corporation, Ltd., L. R. Steel Company, Ltd., 5 cents to $1 and 5 cents to $10 stores operating in Canada; Steel Lingerie, Waist and Hat Shops, operating in Canada; Steel Cafeterias, operating in Canada; "Jane Drew" Candy Shops in Canada; Steel Realty Development Corporation, Ltd., Moore Haven Sugar Corporation, and the F. E. Nelson Company.

AMBITION SOARED.

The L. R. Steel Company, Inc., controlled all the other companies and disposed of stock in them in various parts of the country. The idea was originally promoted by Leonard R. Steel, who had visions of a gigantic chain of varied industries and shops, controlled by one company of which he was the head.

The organization, planned and worked out with much fidelity of detail, became of such unwieldy proportions, however, that last January Steel withdrew, three years after its inception.

It had obtained a foothold in Massachusetts late in 1920 or early in 1921, and a small army of stock salesmen was turned loose to boost the stock of the various subsidiary companies.

GLOWING PROMISES.

Glowing promises of big dividends were said to have been made and a great many people throughout the State put their money into the propositions. At first there were returns, but after a time they began to dwindle, and complaints were received in ever increasing numbers. These complaints, made to the various offices, never reached the authorities, however, and as far as could be learned there was no evidence of fraudulent dealing.

DENY RADICALS A CHANGE OF VENUE

Boston Harbor, Mich., March 10.—Circuit Judge Charles C. Whale today denied the motion of the defence in the trial of twenty-two alleged radicals asking for a change of venue on the grounds that because of widespread publicity, fair and impartial trial of the alleged Communists in Berrien county is impossible.

Makes Neat Switch

FROM OLD RHEOSTAT.

How to make a neat switch from an old rheostat. Remove resistance wire from the rheostat and make ten notches in the composition form on which it was wound. Wind a length of No. 14 bare wire in each of these notches, leaving an inch or two for soldering to coil up ends. You now have a neat switch, which may be mounted in back of the panel. Sent in by George Haider of No. 14 Gay Head street, Jamaica Plain.

Radio Program

WNAC, BOSTON.

9:30-11:00—Broadcast direct from the Hotel Brunswick. The Leo F. Reisman Orchestra of the Tuxedo Terrace will play: (a) "Lady of the Evening"; (b) "Sweet Lady"; (c) "Don't Be Too Sure"; (d) "My Mother's Lullaby."

NEW HAVEN TAUNTS MATTAPAN WITH STALLED COAL TRAIN

RESIDENTS SEE BUT GET NONE

Loaded Cars Lay Idle Two Weeks in Plain View of Fuelless Homes

You can't teach an old dog new tricks, nor an old railroad any new ideas.

In the face of the most violent public indignation, Federal condemnation and State investigation the New Haven road is up to its old tricks.

For two weeks twenty-four cars of stove, nut and pea coal have been planted on the trucks of the New Haven at Bige Hill avenue, in Mattapan, in the rear of the Homelyke Bakery Company.

HOME TO EMPTY BINS.

Daily for two weeks people of Mattapan have passed by, and resentfully at the 1,000 tons of coal, and then returned home to stare wistfully at their empty bins. There are at present 600 families in Mattapan without coal. Much sickness has resulted from the fuel shortage, and considerable suffering among the poor of the city.

Herbert Cantwell of Walk Hill street, employed as a foreman for the Homelyke Company, asserted that the coalless citizens were so irked at the tantalizing sight of over 1,000 tons of coal lying idle on the tracks that there had been talk of raiding the cars and taking the coal.

"I went to the fuel distributor in Mattapan," he said, "and I asked if I could get any coal. He told me coal was being parcelled out only in 100-pound lots. I told him about the coal cars lying idle on the tracks. He said he would look into the matter. I suppose he's still looking into it."

Destination marks are not visible on the cars. There are no bills of lading attached as far as the reporter could see. As a result of the recent storm, the cars are covered with snow. The tracks are so impeded that it will take a large crew of men many days to clear the way for the cars to move.

QUESTIONS ASKED.

Nobody seems to be able to give any answer to the questions the people of Mattapan are asking, as follows:

Who owns the stalled twenty-four cars of coal?

Why have they been sidetracked for two weeks?

Why are not proper destination marks on the cars?

Why hasn't the State Fuel Administrator taken possession of the coal?

The Boston American can answer the last question. Mr. Phelan has been in Bermuda, where coal is an inconsequential matter. That's why he hasn't done anything about it.

As to the other questions, officials of the railroad at Mattapan had one answer.

They don't know.

Whose business is it to find out?

HEART ATTACK DRIVES WOMAN TO SUICIDE

Stricken suddenly ill while at her work in the Haymarket Relief Station, Mrs. Annie Wheeler, sixty years old, sought relief from her pain by attempting suicide. She was prevented from carrying out her purpose by other employes of the hospital kitchen, who checked her as she was about to cut her throat with a kitchen knife.

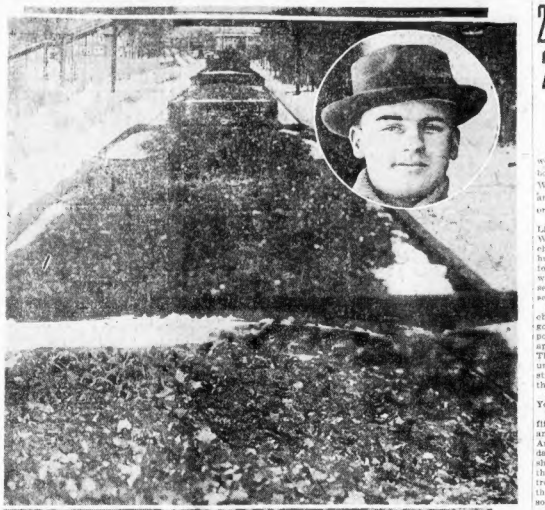
Mrs. Wheeler, employed as a cleaner, had been subject to heart attacks. Physicians at the Relief Station who examined her, said the woman was also suffering from mental disease brought about by intense pain.

THAWS WATER PIPE, STARTS $1,500 FIRE

Dominic Budwitz found a water pipe frozen today under the kitchen sink in the house he owns at Dorpies at No. 12 Wilton street, Hyde Park. Lighting a twisted newspaper, Dominic thawed out the pipe. But fire ran along the woodwork under the sink, too. Dominic knew nothing of that until fifteen-year-old Arcilino De Santo saw smoke from the Budwitz house and gave an alarm. Dominic, his wife and three children were driven out. Firemen kept the damage down to $1,500.

FLAMING CURTAIN SCARES FENWAY GIRLS

Eighty-six girls living at the Fenway Business Girls' Club, No. 1126 Boylston street, were given a bad scare when a curtain in one of the club rooms caught fire. The girls had retired for the night when the fire gong sounded. They dashed into the hallway where they were marshalled by the matron in charge. The flaming curtain was extinguished before the firemen arrived.



TRAIN STALLED IN MATTAPAN AND FAMINE SUFFERER

Page Mr. Phelan—The New Haven has left this loaded coal train on a Mattapan sidetrack two weeks. The railroad doesn't seem to know who owns it. Meanwhile residents with empty bins, one is Herbert Cantwell (insert), are told by the local fuel distributor no coal is available. Cantwell works in a bakery and from the window there has looked out on the stalled coal train daily for two weeks.

'FEVER GIRL' HAS LIFE OF JOY

By Cosmopolitan News Service.

Escanaba, Mich., March 10.—Evelyn Lyons, Escanaba's "fever girl," is having the time of her life.

She's the most-talked-of woman in the "upper peninsula," and wouldn't that please the vanity of any woman? And Evelyn is a "regular" woman. What does Evelyn care whether the heads of the thermometers the doctors stick in her mouth "pop" off?

"That's the doctor's lookout," said Evelyn, "and, anyway, what's a few notches more or less on the thermometer? That doesn't bother me, like? I should say not. I'm not even considering it as a remote possibility. Just because I have a little more heat in my body than anybody else isn't any reason I should pass out of the picture. Is it? I'm not sick just a bit weak is all."

Miss Lyons is attractive and twenty-six. Her dark brown hair is prematurely shot through with gray.

EX-POLICE CHIEF'S HOME IS BURNED

The home of former Chief of Police Charles H. Franks at No. 24 Waltham street, Lexington, was destroyed by fire early today, with a loss of about $2,500. Fire started in a barrel of ashes in the basement and spread rapidly to the upper part. The former chief and his family fled to the street. Trolley car traffic was delayed twenty minutes as a result of the fire.

2 MOTHERS AND 2 BOYS FLEE THEIR HOMES

Four cases of missing persons were reported today, two Winthrop boys with the elder's trombone; a Winthrop mother of four children and a young East Boston mother of one child.

The mother of four is Mrs. Susan Lindsey, lodging in Freemont street, Winthrop. The State had taken charge of their four children. The husband, Watson Lindsey, has well-to-do relatives in St. Louis. Three weeks ago he went to St. Louis to settle there, set up a new home, and send for his wife and children.

Mrs. Lindsey, who expects a fifth child, was vehemently opposed to going to St. Louis. This opposition, police believe, accounts for her disappearance. She left her lodgings Thursday, went to the home of her uncle, Frank Thompson of Beale street, left a suicide note there and then disappeared. The note read:

"I am going to commit suicide. You will never see me again."

The missing Winthrop boys are fifteen-year-old Tommy Knudson and his thirteen-year-old brother, Arthur. They started for school Friday from their home, No. 45 Marshall street, Tommy, who plays in the high school orchestra, had his trombone. Their mother later traced them to Boston and found they had sold the trombone for $15.

Mrs. Josephine Bollacci left her home, rear No. 291 Sumner street, East Boston, Tuesday, telling her three-year-old Lena she was going to the drugstore for ice cream. She did not return.

The husband, Francesco, thinks she left with an elder woman, who had called on his wife recently. His wife's description is: Twenty-one years; five feet, eight inches tall; 160 pounds; brown coat, brown shoes, dark blue suit.

GOMPERS RESTS EASIER; WIFE AT BEDSIDE

New York, March 10.—Resting a little more comfortably and anxious to get back to his desk, Samuel Gompers, president of the American Federation of Labor, was seriously ill with influenza at the Lenox Hill Hospital today, where he has been confined since Wednesday with bronchitis and threatened with pneumonia.

Samuel Gompers

"If I had my way," Mr. Gompers told his secretary, W. C. Roberts, "I'd get out of bed, take the next train to Washington and go right down to the office and get to work. I feel strong enough for it now."

Mrs. Gompers was at the hospital with him for several hours. She came here from Washington when her husband was ordered to the hospital by Dr. Gustav Ehrich, who scolded his patient for not seeking attention much quicker. Mr. Gompers was shed two days at the Hotel Astor before he sought his physician, a lifelong friend.

Dr. Ehrich today issued this statement:

"If Mr. Gompers' condition shows the same steady improvement during the next twenty-four hours that it has during the past twelve hours we will be able to announce that our patient is out of danger."

Death Threat for Judge in Liquor Case

Pittsburgh, March 10.—Police Magistrate R. L. Sneeop today turned over to the authorities a letter from Providence, R. I., condemning the Judge for fining a man who had a spoonful of liquor in his possession.

The letter, signed by "John Williams," declared that "I do wish and earnestly hope that there is one red-blooded American in Pittsburgh who will put a knife or a bullet in your dirty hide for imposing such a fine on any man for the possession of a spoonful of liquor."

A clipping of the story of how the magistrate fined Peter de Maridas $100, after police had confiscated the spoonful of liquor, was enclosed.

60 ETHERIZED IN N. Y. SUBWAY

New York, March 10.—Sixty passengers on a Seventh avenue subway train were overcome today by ether escaping from a can carried by Richard Chanorro, a young South American, who told the police he was taking it home for a cold. When the train pulled in at the 96th street station, practically every passenger in the second car was swooning and many were hysterical. Chanorro was arrested.

Chanorro entered the train at the 72d street station. Soon afterwards the pungent odor of ether permeated the car and men and women became ill. Some of those standing dropped to the floor unconscious.

RULES FOR SALE OF MILEAGE BOOKS OUT

Washington, March 10.—Regulations governing the sale of interchangeable mileage books, by which purchasers of 2,500 miles of transportation may obtain a 20 per cent. reduction under regular passenger fares, were issued by the Interstate Commerce Commission today in spite of the announcement of eastern railroads that the reduction order would be contested.

The railroads were granted until May 1 to put the tickets on sale, however, whereas originally it had been decided that the mileage book facilities would be installed by March 15.

Purchasers must have their autographed photographs pasted on the cover of the mileage books, in order to prevent scalping.

The Commission denied a request of commercial travelers' organizations that coupons in the mileage books should be made available for payment of excess baggage and other railroad charges.

RUN ON N. Y. BANK; 4 OWNERS MISSING

New York, March 10.—Police were notified today that Vincenzo Tisbe, who conducts a bank on Mott street having deposits of $2,000,000 had disappeared. A clerk, who opened the combined banking, insurance and steamship agency house today told the police that Vincenzo Tisbe's three brothers, Riccardo, Vito and Francisco, all members of the firm, had failed to appear. Within an hour after the bank opened, more than 200 excited persons had gathered. Many wanted to withdraw deposited money with the firm, wept and tried to fight their way past policemen at the door.

SPORTS REVIEW

TWILIGHT LEAGUE OVERSTEPPING "GREATER BOSTON" IDEA

OUT OF TOWN TEAM WINS PLACE OVER HOME CLUB

By JOHN B. GILLOOLY,
Sporting Editor.

Twilight League baseball and tennis have the call this week. Claude Davidson, president of the Greater Boston Twilight League, who piloted the organization over a very rocky course last season to a most successful "championship ship awful," seems to have stubbed his toe in adopting a Lawrence club to take the place made vacant by the withdrawal of the St. Joseph's of Somerville from the league. The Dilboy Post, also of Somerville, was among the clubs anxious to gain admittance, and it would seem that they were entitled to first call.

The Dilboy organization is one of the most popular and "live" posts in New England and has a membership of some 600, each and every one a "booster."

They have already won an enviable place in the world of sport through the clean and upright manner in which they have handled their amateur boxing and other athletic shows, and their plans for the baseball season called for a team that would uphold the reputation already made by the Dilboy Post.

It is pointed out that Davidson rather over-stepped the "Greater" Boston idea in jumping to Lawrence without gaining anything, as the Somerville club offers the same if not more inducements than the out of town team.

President Davidson and his league might profit by taking up the Dilboy proposition.

John B. Gillooly

Tennis Players Ousted to Make More Room for Golfers

The future Bill Tildens, who are regulars at the Franklin Park courts are up in arms—protesting bitterly against the wiping out of 14 courts in the park during the past year and the failure of the city to maintain the remaining 16 in good playing condition.

Seven courts were taken last Spring to make way for golfing greens and tees. Seven more have now been taken, because they lie in the line of the fairways on the improved get a chance to play a few games.

eighteen hole course, laid out at enormous expense by the city.

Grass Courts Have Not Been Properly Graded

The park courts, which are grass, have never been properly graded or rolled. One spring rolling with a heavy roller, followed by a light rolling each time the grass was clipped, has been deemed sufficient.

The courts are lumpy, rough, uneven and will not give a good bounce for ball. Many of them have large depressions. There are no backstops, but the users consider this a minor matter. They are willing to chase a ball down one of the rolling hills, provided some other defects are remedied.

What the users ask is that the courts that have been taken be replaced by others in some other part of the park where they will not interfere with the golfers.

There must be additional courts or else the players must wait hours to

HORSE RACING

Many Thoroughbreds Wintered in Good Shape at Old Benning's Race Course

By GUS DALY,
Horse Editor.

The old Bennings race course, the scene of many grand thoroughbred contests, sheltered this Winter 150 head of racing material. This

Gus Daly

is an ideal spot to condition. The Winter was exceedingly mild. The result was that all the horses are fully two weeks nearer racing condition than usual at this date.

When the Eastern racing season opens April 2 at Prince George's Park, Bowie, Md., there will be at least three-score and ten ready and reasonably fit to race.

The stables that wintered there were those of Admiral Cary T. Grayson, Edward Bolle McLain, Joseph E. Davis, George Widfield, Harry Payne Whitney, Samuel Ross, Solby Hunch, Elmer Truesdale, Max Stuart, Preston Burch and James W. Ilean.

Horses from those stables will have a strong following with those with speculative leanings, for it was a severe Winter for training purposes at all of the tracks about New York. The result was that the racers from those camps will not be ready for hard contests when the bugle blows at Bowie.

This was a week of music at Jefferson Park. Long shots prevailed.

Edward Gray looms up as a formidable candidate for the Derby. This is the colt that was backed from twenty down to six to one at the Pale Grounds. He scampered home in front but was disqualified for an alleged foul.

Shaw Wagered Enough to Win a Fortune

Tom Shaw, the big operator, was said to have wagered enough on him to win a small fortune.

Rupee, a strong favorite, recently went to the post sore and lame. The owner, with others, appealed to the judges to be allowed to scratch. After an investigation by the stewards that was denied. Rupee finished sixth in a field of half a dozen. It's a cruel world.

The Business Men's Racing Association held to the United States government for amusement an income tax of $46,000 for the thirty eight days of racing at the Fair Grounds, New Orleans.

Jockey Will Be Laid Up for Four Months

H. Thomas, who was thrown while riding William of Coventon recently, will be laid up for at least four months with a broken leg.

Jockey Abel has been engaged to ride Calcutta in the Jefferson Derby. The steam racing has been the best ever.

H. D. Brown, founder of Oriental Park, and Dan Block, owner of the famous Morvich, were recent visitors.

At Tia Juana the spirit of the old slogan "Give until it hurts" still exists. C. H. Irwin and Jockey Grimes collected more than $3,000 for the widow of Jockey Mack Anderson, who was killed in a race. Twas ever thus with horsemen.

Winner of 16 in 20 Has Broken Down

Harry D, winner of sixteen out of twenty starts, has broken down.

B. Kennedy will ride Prince Ti Ti in the Derby and Bon Homme in the Cuffeath Handicap for Owner J. B. McKee.

Buster Keaton looks like the champ two-year-old of the Pacific Coast.

Blue Bonnets, Montreal, generally considered one of the most picturesque and attractive race courses in all Canada, may abandon its Spring and possibly Fall program of racing. The racing laws of Quebec levies a tax so high on the Pari Mutuel that the attendance was visibly affected. There was a large deficit last year, and unless some change is made in the present law, Blue Bonnets may pass it up.

DARTMOUTH BEATS TECH GYMNASTS

The Dartmouth gym team walked away from the M. I. T. gymnasts, they trimmed the Engineers, 32-10. The captain Beggs on the horizontal bar and C. Graydon in the tumbles performed some beautiful stunts for the Green, while Jack McCoy's flying tricks on the rings were the outstanding feature of the meet. He has registered the eight points of the Technology total.

Dartmouth brought a much stronger team to Cambridge than was expected and succeeded in securing every first place except one. The Cardinal and Gray was slightly handicapped because of only one entry on the horizontal bar.

The summary:

Parallels — Won by Captain Beggs (D.); second, Morley (D.); third, Soria (T.).

Horse — Won by Yoklavich (D.); second, McAdams (D.); third, Graydon (Dartmouth) (T.).

Horizontal—Won by Pearl (D.); second, Smith (D.); third, King (T.).

Rings—Won by McCoy (T.); second, Dawson (D.); third, Smith (D.).

Tumbling—Won by Graydon (D.), tie for second between Schmidt (D.) and Anderson (T.).

Score—Dartmouth, 32; M. I. T., 10.

SHORT GOLF GAME BEST, DECLARES CHAMPION

By GENE SARAZEN,
World's Champion Golfer.

Between the time of the national open championship and the professional championship I played a number of exhibition matches. I was playing quite well—better, in fact, after the first week, following my victory in the open, than I ever played before, because now I had the confidence to go with my game. Consequently, as I look back over the season's play, it is not greatly surprising to me that I won the professional title also.

There was never much doubt in my mind about the outcome. I didn't give much thought as to whom I was to meet, nor was I concerned about the results of the matches. I simply went out, day after day, during that week in August at Oakmont, and played whoever my opponent happened to be.

In the third round I met Jock Hutchison, and this was by far the hardest match of all during that tournament.

I can easily understand why Hutchison is such a marvelous golfer. He is plugging all the time—no matter how the going is.

We had quite a thrilling match, which ended in my favor after I had been fortunate enough to get four strokes in a row on the last four holes.

After this match, I was more confident than ever that I would win this tournament because I knew that no golfer in the game fights harder than Hutchison and because I also knew that Jock had played remarkably fine golf all the way. I defeated Emmet French in the final round for victory.

Since winning these two titles, I have been asked a number of times which shots are most needed to win. My reply is immediately the short game.

Of course, one has to have a golf swing and the ability to play the shots up to the green.

All of the leading professionals and amateurs have this ability. The first ten or fifteen players in this country are practically on a par.

Consequently, a man who is playing those short approaches well and who is putting in good form, is likely to be the winner.

It was my short game that enabled me to win the professional title. Hutchison and several of the others played fully as well as I did up to the green, but during that week, I was deadly on my chip shot and putting finely.

You generally play your short game well when you are feeling fresh and confident; the keener you are for the game the more likely you are to play your approaches accurately.

You never saw any golfer who was fatigued or lacking in confidence play a good short game.

In playing the chip shot it is well to keep in mind that you must always be up to the hole.

"Hit the ball!" is a good maxim to adopt for every shot. You have probably seen golfers hit their approaches timidly and then take three putts.

If your short game is ragged you are apt to lose your confidence and to go timid. There is nothing like, being up to the hole or above it on all your short approaches. You will find that you will be getting very close to the pin if you make up your mind that you are going to be past the hole on that intricate little chip.

RACING

New Orleans Entries

FIRST RACE—Purse $700, claiming, two-year-olds, four furlongs (127):

Fatty Howe	122	Homer	103
Roman Girl	114	Lasting Love	103
Jolly Jane	114	Reputation	103
Lee Action	112	Bertie May	103
J. C. Bolin	112	Miss Jack	103
Joe Gentil	108		

SECOND RACE—Purse $700, claiming, three-year-olds, five and a half furlongs (112 and 107):

Whitecliffs	116	Peter Brown	111
Stillwhite	115	Diagolin	111
Wrangler	112	Corbomps	111
Tender Sesh	112	Hodnut	111
Parsenia	112	Red Top	106
Jupiter	112	Llewellina	106

Also eligible—Tourbillon 111, alleola 111, A. C. A. Reinhart111.

THIRD RACE—Purse $700, allowances, three-year-olds and up, five and a half furlongs (46):

Lee Enfield	106	Last Effort	101
Harry B	105	Kirk Lady	100
Saracosa	105	Delightful	100

FOURTH RACE—Purse $1,000, the Mardi Gras Handicap, three-year-olds and up, one mile and a sixteenth (66):

Sir Thomas Kean	115	Colcetta	98
Parader	114	Rine Nose	96
Literary Rose	110	Courier	93

FIFTH RACE — Purse $700, claiming, three-year-olds and up, one mile and a sixteenth (112 and 107):

Handful	114	Seeswing	109
Tarson	114	Hitchcock	109
Prince Palmer	114	Pre Paper	109
Bob Hall	114	Ella	107
Old Chap	114	Orchoma	104
Night Trail	114	Ellis	104

Also eligible—Challenger 114, Plum Blossom 114, Spectrum Girl 109, Helen Atkin 109.

SIXTH RACE—Purse $700, claiming, three-year-olds and up, one mile and a sixteenth (112 and 107):

Sethina	115	Magnolia	110
Flying Chief	114	Hallie Du	107
Walnut Hall	113	Kentfield	110
Sweepmore	113	Bridgeth Queen	106
Dressing	114	Moody	106
Prince Wells	110	Thorka	105

Also eligible—High Gear 111, Tag 110, Wyeth 110, Minnie B 108, Sweeney 105.

Apprentice allowance claimed 5 pounds. Weather clear, track fast.

Havana Entries

FIRST RACE—Three-year-olds and up; claiming; purse $500; six furlongs (175):

Mickey Smiler	98	Mr. Murphy	107
Gossler	88	American Eagle	110

CASEY ALL-STARS ARRANGE CONTESTS

On Tuesday, at Williams Hall, Chelsea, the Knights of Columbus League All-Stars will play the Chelsea Cricket team.

On Wednesday, at Roxbury High School, the All-Stars will oppose the Boston Shamrocks.

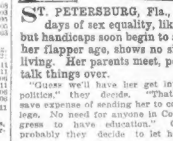
Included in the All-Star line-up are such stars as Henry Riley of Shawmut Council, "Jimmie" Cassell and "Sticky" Riley of Boston, Thompson of Bunker Hill, "Johnny" Piegott and "Bill" Kennedy of Mt. Pleasant, "Bill" Molley of Chelsea and "Joe" Sweeney of Rose Croix.

The Whirlwinds will use their regular line-up, including "Red" Connaty and Schmuke of the New York Celtics.

"Try To Hit It" The BULL'S-EYE By NICK FRATLEY

ST. PETERSBURG, Fla., March 10.—All women, in these days of sex equality, like all men are born free and equal, but handicaps soon begin to appear. Modern girl, as she passes her flapper age, shows no signs of being able to earn normal living. Her parents meet, possibly for first time in years, and talk things over.

"Guess we'll have her get into politics," they decide. "That'll save expense of sending her to college. No need for anyone in Congress to have education." Or probably they decide to let her



have position on newspaper, especially if she has been bookward in school. What chance has a girl got, once at all. Thrown into maelstrom of modern struggle for existence, she probably will become rich and dishonest, thus disgracing her proud family, marry and divorce four or five husbands, and finally end by sweet-young life in kinkerbockers and a wild rage over being unable to devise a way to beat the surtax on personal incomes.

OUR friend numb Nettle actually believes that manual labor is a barber.

FROM KING TUT'S FILES

MY great grandmother wants me to write this out:

"Do you know Senator Keyes of New Hampshire?

"Oh yes, I know a bunch of them."

And I would have written it before only the Senator pronounces his name in rhyme with cakes, alas, and I think that sorta spoils the joke, don't you?

THE airman from battle who runs away, will live to fly another day.

WHY DO PEOPLE

ALWAYS fix their hair before stepping in to see the doctor. Make gestures while telephoning.

Giggle when somebody is horribly embarrassed.

Ask conductors to change big bills.

Look suspiciously at anyone who laughs out loud in a car at night.

Stare so insultingly when you give up your seat to a girl.

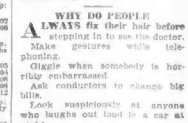
— THE GYNIC.

I ALWAYS WANTED TO

SEE a truck hit a hydrant and watch the resulting fountain.

A. C. E.

KICK the shins of the dame who rubs her wet umbrella



against my newly pressed trousers.

JAY VEE.

ON THE EL

I DROPPED a coin into the box, In the jam at Sullivan Square. But the copper grabbed me by the neck;

Could relieve us, I'll be bound,
If they made our money circular,
Why then, it would go round.
HAPPY AL.

He said it wasn't fare,
FELLSWAY.

HOSPITAL objects to nurses with bobbed hair. Afraid, perhaps, the patients would recover too rapidly.

HIGH BROW STUFF

FIRST editor—What do you think of the psychological situation.

Second editor—The bunk.

First editor—Oh. I think it's pretty wise.

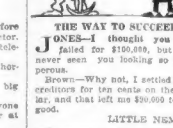
Second editor—Not wise, otherwise.

— BILL COLLINS.

OUTSIDE OF THAT

REPORTER — And was the foreman cool, calm and collected after this here explosion.

Union worker—Gyes, he was calm and cool, but he ain't been collected as yet.



THE WAY TO SUCCEED

JONES—I thought you had failed for $100,000, but I've never seen you looking so prosperous.

Brown—Why not, I settled with creditors for ten cents on the dollar, and that left me $90,000 to the good.

LITTLE NEMO.

WANTA BASEBALL PASS? HERE'S HOW TO GE' IT!

LIFE'S a funny proposition.
If you can see the fun in it,
You can win yourself a baseball pass for the 1923 season.

"TRY TO RING THE BELL."
We will give the writer of the best contribution for the month of March a pass to either of the ball parks. Vote early and often. That's all. It's up to you.

RENAULT DEFEATS JOHNSON PROTEGE

New York, March 10.—Jack Renault, the Canadian heavyweight, knocked out George Godfrey, protege of Jack Johnson, in the eleventh round of a 12-round bout at the Pioneer Sporting Club.

Renault beat the "Black Panther of Leipsville, Pa.," throughout the fight. The fight was regarded as a test of Godfrey, highly regarded by some fight experts.

HARVARD TRACK MEN COMPETE TONIGHT

Harvard's indoor track season will end tonight when the Crimson varsity athletes will compete at the Meadowbrook games in Philadelphia. J. W. "Billy" Burke of Wakefield, captain of the team, will compete in two events and is expected to be one of the big noises of the evening.

Burke will match paces with Earl Eby, Tommy Campbell and a few others of the country's best in a 660-yard run, a special event for the President Harding Trophy. He will run as anchor man on the Crimson relay team, which will travel over the one-mile distance against Yale, Princeton, Syracuse and other colleges.

Despite its lack of success in relay races earlier this year, Coach A. A. Ganser, Harvard stands well up in the Meadowbrook rating. The Crimson one-mile relay outfits have already won two of the three legs on the big Meadowbrook relay cup. A victory will give the cup to Harvard.

The men who will run a quarter mile each for the Crimson are Jimmy Murphy, the sorrel-topped sophomore; Al Gordon, formerly of Weston Latin; Jim Merrill and Captain Burke. Billy will be the anchor.

Two other lads will uphold the prestige of Harvard. Carl Hauers, intercollegiate high hurdle champion, will face the high barriers in a battle with the best of the Eastern contenders, and Jack Eastman, the tackle, will put the 16-pound shot.

Eastman, incidentally, could not toss the shot more than 36 or 37 feet about eight weeks ago. Already he has tossed it more than 42 feet in competition. He has been awarded a varsity "H" because he got second place in the shot event at the indoor intercollegiates in New York last Saturday.

This makes Eastman the sixth three-letter man at Harvard. He has already gained his insignia in football and wrestling. He has held the varsity heavyweight wrestling championship.

MYSTIC'S SCHEDULE HAS THIRTY GAMES

The schedule of the Mystic Valley Interscholastic Baseball League —Arlington, Melrose, Wakefield, Watertown, Winchester and Woburn—has thirty games.

The list follows:

April 18—Melrose at Melrose.
April 21—Melrose at Arlington.
April 24—Watertown at Winchester.
April 27—Watertown at Wakefield.
April 28—Arlington at Winchester.
April 28—Melrose at Woburn.
May 2—Woburn at Arlington.
May 5—Winchester at Woburn.
May 8—Wakefield at Arlington.
May 8—Melrose at Watertown.
May 12—Arlington at Melrose.
May 12—Winchester at Wakefield.
May 15—Wakefield at Watertown.
May 18—Watertown at Arlington.
May 19—Woburn at Wakefield.
May 19—Arlington at Winchester.
May 22—Winchester at Watertown.
May 23—Wakefield at Melrose.
May 26—Arlington at Wakefield.
May 26—Melrose at Winchester.
May 29—Watertown at Woburn.
June 1—Arlington at Watertown.
June 2—Woburn at Melrose.
June 5—Wakefield at Winchester.
June 6—Melrose at Wakefield.
June 8—Arlington at Woburn.
June 9—Winchester at Arlington.
June 9—Watertown at Melrose.
June 9—Wakefield at Woburn.

Boy Loses Fingers

Thomas Cogan, sixteen years old, lost four fingers of his left hand at the City Hospital as a result of having caught them in machinery at his place of employment, No. 637 River street, Mattapan.

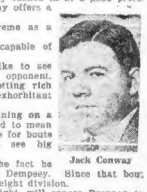
BOXING AND WRESTLING

Heavyweight Boxers and the High Price of Junk—Good Night, Mister Calza.

By JACK CONWAY.

Junk sold high during the week, classic material was scarce and so persons with broken-down ships, broken-down autos and a great deal of other battered and bruised property cashed in at a good price.

The heavyweight boxing division today offers a fertile field for the finest junk dealers.



Jack Conway

Jack Dempsey stands forth as supreme as a great ocean liner upon a calm sea.

There is not a man in the world capable of defeating him.

The public, very naturally, would like to see "Tiger Jack" in action with a suitable opponent. So the junk dealers of pugilism are getting rich selling broken-down hulks to the fans at exhorbitant prices.

Bill Brennan, who now does his training on a brewery wagon if appearances can be said to mean anything, continues to get $10,000 or more for bouts merely because the public is curious to see big fellows in action.

Brennan's ring prestige is due to the fact he once weathered twelve rounds with Jack Dempsey. Since that bout he has been the trial horse of the heavyweight division.

Luis Angel Firpo, Argentine heavyweight, will oppose Brennan in Madison Square Garden on Mnday night in the next big "get the money" match.

It is not known whether Brennan has deserted the brewery wagon for the training camp. As for Firpo, he looks like a husky boiler maker. He doesn't know anything about boxing, but is big and strong and can give and take a punch.

He is still pugilistic junk, but as the public likes size, he is cashing in on his bulk.

Everywhere boxing managers and promoters are digging up big fellows so as to amuse the public. A couple of fairly good lightweights are fortunate if they draw a $10,000 house, while a couple of big bums will play to a $50,000 to a $100,000 mob. So you can hardly blame the promoters and managers for their interest in the funky junk pile.

* * *

Meanwhile Johnny Wilson, middleweight champion, is still in "the country." It is a year and a half since Jawn of Charlestown enraged in a regular battle. There are a dozen or so perfectly good middleweights who would like the opportunity to knock Wilson out.

How long will it be before Wilson comes out of his shell and accepts the challenges of one of the contenders?

What a picnic Stanley Ketchel would have if he were dropped down in the centre of the middleweight division today!

* * *

George Calza, Italian heavyweight wrestling champion, has lost a great deal of his prestige as a result of his refusal to go through with his bout with Stanley Stadak. It is the general opinion of mat devotees that Calza fears Stadak and as a result does not care to enter a ring with the Pole.

Renato Gardini has hinted that if Calza persists in his refusal to clash with Stadak that he will have to step into the picture and save the prestige of Italian wrestlers. Gardini says he fears no man.

Boston American Ring Results

At New York—Jack Renault, Canada, knocked out George Godfrey, Philadelphia, eleventh round; Benny McCoy, Baltimore, got the decision over Joe Souza, California, ten rounds.

At Minneapolis — Joey Sanger stopped Sammy Mandell in seven rounds; Eddie Wolfe knocked out Tommy Neary in seventh round.

At Chicago.—Frankie Garcia and Eddie Anderson went ten rounds to a draw; Joe O'Hare beat Harry Simmons in eight rounds; Eddie Miller defeated Maxie Epstein in six rounds; Eddie Kripps stopped Eddie Walsh in the third round.

At Milwaukee.—Johnny Mendelson won from Johnny Sauer in ten rounds; Jack Schoenherr beat Marty Forkins in eight rounds.

SIX-DAY BIKERS REST FOR FINAL SPRINTS

New York, March 10.—The last day of the six-day bicycle race at Madison Square Garden which ends at 11 o'clock tonight, found seven of the thirteen teams deadlocked for the leadership, and conserving their strength for the final spurt.

The leading teams were Grenda-Gaulbet, McNamara-Horan, Goodman-Landa, Egg-Van Kempen, Brocco-Coburn, Hanley-Magin and Duysse-Dupree.

BRAVES AND RED SOX ARE READY FOR SOME REAL BASEBALL

BUCKNELL COLLEGE BOY JOINS THE MITCHMEN

By NICK FLATLEY.

St. Petersburg, Fla., March 10.—The Braves' artillery had its last exclusive practice today. When next week's gymnastics start the whole club will be present and a lot of real baseball will be the daily menu, which will be perfectly satisfying to the players, the public and your correspondent.

It's a great thing to see a lot of fine husky kids work themselves physically into the shape of the well-known Greek gods, but it is not exactly exciting. The rest of the troupe registers here tomorrow night.

Two practice sessions will greet them for a starter, though the program will undoubtedly be abbreviated after the superfluous wrinkles are melted off and the sore muscles loosened up.

It hasn't been hot enough here yet to cause any suffering or fatigue, but the natives tell us that real weather is due from now on, and that means something continually around the ninety mark.

The week's work for the baby athletes has been very successful, and the boys who are supposed to make the base hits will run immediately into a lot of fast and curve-ball pitching. Mitchell has some ten fillngers here now who are straining at the leash, as they say in the film captions, to cut loose.

He gave the boys a little chance yesterday in a scrub game, and had another of the same variety this afternoon, to give the sharpshooters who didn't make the initial event a warmup.

As a Ball Game It Was Nothing Great

As a ball game it was nothing to brag about, that affair, but it did let the athletes do some swinging, and they found out that curves are just as elusive in the Spring as they are in mid-Summer. Of course, said curves are not so sharp, but the batting eyes are not so keen, either.

Mickey O'Neil captained one team, and Hank Gowdy the other. The youngsters' team won six to five in five innings that were marked by the sort of fielding one would expect with a lot of southpaws stuck every here and there on the screen.

Boy from Matty's College Provided a Feature

Earl Tomkins, who hails from Owner Matty's Bucknell College, provided one of the features by smacking a lusty triple to the palmetto fringe in centre early in the fray. It was the first chance Earl has had to do anything except help around the clubhouse, and he sure enjoyed it.

Earl is one of the most picturesque birds we have encountered in any training camp. He hasn't had much baseball experience, but he thinks he can make himself go to a pitcher, and he's willing to try.

He's a big, strapping shoplifter, with hands like hams, and the regular copyrighted piano legs. But he has plenty of speed of a fashion, as he showed while ploughing around the bases. He went so fast that he casually failed to touch any of the bags. He screeched loudly when accused of that oversight, showing that he has part of the real baseball makeup, anyhow.

Earl Arrived on Sunday and Reported to Mitch

Earl arrived in our midst late Sunday night and reported to Manager Mitchell. It was a volunteer stunt. When last heard from the big boy was being wined with the amateurs up in Mechanics Building.

But he decided that wasn't his game, and concluded he'd hop into the large leagues.

He hadn't any money, but plenty of ambition. He grabbed himself a job on the boat out of Boston for Jacksonville, and thus got into Florida. Then he managed to "auto borrow" his way across the State and reached camp.

When he landed, he had just $2.

CHANCE DECIDES TO BE AN ACTIVE COACHER

By CHARLES E. PARKER.

Hot Springs, Ark., March 10.—Frank Chance will occupy the first base coaching box this season.

The Peerless One made that announcement to the Hot Springs scribes this morning, and it carries a world of significance to those who know inside baseball.

It means that a master of the fine points of the game will be in active charge of every Red Sox offensive, that nothing will be left to the sometimes immature, sometimes faulty, sometimes mistaken direction of the players themselves.

Chance knows, as does every close student of the game, that games are won and lost on coaching fully as often as through hits and errors, and that in close games it is the batter directly behind that most often wins. And Chance is out to win such games, for he believes he will need every one of them if the Red Sox are to get up there this season.

Rain threatened to interrupt the practice program today. The new storm put in its appearance as the athletes were working out yesterday, and as the day progressed the storm increased.

Myrtle, the lady alligator, whose boudoir adjoins Whittington Park, hopes that the storm will put a check to the batting proclivities of "Lefty" O'Doul, for yesterday he planted two overthe-fence drives in close juxtaposition to her head and annoyed her terribly.

The first box score from the Red Sox camp will be telegraphed Northward on St. Patrick's Day, for according to plans made by Secretary Larry Graver that is the day on which will open the annual Regular-Yannigan series.

Yannigans Play Regulars on St. Patrick's Day

The second game of the series will come one week from Sunday, and several others will precede the four-game Pittsburgh-Red Sox series, which is to start March 24.

Further evidence that the Red Sox scorn "the long hop" was forthcoming in the signing of "Dutch" Gramsh, a six-foot right-handed pitcher from Columbia University. Gramsh will make the eighteenth player on the Red Sox roster who comes up to or over the six-foot mark, and eleven of the eighteen are pitchers.

Carl Stimson Is the Tallest Pitcher in Camp

To Carl Stimson instead of Fowlces goes the distinction of being the tallest member of the outfit.

Quite a dispute developed among the players as to which of the pair stretches further skyward, and the official measurements which resulted award Stimson to be six feet six inches in height, while Fowlces proved to be but a scanty six feet five and one-half inches.

Stimson comes fresh from the semi-pro ranks. He played with the Haines, Wis., team last year. He took his first turn at mound duty yesterday, and most favorably impressed the Red Sox scouts.

Tomorrow is the scheduled reporting time for the infielders and outfielders of the club, and before the week is out some indication will be had what the reorganized Red Sox will look like will be had.

Brennan and Firpo Bout Is O.K.'d for Monday

Luis Firpo

Tex Rickard usually smiles last.

It is, therefore, very natural that the court should refuse to grant an injunction against the fifteen-round bout between Bill Brennan and Luis Firpo, which is billed for Madison Square Garden, New York, next Monday night.

The Pioneer Club asked that Firpo be enjoined from boxing on the ground that it had a prior contract with the Argentine heavyweight. The court heard the evidence, blinked in judicial fashion and then entered a decree allowing the match to go on.

Big Bambino Back; Watch Swat King

New Orleans, La., March 10.—"Babe" Ruth, king of swatters, was declared to be in great shape by Colonel T. L. Huston, part owner of the New York Yankees, notwithstanding the attack of "flu" at Hot Springs. "Ruth will take things easy for a few days," declared the Yankee owner, "and then get down to real work. You know there is plenty of time to get into condition before the opening gong sounds six weeks from now."

Babe Ruth

NATIONAL LEAGUE HEAD SAYS RUBE CAN'T PLAY

By Universal Service.

Los Angeles, March 9.—Despite Judge Landis' official O. K. pitcher "Rube" Benton, over whom a storm has been brewing for months, is not going back to major league baseball.

In a telegram to Garry Herrmann, president of the Cincinnati Club, President John A. Heydler of the National League declares that Benton cannot play with that team or any other National League club.

Heydler's telegram follows:

"Pitcher Benton's right to play in organized baseball never has been questioned by me. And for his sake I am glad that his eligibility has been definitely settled by Commissioner Landis.

"The National League, however, several years ago instituted a policy of determining who shall not play on its clubs. In carrying out this policy it is my judgment that Benton is not the type or character of player we want. Therefore, I shall not sanction his return to our organization.

(Signed) JOHN A. HEYDLER, President.

President Heydler is visiting friends in Hollywood. His veto of Judge Landis' final opinion may or may not evoke a storm within the inner circles of baseball, as it is understood Herrmann had built high hopes upon the acquittelion of the big pitcher.

Report Haughton to Coach at Columbia

New York, March 10.—Percy D. Haughton, formerly football coach at Harvard, has signed a contract to coach the Columbia eleven, the New York Tribune says today.

SCHOOLBOYS

One of the Most Active Weeks of Winter Season Has Closed

By FRED C. LANE, Schoolboy Editor.

Fred Lane

The schoolboys, their followers and tutors have passed through one of the most active weeks of the season. Several important questions gave little chance to think of the coming baseball season.

The petition of the track captains and managers of the Boston high schools to Nathaniel C. Young, director of physical education, requesting him to assist them in their fight for prizes; the clash of Coach Joyce of Lynn Classical and Mayor Harland McPheires over the eligibility of a Lynn English High student; the question of a coach at Haverhill High; preparations for the Regimental games slated for March 23 and 24, and various other incidents, had a tendency to keep the brains of the youngsters in a whirl.

After sounding out Director Young on his stand in the matter of prizes, it appears that all efforts to win back the privileges once enjoyed by the athletes of this city have been in vain.

Coach Joyce has withdrawn his application from the Haverhill Athletic Board, which means a torrid quarrel when the next political fight gets under way in Lynn.

Haverhill High authorities lean kindly towards "Mike" Gullan, former captain of Brown University and All-America choice for right tackle. It looks very favorable for the former Bruin star.

Picking the prospective winners in the "ringless" is the important issue in the minds of the local lads. Judging from the performances of four boys who won many honors in this year's Indoormeets a new list of marks will be entered in the books.

The physical condition of Bill McKillop, captain of English High, will have much weight in deciding whether this lad is going to clip seconds off the 1,000-yard record of 2m. 29 1-5s. made by Earl Dudley of Boston Latin in 1917. McKillop has raced over this route in better time on four occasions this year. He has been ill the past week and this may prevent him from erasing that mark.

Grunif, the English High intermediate, is racing true to form and bids fair to lower the record of six seconds held by Jacob Dorck, Frank Taber and Randolph Smith.

Gordon Clarke of Hyde Park is looked upon as a good prospect to upset the 600 senior mark of 1m. 52 2-5s. held by William Tibbets, formerly of South Boston, made in 1920. Clark has been clocked in 1m. 54s on two occasions this season.

Basketball Game Tonight

Tonight, at the South Boston High School, Fore Marquette Council, K. of C., will meet Lou Mitchell's Liberty Exchange. A large crowd is expected.

TOMMY CLAYTON SEEKING ACTION

Tommy Clayton

Tommy Clayton, the classy West End lightweight, is once more in shape, after his long lay-off. He would like nothing better than to meet the winner of the Monday night bout. Clayton is now under the management of "Solly" Snyder.

WILLIE JACKSON IS GETTING FIT

Willie Jackson, the New York lightweight, who is roughing it up at Mercer, Wis., getting in shape for a comeback, sends word that he will put in three more weeks at hard labor, after which he will leave for Milwaukee. Otto Horchert, the Cream City boxing promoter, has offered Jackson several lights. The New Yorker expects to stay out West for at least three months.

Willie Jackson

B. C. HIGH WIN ROBS DORCHESTER OF LEAD

Boston College High broke the winning streak of Dorchester High at the Arena today, defeating Captain Kentoff and his Dorchester boys 1 to 0. As a result of this defeat, Dorchester drops first place in the City Hockey League to English High which won over East Boston 9 to 0. Mechanic Arts also upset the dope, triumphing over the Commerce team 1 to 0. The West Roxbury and Hyde Park game ended after the usual time limited, with neither team scoring. Brighton and Trade also ended in a deadlock, scoring one goal apiece.

More upsets and surprises were packed into today's round of games than any time this year. B. C. High has been a strong team all season, but few expected it to win over Dorchester. The deciding tally was scored by Watson in the last minute of the third quarter.

A scrimmage was in progress in front of the Dorchester goal when, like a bolt out of a clear sky, Watson grabbed the disk and whirled it in the direction of the Dorchester net, where it slipped by goal tender Reinhart.

The Dorchester players were a downcast lot today, but their spirit was somewhat revived when Coach Wilson announced that he would make it possible for them to meet English High again before the season closed.

The line-up:

B. C. HIGH.		DORCHESTER.
Watson, r.w.		Nalgles, Butler
Mowerre, c.		Kentoff, Cooper
Sullivan, l.w.		r.w., Manson, Lincoln
Fitzgerald, r.d.		l.d., Goldfine, Harrell
Buckley, l.d.		r.d., Higgins
O'Donnell, g.		g., Reinhart

Score—B. C. High 1, Dorchester 0. Goal—Watson. Referee—Gibson, Fellows.

Captain Art Norton broke all records for individual scoring, scoring eight of the nine goals when English High defeated East Boston, 9 to 0.

The line-up:

ENGLISH.		EAST BOSTON.
Smith, O'Keefe, r.w.		l.w., Burnett
Lewis, c.		c., Leamon
Lapane, Norton, l.w.		r.w., Clark
Hickey, Koplow, r.d.		l.d., Messer
Doran, l.d.		r.d., Higgins

Score—English 9, East Boston 0. Goals—Norton 8, Smith. Referee—McCarthy, Quinlan.

Although Mechanics Arts is credited with a 1 to 0 win over Commerce High in their meeting, a protest is to be entered by the Commerce players, who claim that the whistle had blown, signifying the end of the game before the puck had passed into the net. Coach Wilson is upholding the Commerce protest and plans to thrash out the matter in the near future. The line-up:

MECHANIC ARTS		COMMERCE
Quinlan, Lockhardt, r.w.		l.w., Daley
Calnan, c.		c., Coffey, Farley
Lanata, Cutcliff, l.w.		r.w., Tyrall
Reed, r.		l.d., Chisholm
Winslow, Reinhart, l.d.		r.d., McCarthy
Moore, g.		g., Richards

Score: Mechanic Arts 1, Commerce, 0. Goals, Reed. Referees, Norton, Smith.

Hyde Park continues to show better hockey at every start and held the strong West Roxbury team to a tie game today. Both teams scored a goal apiece in the melee and went on the defence for the remainder of the contest. The lineup:

HYDE PARK.		W. ROXBURY.
Leonard, Cosgrave, r.w.		l.w., Foley, Raymond
Winters, Shea, c.		c., Cardello
S. Fellows, l.w.		r.w., Duffey, Cronin
Simpson, r.d.		l.d., Hogan
Antonio, l.d.		r.d., Kelliher
R. Fellows, g.		g., McCusker

Goals—Donovan, Riley. Referee—McCarthy, McGlinchan.

Brighton and Trade added to the troubles of Coach Wilson by staging a tie game. Neither team scored a goal. The lineup:

BRIGHTON		TRADE
Connors, r.w.		l.w., Benlert
Mauskicle, c.		c., Reilly
Donovan, l.w.		r.w., Littleton
Taylor, r.d.		l.d., Robinson
Olson, Lot		r.d., Sullivan
McCue, g.		g., McClellan

Referees—McCarthy, Smith.

FRIEDMAN LIKELY TO BE KAYOED

Abe Freidman, New England bantamweight champion, must worry about a knockout.

Abe Friedman.

All because he is going to battle K. O. Joe O'Dowell of Philadelphia in the feature ten-round bout at the Armory A. A. show at the Grand Opera House next Tuesday night.

O'Donnell is the hardest hitting bantamweight in the world. When he socks the opposition, it folds up like an army tent. Such is the power of a rigat hand.

Phil O'Dowd, of Columbus, conqueror of Joe Lynch, was stopped in four frames by O'Donnell. So was a flock of other fast steppers.

O'Donnell has clashed with Joe Lynch on five occasions, battled Kid Wilkinson three times and opposed Pete Herman, Johnny Buff, Danny Krammer, Al Shubert and most of the other classy little fellows.

No wonder Abe Friedman has been busy training for ten days. He will have to be at his best to avoid defeat.

Henry Ford of the North End and Young Ketchel of New Bedford mingle in the semi-final of ten rounds. There will also be two eights.

FITZSIMMONS TO BOX AT BUFFALO

Eddie Fitzsimmons has been matched with Tommy Tobin for the second ten-round decision bout on the same card with Champion Mickey Walker and Charlie Finnegan at the Velodrome Club in Buffalo on Monday evening.

Eddie Fitzsimmons

CASEY ALL-STARS ARRANGE CONTESTS

On Tuesday, at Williams Hall, Chelsea, the Knights of Columbus League All-Stars will play the Chelsea Council team.

On Wednesday, at Roxbury High School, the All-Stars will oppose the Boston Whirlwinds.

Included in the All-Star line-up are such stars as Henry Kiley of Shawmut Council, "Jimmie" Cassell and "Ricky" Riley of Boston, Thompson of Bunker Hill, "Johnny" Piggott and "Bill" Kennedy of Mt. Pleasant, "Bill" Melley of Chelsea and "Joe" Sweeney of Rose Croix.

The Whirlwinds will use their regular line-up, including "Red" Connsity and Schmelke of the New York Celtics.

Reading Plays Lexington

Since Reading, the champion, will take part in the basketball tournament at Tufts College, the closing game in the Middle-Essex Interscholastic League series with Lexington, listed for next Friday, will be played on March 13.

MELROSE BATTLES STONEHAM TODAY

Melrose High School's hockey team will fight for the right to meet Ehrl Gray High School of Lachine, P. Q., when it meets Stonehham High at the Arena this afternoon.

Melrose won the Suburban League championship. The team is excellently balanced with a fine defence in Wilbur, Marshall and Lane and an equally efficient forward line in Harrington, Doucette and Gardiner.

Should Melrose win it will play against Earl Gray High on March 25, between the third and fourth games of the U. S. A. H. A. championship series between St. Paul and B. A. A.

Noted Horseman Dead

Havre de Grace, Md., March 10.—Gene Wayland, one of the best known trainers of race horses in the country, died last night of acut dilation of the heart.

SAILOR PETE BYRON BEATEN BY WALKER

Worcester, March 10. — Archie Walker of Brooklyn, N. Y., defeated Sailor Pete Byron of Worcester, New England lightweight champion, in every round of their ten-round main bout and won the decision by several miles.

Mickey Green of Worcester won over Billy Cahill of Everett on a technical kayo in the semi-final when Cahill was obliged to quit after the third round, because of a cut over his left eye.

EGAN WON IN TWO EVENTS FOR OXFORD

London, March 10.—Oxford beat Cambridge in the boxing contests, 4 to 3. E. P. F. Egan of New College, Oxford, won both the heavyweight and light heavyweight contests. In the heavyweight match he met Simpson of Cambridge and beat him so badly the referee stopped the fight in the second round. In the light heavyweight match his opponent was S. F. Meikle, Cambridge. The referee stopped the bout in the third round.

In the bantamweight match D. R. P. Clarke, Cambridge, stopped F. W. Harrold of Georgia University and Hertford College, Oxford, in two rounds.

AMATEUR BOUTS BILLED FOR B.A.A.

The B. A. A. will hold its last boxing show of the season at the Exeter Street clubhouse on Wednesday evening. This tournament will also be the final open tournament of the season previous to the New England championships on March 23, and it will afford an opportunity to aspirants for New England titles to compete within a reasonable length of time previous to the coming championships.

Practically all of the best boys in New England will be on hand to show their wares and one of the best meetings of the season is predicted. The weights to be contested will be 112, 118, 126, 147 and 160 pounds and prevent indications point to many spirited bouts in each class.

Entries will close on March 13 with Thomas J. Kanaly, B. A. A., Exeter street.

DILBOY POST WILL STAGE RING SHOW

On next Thursday evening in K. of C. Hall, Somerville, the Dilboy Post, V. F. W., will conduct its last open amateur tournament prior to the New England championships. The classes to be contested are 112, 120, 135, 147 and 178 pounds, and the entry list indicates that this tournament will prove the biggest event of the season outside of the coming championships. Entries close Wednesday, March 14, with George A. Bowles, Room 3, K. of C. Building, Somerville.

FORBES' VIEWS ON FINANCE

—By B. C. Forbes—

Do you think any scheming promoter or rag-tag-and-bob-tail broker should be allowed by law to incorporate a worthless company and sell its stock or bonds to the public?

It is counted a very serious crime to make and pass off spurious one dollar or five dollar or ten dollar or any other bank notes, that is, the paper currency we are carrying in our pockets.

Why should it not be counted a very serious crime to make and palm off spurious stock or bond certificates?

* * *

The New York Stock Exchange objects strenuously to having the State authorities license and supervise brokers. Such a plan would certainly be open to abuse, and, while a lot can be said for it, a lot can also be said against it.

But why should any honest citizen, banker or broker or business man or promoter, object to the kind of law they have in Britain, which provides that the company or firm or individual can offer for sale stock in any enterprise until all the facts concerning assets, prices paid, the commissions allowed, etc., etc., are furnished the authorities and sworn to by those responsible connected with the new flotation?

Over there, no mercy is shown schemers who issue false and misleading statements when engineering stock flotations. The law is rigidly enforced.

* * *

If a proposition is strictly honest, strictly legitimate, worthy of the attention of investors for speculators, those behind it should not object to making public all the facts in return for the privilege of being able to go to the public for capital.

The late J. P. Morgan told his minister that the day was coming when all business would be glass pockets. Publicity has been and still is far too much secrecy and darkness connected with stock exploitation in this country. Why should the governmental authorities take so much trouble and spend so much time to frame pure food laws, and not take all necessary measures to have pure security laws?

No power on earth can save a fool from his folly. But full facts are made officially available, so that prospective buyers can easily get them, then those unlucky ones to part with their savings for stocks or bonds clearly without any merit, will have only themselves to blame.

* * *

I have compiled no fewer than fifty questions for W. C. Durant to answer. As Mr. Durant will be away from his headquarters, New York for another two weeks or so, his replies, which promise to be very comprehensive and fascinating, probably will not be ready for publication for two or three weeks.

* * *

A man who, unprompted, did much to make American business, and particularly American advertising honest and honorable, has passed on, F. Wayland Ayer. Just as John Wanamaker was more responsible than any other man for bringing about honesty in conducting mail order business, so Gary more responsible than any other man for bringing about fair-for-all methods in the steel business, and so later J. P. Mo. an more responsible than any other man for bringing about honesty and trustworthiness and truth in high finance, so Mr. Ayer was more responsible than any other man for bringing about honesty and honor and honesty in the advertising business.

* * *

Not long ago I spent a day or two with Mr. Ayer at his unique dairy farm and milk and ice cream factories in Eastern New York, where he has through many years interested effort revolutionized farming and brought prosperity in place of hardship to all farmers over a wide area. Mr. Ayer told me the story of his life; the first time he had ever done so, he declared.

Here is how Mr. Ayer described to me his very first introduction to advertising by a publisher in Philadelphia:

"He induced me to come and look out of a window. As he pointed down to a business street he said with great enthusiasm that these houses should advertise. There is 25 per cent. commission in it for you. Why don't you take up this line of work? I thought the matter over carefully and started on Monday morning. All through the first week I did not get anything that looked or smelled like an advertisement, although I used up a lot of shoe leather and spent, what seemed to me, a considerable amount of money on street car fares and lunches.

* * *

"I was disheartened, but I made up my mind not to become discouraged in a hasty manner. On Monday I booked my first order for an advertisement. It was a $200 order. It paid me $50 commission.

AMERICAN WOOLEN BUYER RESIGNS

Vaughan Jealous, for years chief wool buyer of American Woolen Company, has resigned. He is succeeded by Alexander Livingstone. Horace C. Jealous, manager of yarn and top department, has resigned to go into business for himself. He is succeeded by Moses Pandleton.

Industrials Most Active Group in Week-End Market With Small Changes

PROFIT-TAKING IS IN FAIR VOLUME

With profit-taking in their volume, industrials were the most active group in week-end trading on the New York Stock Exchange. The tone was heavy with most price changes small.

Oils, motors and equipments changed hands in good volume. Coppers were dull. Talk and inspiration yielded a point or more.

American Tobacco was strong, up more than two points. Stromberg was up better than a point.

In the oils there were point or more rallies for Cosden and Houston. In the equipments American Locomotive sagged nearly two points before recovering, and Baldwin around a point.

The motors started strong but grew soft. Most changes were fractions, but Rupp added more than a point.

Point or more setbacks came in Iron Products, Textiles, Rubber Bearing, California Petroleum, Crucible and Producers & Refiners.

Week-end commercial reviews strick the most optimistic note since the start of the year. Dun's finds progress in business evidence of business recovery in basic industries, and Bradstreet's reports quickening of trade and industrial activity strengthening prices.

DEMAND STERLING SLIGHTLY HIGHER

Demand sterling was slightly higher in week-end quotations for foreign demands, which follow:

	Today	Parity
Sterling	$4.59½-9-16	$4.8665
France (Fr)	.0059	.1930
France (Bl)	.0179	.0579
Belgium	.0255	.1930
Belgium marks	.00562	.0386
Roumanian lei	.0040	.0193
Italy (lire)	.0376	.0463
Pesetas	.1554	.1930
Swedish kroner	.2686	.2680
Norwegian kr	.1866	.2680
Danish kr	.2681	.2680

PRICES IN WHEAT TAKE AN UPTURN

Week-end dealings in the Chicago pit saw wheat take an upturn, ¼ to ¾ cent, with May 74¼; July 75¾; September, 77¼. Corn—May, 44⅞ to 45; July, 44⅝. September, 45¾.

U. S. RUBBER BANK LOANS REDUCED

Annual report of the U. S. Rubber Company is looked for March 12. There is no change in the forecasts as to just what the report would show, but from the latest available information it would appear they have all been wrong. Net earnings, according to those who should know, will prove slightly above 50 cents on the common shares. Preferred dividend. It is declared, was earned in the first nine months of the year. The most favorable feature of the statement, it is said, will be the big reduction shown in bank loans of from $50,000,000 to approximately $20,000,000.

While the earnings shown may be considered disappointing in some quarters, it is pointed out, that indications are that the corner has been turned and that the current year will make a much more satisfactory showing.

BUILDING FIGURES FOR NEW ENGLAND

F. W. Dodge Company reports New England building figures for week ending March 8 over a period of years as follows:

1923	$4,400,000	1914	2,270,000
1922	7,486,000	1913	2,256,000
1921	1,709,000	1912	2,274,000
1920	4,444,000	1911	2,214,000
1919	2,470,000	1910	2,063,000
1918	1,732,000	1909	2,063,000
1917	2,441,000	1908	2,063,000
1916	2,552,000	1907	1,647,000
1915	3,810,000	1906	1,647,000

Points in Friday's Market

Total sales—New York, 931,100 shares; Boston, 26,260 shares.

Most active issue in New York—Loden & Co., 48,800 shares.

Most active issue in Boston—United Shoe, 3,665 shares.

Total sales, Jan. 1, 1923, to date—New York, 52,833,800 shares.

Total sales, adv. 1, 1922, to date—Boston, 1,384,096 shares.

Corresponding period last year—New York, 39,981,300 shares.

Corresponding period last year—Boston, 1,101,859 shares.

UNITED SHOE IS ACTIVE BOSTON LEADER

Boston stocks developed a heavy tone in week-end trading, with changes in prices mostly small. United Shoe was the most active feature, starting up fractionally and then yielding slightly.

Island Creek Coal added a point at 109¾, then yielded. Copper issues and Eastern Steamships sold each a point lower. Osceola, Allouez and Eastern Massachusetts Street Railway took on a point apiece.

There were no fractional gains for Carson Hill Gold, National Leather, Eastern Massachusetts Street Railway first certificates, Arundel Commercial, Swift International, National American Investment, Waltham Watch preferred, Warren Brothers and Hood Rubber.

Reece Button-Hole Machine Company is understood to have earned last year net after taxes of over $250,000, equivalent to $2.50 a share on the 100,000 shares of $10 par. Last year not only was about $110,000 ahead of 1921, but it was the best year the Boston company has had since 1916.

Gardner Motor Company February net was twice that of January. On existing schedules it is figured at the rate of about $2.50 per annum on the 150,000 shares.

BOW-LEGGED GIRLS ALMOST EXTINCT, SAYS EXPERT

By NICHOLAS YOUNG

"WHAT has become of the bow-legged girl?" This was no question to ask a family man, and we promptly told John Murray Anderson he'd have to seek higher authority. As a matter of cold calculation, based on general observation of the various brands of "Follies" that have crossed and recrossed public vision in the last ten years we were almost prepared to state that nothing like a bow-legged girl ever happened, anyway—that she was only an unfounded rumor, based not on fact but on imagination. Mr. Anderson, who has devised and staged four consecutive seasons of Greenwich Village Follies and who is popularly supposed to have a broad experience in feminine loveliness, answered his own question. "Bow-legged girls are very difficult to find," he said. "I know of no statistics on the subject, but it is remarkable how few bow-legged girls we find today. I have been told by a noted physician that there are very few bow-legged babies these days. Of course," he continued, "I am not an authority on bow-legged babies, but I do know that girls with knock-knees, as well as those with bowlegs, are disappearing. In the four annual productions of the Greenwich Village Follies I have met thousands of young women who have applied to us for positions, and in only one instance have I had a girl with bow-legs come to see me. I think this is a remarkable tribute to the artistic symmetry of the American girl. I am told that people used to think children became bow-legged because their parents taught them to walk too soon, but I understand that the trouble is deeper than that—that bow-legs are the result of malnutrition, which makes a deficiency in bone calcium. Evidently mothers are paying more attention to the diet of their children, because the bow-legged girl is now almost extinct. We have the names of more than 2,000 girls on our list awaiting call for new productions, and I cannot recall one that is not straight limbed. The one girl who slipped past us in four years came in with long skirts and got an emergency job, but as soon as she appeared in her practice clothes her secret was out. One in four years—isn't that a record?" Oh, shucks, what's the use of answering fool questions!

"Bow-legged girls are almost extinct," says John Murray Anderson.

POVERTY NOTE—"What's the idea—are you trying to kill the show?" demanded Ed Wynn when his business manager, H. P. Hill, presented a list of locations for outdoor billing for his star's approval. The location at the foot of the list read: "Corner Zweifel and Sheehan streets: opposite Poor House."

FINDS THEM BEST AT THIRTY OR THIRTY-FIVE

PASSING from that type of beauty which makes its deepest impression when introduced with imported lingerie, we timidly approached Otis Skinner, hoping to hit upon a general topic. We were not in good fortune, however, for, like the blizzards of March, womanly beauty was in the air. "A young man has just asked me," Mr. Skinner was saying, "at what age I thought woman reached the full height of her beauty. That's not an easy question to answer. It seems to me that a man's ideal of feminine loveliness changes as he himself advances in years. For example, when I was ten years old I was absolutely convinced that my teacher was the most beautiful woman in the world—and she was forty. Since then my age standard, as you might call it, has lowered a little, but I am still not old enough to have acquired the belief that women are only beautiful at the age of eighteen or under. Most beautiful women reach the zenith of their loveliness at that period in their lives when, not only has their beauty come to the full perfection of its development, but they have also come to the full appreciation of it. I should think that with most women this age might be somewhere between thirty and thirty-five. A beautiful garden carefully tended by a master gardener is surely more lovely than one that is cared for by a person who lacks his skill, experience and intelligence. To the man of good sense and some culture—even a little—no woman is truly beautiful who does not also possess intelligence. The two qualities in mature womanhood walk hand in hand—always." We have been wondering if Mr. Skinner's ideal beauty would make John Murray Anderson blink with appreciation.

"Women are most lovely at thirty to thirty-five," explained Otis Skinner.

—o— —o— —o— —o—

RATTLING THE SKELETON—John McCabe, the suspiciously natural bartender in "Mister Antonio" at the Tremont, inherited his combative spirit from the Fighting McCabes who settled in Wyoming in the early fifties. Young John, in 1898, enlisted in a Wyoming battery, saw service in the Philippines, and then tried to atone for his past by becoming an actor.

VAN BUREN IS LONG DISTANCE CHAMPION

WITH the new week local playgoers will get their first unobstructed view of the nation's long distance dramatic stock champion, Mr. A. H. Van Buren, who is now taking a little vacation by appearing in the new melodrama, "It Is the Law." Mr. Van Buren would make any all-America stock team without even going through the formality of presenting an application. For twenty years he has played in stock companies, starred in them and managed them, not even hesitating in his operations during the Summer months. From Worcester to Denver, and from Milwaukee to Atlanta, this man has carried his talents; he has played everything from Shylock and Ben Hur to Avery Hopwood farces. About all that has escaped his attention is "Uncle Tom's Cabin," and he freely admits that his failure to take a fling at Uncle Tom was an accident. Van Buren's idea of a rest is to abandon stock for a half season and burst forth in regular company with a Broadway attraction, which accounts for his presence with "It Is the Law." He finds it a less occupation when compared to the two-a-day and weekly change of bill as practiced in well regulated stock theatres. Mr. Van Buren might have been completely lost to the stage if he had been permitted to have his own way about selecting a profession. His own idea was to be a ferry boat captain, a natural choice when you consider that he lived in Philadelphia and was the favorite nephew of a man who owned the ferry line between Philadelphia and Gloucester, N. J. The young man's first real friend outside the family circle was the captain of one of his uncle's boats and in quiet moments, between trips, the two laid out the lad's future. Much more than simple parental objection was needed to kill the carefully prepared program—the boy had to be shipped away to school in a town far removed from waters broad egough to hold a ferryboat. Mr. Van Buren still insists that if he had been left to his own devices he would have made a dorned good captain for seas like.

A. H. Van Buren, who might have been master of a ferry boat.

Began in Classics, Now in Comedy

Virginia Hammond, supporting William Courtenay in "Her Temporary Husband," has had a fortunate stage career. She has missed many of the bumps that have befallen other actresses, and in doing so feels she has been unusually lucky. Born in Virginia and named after her native State, she was sent to New York to finish schooling. The stage fascinated her and when E. H. Sothern was looking for an understudy—preferably a girl without experience, but with plenty of ambition—a lucky chance brought her to Sothern's attention. He engaged her as general understudy for Shakespearian roles.

Miss O'Madigan Once in Castle Sq. Company

Isabel O'Madigan, who plays in "Just Married," at the Plymouth Theatre, will be remembered by Boston playgoers as a member of Castle Square Stock Company, with which she was identified for several seasons. Miss O'Madigan was also a member of the Lindsay Morrison Stock Company for three seasons. Since her local stock engagements she has been seen in Boston with "The Brat," "Scandal," "Making Good" and "The Heart of Lotonia." Miss O'Madigan is the daughter of the late Dan O'Madigan, a well-known St. Louis newspaper editor.

Isabel O'Madigan

She was educated at the Sacred Heart Convent in Maryville, Mo., where she took part in school entertainments. After graduation, she, despite a conservative family's objections, continued her dramatic studies. Her professional debut was made twenty-one years ago in the Lawrence Hanley Stock Company in St. Louis. Later she was leading woman for Richard Mansfield and David Belasco.

Loew at It Again With Local Amateurs

Marcus Loew and M. Douglas Flattery announce a forthcoming presentation of Gilbert and Sullivan's popular operetta "H. M. S. Pinafore," by local artists. Young people with voices are invited to join the company. The applicants must, of course, have singing voices, and should enter their applications with the manager of Loew's State Theatre. The production will be staged under the personal supervision of Victor Hyde of New York, who was responsible for the success attained by Loew's Orpheum Frolics.

MAY YOHE & H. F. HOLMES

Slap-Stick Comedy Best for Beginner

Those wishing to become screen actors and actresses should pay strict attention to pantomimic comedy, according to Monte Blue, the debonaire leading man of the movies, in an interview on best means for a novice to study acting.

"Comedy training I am firmly convinced is the great teacher of screen acting technique today," he says. "The beginner can have no better school. The reason is that in order to get over their points, the actors in comedy must make them clear. A person who has spent years in slapstick comedy can go into a picture, always confident of making what is known as 'business' with economy and surenees.

"Take the case of Marie Prevost who played opposite me in my latest picture, 'Brass.' Miss Prevost got her apprenticeship in Keystone comedy; she was taught to 'register' quickly, and to be unconscious of the camera. That is why every little motion of hers is worth studying and emulating."

ELSA STERLING WITH "GREENWICH VILLAGE FOLLIES" SHUBERT

Children at Play Give Comedian Ideas

Children at play form one of the best orginal sources of humor for the benefit of professional comedians. This is the opinion of Jack Pillard, one of the featured principals with "Let's Go," at Waldron's Casino next week.

"Children, especially when they are playing and not aware of being observed, are wholly natural," says Pillard, "and they act each according to his or her individual nature.

"Their viewpoints, their remarks to one another, their little philosophies are not only most entertaining, but they nearly always contain real material of value for stage use. I have listened in' to children at play and made notes of many and many a childish retort or comment which made excellent basis for comedy 'business' on the stage."

Politics and Art Her Ambition

Something more than a long established stage favorite in Boston is Alexandra Carlisle, now at the Selwyn in "The Fool." For several years after her marriage and temporary retirement from the stage, Miss Carlisle made her home in Boston. A natural gift for speaking and an intense interest in political and social affairs led to her choice as one of the Massachusetts delegates to the Republican national convention in 1920, where she made one of the speeches seconding the nomination of Governor Coolidge as vice president.

Alexandra Carlisle

That was certainly a remarkable experience for a woman who until less than ten years ago was a London stage favorite; but is easily accounted for. Her Americanization began in London when Miss Carlisle became leading woman with Boston's favorite comedian, Nat Goodwin, and it was soon after that engagement that Miss Carlisle made her first visit to the United States, coming with Sir Charles Wyndham, in "The Mollusc."

Joe Is Only One of Many Professional Marks

Joe Marks has been barking up his family tree with interesting results. "Great things, family trees," says Joe, who is star of "Youthful Follies" at the Gayety Theatre next week.

"I am not one of the Four Marks Brothers in vaudeville. Neither am I related to Bert and Lou Marks, of Marks, Vitale and Marks, although they are likewise in Columbia burlesque. Then there is Bert Marks of the 'Giggles' show, another burlesque production. But I am not related to him, either. You ask, to whom am I related? Well, I am a brother of Bennie Marks."

"Passers By" Announced at the Somerville

"Passers By," a comedy drama from C. Haddon Chambers' popular novel, will be given at the Somerville Theatre next week. This play was originally produced by Charles Frohman. The return of Philip Sheffield, popular juvenile, is also announced. Tommie Martelle, who earlier in the season created a profound impression with the patrons of this theatre, returns on Monday, March 19th, in "The Fascinating Widow" appearing in Julian Eltinge's internationally famed character.

PLAYS THAT REMAIN

By NICHOLAS YOUNG

Who's Who and What's What at the Theatres With Special Reference to Plays That Are Staying in Town.

"The Fool" at the Selwyn. (Fifth week.) A play for the multitude handling the Golden Rule and practical Christianity in most approved theatrical style.

"Lightnin'" at the Hollis. (Twelfth week.) Good, old fashioned drama, almost too good to be true, but presented in a way that is highly endorsed by playgoers.

Gertrude Hoffmann in "Hello Everybody" at the Majestic. (Third week.) Miss Hoffmann in spirited dance numbers, assisted by girls who display engaging charms.

Ed Wynn in "The Perfect Fool" at the Colonial. (Sixth week.) There isn't much sense to it, but it's a sure fire laugh maker. Mr. Wynn toils merrily in single-handed comedy.

"Just Married" at the Plymouth. (Ninth week.) The season's most enduring comedy farce, with Vivian Martin and Lynne Overman sharing honors in many complications.

Otis Skinner in "Mister Antonio" at the Tremont. (Second week.) A talented artist in a popular play of the present day. Distinguished by good acting. The last week.

"Brass" at the Park. (Second week.) Sensational story reduced to photoplay form, with a brilliant cast to make its story effective. Good entertainment.

"The Third Alarm" at Tremont Temple. (Third week.) Thrilling picture play in which high tribute is paid to the brave fire fighters of the nation.

NEXT WEEK'S NEW BILLS

WILBUR—"It Is the Law," a crime melodrama by Elmer L. Rice, who is also author of "On Trial." Has played all through the present season in New York. In the cast will be seen Rose Burdick, Agnes Martin, A. H. Van Buren, Ralph Kellard, Arthur Hohl and others.

• • •

SHUBERT—Greenwich Village Follies, with John E. Hazzard as the principal comedian, supporting the largest group of pretty girls sent to Boston in one show this season. Prominent in the cast are Savoy and Brennan, Frankie Heath, Yvonne George, Carl Russell and others.

• • •

ARLINGTON—William Courtenay, in "Her Temporary Husband," an amusing farce by Edward A. Paulton. The play has met with success in New York and Chicago. Supporting Mr. Courtenay are Virginia Hammond, George Parsons, Henry Mortimer, Betty Linly and Jack Paulton.

• • •

ST. JAMES—"Spite Corner," written by Frank Craven. First presentation in Boston. Rural drama of popular appeal, with the usual up-State characters. Adelyn Bushnell, Walter Gulbert and Mark Kent will have the principal roles.

• • •

B. F. KEITH'S—(Vaudeville) May Yohe, former Lady Francis Hope, heading the bill, with her original Shell-o-tone Syncopators. Other features are Seed and Austin, Donald Kerr and Effie Weston, Lou Handman, Danny Dugan and Freddie Sanborn. Many other vaudeville features, including a comedy reel.

GLEE CLUB ASSISTS AT SYMPHONY

By ZOE FABER.

The Liszt Faust Symphony, with the Harvard Glee Club chorus and Arthur Hackett, tenor, as soloist, were a decided feature of the eighteenth symphony concert yesterday afternoon. For the remainder of the program Mr. Monteux chose the Concerto Grosso for string Orchestra by Handel.

Arthur Hackett.

A great many people who were two or three minutes late were deprived of the pleasure of the entire five movements of the music since obviously, strict orders had been given that the doors were not to be opened. The soloists of the Concerto were R. Burgin and J. Theodorowicz, violins G. Fourel, viola, and J. Bedetti, cello. It was beautifully played.

The Faust symphony was impressive, both as to orchestra and chorus. The voice of Mr. Hackett was effective in spite of a slight cold. The audience seemed far more enthusiastic over the second movement, "Gretchen" than about the first.

But it was really in the third and last, the "Mephistopheles" that the climax of the whole is reached. The combination of a skilled orchestra, an experienced chorus, a splendid soloist and an organ make for sonority that is immensely impressive. The concert will be repeated tonight. It is well worth hearing because it is an unusual symphony concert.

Anna Layng in Quaint New England Role

Anna Layng the character woman with the Boston Stock Company at the St. James, will have an opportunity this week to combine the environments of her early life in a small New England village with her ability as an actress. In the middle of the charm of "Spite Corner" is the rare character of Ann Coolidge. "I daresay," said Miss Layng, "that I have known plenty of women just like Ann, yet, they are not confined to the limits of New England. Ann is a Miss Layng, "that I have known plenty of women just like Ann, yet they are not all confined to the limits of New England. Ann is a spinster who sticks by her family when everybody's hand is against her on account of her refusal to sell her little home and store to her family's ancient enemy, who wants to tear it down to erect a business block. She doesn't want improvements because people are rich enough without them. She doesn't want to see the stately trees cut down to make way for raw telegraph poles. Bravely she fights a losing battle for her ideas belong to a vanishing race."

Beauty Comes From Rest, Says Miss Hoffman

"The other day, one of America's public speakers, a very prominent woman, stated that the only thing necessary to beauty was plenty of rest," said Gertrude Hoffmann, who is starring in "Hello Everybody," at the Majestic Theatre. "As she was talking to girls who earn their own living, and consequently have little or no time to rest during the day, it seemed rather foolish advice, but when I caught a glimpse of the speaker, I was truly very astonished because she did not look as if she ever understood the meaning of the word. This woman is very rich and does not have to worry about money matters. The chase for the silver dollar is a very restless occupation, and if it is long continued, it leaves its mark on every face, no matter how much massage you use to erase the lines. The lecturer was not young, but in all her years she has not mastered the art or resting, or even of looking restful—yet she lectures on rest—and she is right. Without plenty of rest you can't be beautiful or retain your youthful looks very long."

MOSCOW ART THEATRE IS COMING

The Moscow Art Theatre, Morris Gest's special dramatic thrill of the present season, is pointed toward Boston, and will move into the Boston Opera House on Monday, April 2. The engagement will be limited to a single week. This group of Russian artists, headed by Constantin Stanislavsky, has been upsetting New York for several weeks with plays that are not only new to American audiences, but which are acted and spoken in language that is entirely foreign to playgoers on this side of the deep, salt ocean. Mr. Gest, whose enterprise is extracting these players from their native haunts is only exceeded by his own resourceful methods of promotion, has gathered a full measure of prestige for his enterprise. Metropolitan critics have proclaimed the Moscow Theatre players the most talented interpreters of dramatic roles ever seen on the American stage—and not one of them, probably, could understand a word that was spoken.

Constantin Stanislavsky

However, this is a season for novelties, and the gifted Russians, steered by the energetic Mr. Gest, have stood all the acknowledged students of the drama on their ears. The engagement of the Moscow Art Theatre at the Boston Opera House has the active backing of Professor Baker of Harvard and the group of intellectuals.

For the benefit of those who do not understand the Russian language, Mr. Gest has arranged to have a complete synopsis of each play printed on the program, and for those who care to dig deeper into the stories of the plays presented, a volume comprising the entire repertoire will be available—at 25 cents a copy.

Movie Actors Have Hard Time at Sea

Life was anything but a continual round of pleasure for the crew of the whaling schooner Carolyn Frances, regardless of whether its members had really signed ship's articles or belonged to the cast of players enacting the sea story "All the Brother's Were Valiant," coming to Loew's Orpheum Theatre next week. Pleiras and whaling were the principal activities of crew and cast during the month the Carolyn Frances sailed Pacific waters. Being confined to the slim every day for a month became irksome to the actors. Chasing whales in long boats served to help break the monotony, but even this sport lost its fascination. When the Carolyn Frances docked and the call for shore liberty was piped by the bosun swain the members of the cast regarded their whiskers and stubble ruefully. Practically all the men aboard, with the exception of Malcolm McGregor and Lon Chaney, had foregrown shaving for the length of the voyage to make up will for the camera. It was impossible to attend a theatre or social affair with the whiskers and it was impossible to attend without them. So far as the bewhiskered gentry were concerned, the trip was a flat social failure.

Loew Accepts Act From Orpheum Frolics

True to their promise Marcus Loew and M. Douglas Flattery have selected several members from the recent Loew's Orpheum Frolics made up entirely of local amateur talent, for a tour over the entire Loew circuit. The lucky individuals are Miriam and Edward Foot and Carl Moore. This trio appears at Loew's Orpheum theatre next week, presenting an array of new dance ideas. Both the Roots are natives of Boston.

MAY YOHE IS NOW KEITH STAR

May Yohe, the former Lady Francis Hope, will be at B. F. Keith's next week with her Sholto-tons Syncopators. The combination promises to make Miss Yohe even a greater stage sensation than she was in the days when she carried the old American melodies to almost every corner of the globe. In these days the syncopation of the present was unknown, and while Miss Yohe will continue to add to the popularity of some of her old melodies, she has devised new ways of presenting them. All this is done in her 1923 Musical Revue, which is the very essence of modern jazz. Notwithstanding that the entire combination is distinctly American, it is presented by Miss Yohe's husband, Captain Jan Smutts of the English Army, and cousin of the famous General Smutts of Boer War fame.

Coming Events

George Kelly's comedy, "The Torch Bearers," is announced as the attraction at the Tremont, beginning Monday, March 19.

* * *

Henry W. Savage's revival of "The Merry Widow" will be seen and heard in Boston on Monday, April 2, at the Colonial.

* * *

On Easter Sunday, April 1st, Gounod's oratorio, the "Redemption," will be performed by the Handel and Haydn Society under Emil Mollenhauer, its conductor.

* * *

Alexander Chigrinsky, Russian pianist, heard earlier this season in this city, will give another recital in Jordan Hall on Wednesday evening, March 21st.

VAUDEVILLE AND PICTURES

ORPHEUM—"All the Brothers Were Valiant," a Ben Ames Williams sea story, with a cast headed by Lon Chaney and Billie Dove. The vaudeville is topped by James Madison and Dave Marion, presenting "Old Timers", other features are Worsley and Miller, Dancing Roots, a local couple from the Frolics, and DeVine and Williams.

MODERN AND BEACON—"The Christian," presented for the first time at popular prices, also Charles Jones in "The Footlight Ranger."

BOSTON—Priscilla Dean in "The Flame of Life," assisted by Wallace Beery; also vaudeville and news and comedy reels.

OLYMPIA—"Minnie" with Leatrice Joy and Matt Moore. Also news and comedy reels and five acts of vaudeville.

CODMAN SQ.—Mae Murray in "Jazzmania," for three days only. News and comedy reels.

CENTRAL SQ.—"The Little Church Around the Corner," for three days only. Vaudeville and other picture features.

STRAND—Douglas McLean in "The Hottentot." Other features, "The Bashful Suitor" and "The Mystery Box."

WASHINGTON—William Farnum in "Brass Commandments," for three days only. Other features, "The Glorious Adventure" and "No Luck."

LOEW'S STATE—"Where the Pavement Ends," with Alice Terry and Ramon Novarro; and Jack Holt in "Nobody's Money." Besides the feature pictures there will be the usual news and comedy reels. A Sunday night concert is also announced, which will be composed of both pictures and vaudeville.

CAPITOL—Douglas McLean in "The Hottentot" and Edwin Carewe's "Mighty Lak a Rose." News and comedy reels, and an organ recital.

SCOLLAY SQ.—Douglas Fairbanks in "Robin Hood." Also five acts of vaudeville and news and comedy reels.

LANCASTER—"Hungry Hearts" and Betty Blythe in "How Women Love." Three days only. News and comedy reels.

BOWDOIN SQ.—Bulldog Drummond," and William Farnum and Wanda Hawley in "Brass Commandments." Also five vaudeville acts.

HOWARD—(Burlesque). The Top Notch company in "A Store Somewhere," with vaudeville features, a big chorus and pictures.

Eily Ney, the celebrated pianist, who came to this country for the first time last season, will make her only appearance in Boston this season at a concert to be given in Symphony Hall on Saturday afternoon, March 24th.

AT THE BURLESQUE HOUSES

WALDRON'S CASINO

"Let's Go," which comes to Waldron's Casino next week brings Marty Collins, Jack Pillard and Mae Janese, featured as comedian, leading man and soubrette. They head a delegation of beautiful show girls and clever specialties. When this company was assembled youth and beauty were dominating factors of the personnel.

Hallie Dean

Miss Janese, the featured comedienne; Julia Gifford, vivacious beauty; Gladys Kern, attractive brunette prima donna; Little Maxine, child dancing prodigy, and "The Girl in the Mask," are named among the feminine principals.

GAYETY THEATRE

"Grinsquoe" is the word coined by Joe Marks, star of "Youthful Follies," which comes to the Gayety Theatre next week, to describe the offering. This is on account of the number of girls in the company of fifty. In addition to the feminine principals there are twenty-four show girls whose grace and beauty enhance the ensemble numbers. Marks' motto for this production is "Say It With Girls." He says it.

Hazel Alger.

Marks, as star, will be assisted by Eddie Cole in comedy. He will also contribute unique dancing interludes with May Leonard to accompany him. Hazel Alger will lead the feminine delegation.

AUTO INDUSTRY IN VERY SOUND CONDITION

By C. W. NASH,
President the Nash Motors Company

The motor car industry, which now ranks first in value of finished product in manufacture, is a great mass movement in the immense steel and textile industries. The 1923 season in motor vehicle condition than its unique partnership of the makers of steel.

There are today we estimate 20,000,000 motor cars and trucks carrying their wheels on the highways and byways of the country. This averages nearly one automobile or truck to every eight persons resident in this country. At present six states—New York, Ohio, California, Pennsylvania, Illinois and Michigan—own nearly 40 per cent of the 20,000,000 motor vehicles. In these States are concentrated 8,000,000 automobiles and trucks.

Too many seem a better idea of the vastness of these figures when I tell them that if a procession of motor vehicles and trucks of these dimensions were to pass a point in front of the Capitol at Washington, it would take more than a week for the total number of Great Britain and France to pass. At this time California leads the United States with the greatest number of cars per capita, one for every 4.1 inhabitants or virtually one car to each family.

ENORMOUS TAX PAID

One very important consideration in the automobile industry makes to the welfare of our country is unknown to most people, and that is the enormous tax it pays toward the support of the government and the betterment of our daily life.

Although every state pays a share of second and unemployment relief, the motor car is particularly singled out to bear a heavy burden, as we placed on all automobiles and trucks.

In a word, it is taxed to the limit of its capacity. Of all the countries in the world's possession, not one has such a heavy tax on motor cars during the road year has reached in our country. Last year alone we paid directly to our State governments nearly two hundred million dollars.

And when you come to realize that the motor car industry is perhaps the most effective single factor in the good road movement that is covering the length and breadth of the land. We have now [illegible] 400,000 miles of improved national and State highways. Now in almost every section of the United States to-day even for business and connected to the great commercial interests of transportation because of the motor car and its ever increasing use. Into the most effective and most valuable of transportation [illegible] the motor car.

Economic [illegible] motor car industries [illegible] the motor car is the greatest single factor to relieve transportation. The motor car has also materially simplified the delivery of farm and factory products to the railroads so now railroads are carrying more and more freight.

Passenger cars have made individual [illegible] possible to spend [illegible] and expense effort. The [illegible] who united the interests of [illegible] life to [illegible]

BENEFITS TO FAMILY.

They have broken down sectional barriers and [illegible] They have brought Fifth to New York and New Orleans to Detroit. They have made the nation an unified nation.

Since [illegible] manufacturing [illegible] within the reach of workers who see a new and far happier picture. Now, instead of the men going alone for their recreation you see them with their little families and their well packed lunch baskets, in a motor car, off for a day of mutual enjoyment and healthful pleasure.

MAKES A MAN YEARN TO HIT LONG TRAILS

NEW FLINT SIX TOURING CAR

INCREASE IN USE OF 1-TON TRUCKS IS PREDICTED

"That the present year will see a material increase in the use of the one-ton truck in solving delivery and hauling problems, not only in the commercial field, but the agricultural field as well, already is indicated," says an official of the Ford Motor Company.

The tendency among motor truck users to turn to the use of [illegible] one ton capacity and to adopt hauling service to the novel economy of frequent trips [illegible] average loads rather than to send out excessive loads at no gain of a long haul, was [illegible] remark of the growth of the one ton truck during [illegible]

"At the present time [illegible] of all the [illegible] be [illegible] are one ton or less [illegible] world's possibilities and most economical method [illegible] performance [illegible] the wagon [illegible] other essentials that are absolutely necessary to the industrial life of the nation and which are unburdened by an excise tax.

"I believe I am conservative in stating that this 5 per cent excise tax on motor cars during the road year has cost the users in our country nearly two hundred million dollars.

"And when you come to realize that the motor car industry is perhaps the most effective single factor in the good road movement that is covering the length and breadth of the land. We have now [illegible] 400,000 miles of improved national and State highways. Now in almost every section of the United States to-day even for business and connected to the great commercial interests of transportation because of the motor car and its ever increasing use. Into the most effective and most valuable of transportation [illegible] the motor car.

"Economic [illegible] motor car industries [illegible] the motor car is the greatest single factor to relieve transportation. The motor car has also materially simplified the delivery of farm and factory products to the railroads so now railroads are carrying more and more freight.

"Passenger cars have made individual [illegible] possible to spend [illegible] and expense effort. The [illegible] who united the interests of [illegible] life to [illegible]

BENEFITS TO FAMILY.

"They have broken down sectional barriers and [illegible] They have brought Fifth to New York and New Orleans to Detroit. They have made the nation an unified nation.

"Since [illegible] manufacturing [illegible] within the reach of workers who see a new and far happier picture. Now, instead of the men going alone for their recreation you see them with their little families and their well packed lunch baskets, in a motor car, off for a day of mutual enjoyment and healthful pleasure.

PERFECTION IN OLDSMOBILE BROUGHAM

By F. W. BROWN,
Local Sales Manager.

Just two years ago the closed car began to enjoy great popularity. However, the general high price of closed cars of quality, and the poor construction of lower priced closed cars limited the field of buyers.

Then came the Oldsmobile Brougham—so different than stand ard closed cars. Competitors began to seek where we had cut quality to produce the Brougham at our low price.

What did they find? That in the first place we had put the Brougham on the Model 43A, "Four" chassis. No argument there—competitors knew better than to attempt to pick flaws in the construction of the Oldsmobile "Four" chassis. It has been a winner in too many contests and has proven too satisfactory to owners to be the target for competitors' arguments.

STOOD ALL TESTS.

So they directed their fight on the body. They thought that there surely must be something cheap about that beautiful body to justify the low price. No body stood up under any examination.

The Brougham is finished in the Oldsmobile blue below the centre line and black above. Two weeks are taken to paint each body according to standard Oldsmobile methods and the construction of the entire body nothing could be found to criticize.

When the comfort and roominess of the Brougham was investigated nothing was found lacking. The deep, well upholstered seats are roomy enough to seat five large persons. The front seats, comfortable Pullman type, tilt forward to give an extra amount of room to enter or leave through the big twenty nine inch wide doors.

LIKE COSTLIER CARS.

In appointments our Brougham is like costlier cars. A dome light and heater prove the comforts that actually bring satisfaction and enjoyment to passengers. On the instrument board of the Brougham the controls and indicators are conveniently grouped under a shrouded light. The body hardware is of satin silver finish.

The Brougham also has other equipment such as transmission lock, door locks, special dust-proof tool compartment in rear deck, drum type cowl lamps, cowl ventilator operated from dash, windshield visor, drip moulding over doors, new "Flatlite" head lamp with which plain glass lenses are used, and one-piece crown fenders.

No one can find anything about the Brougham that does not measure up to the standards of higher priced closed cars. The 115 inch wheel base is longer, the car roomier, the engine larger, the body built better and the equipment and convenience more complete than in other low priced closed cars

CHEVROLET WINS PUBLIC FAVOR

Men prominent in the automobile industry have noticed with a great degree of interest the increasing popularity of sport models

The automobile using public, who have been seemingly content with standard dark and dull colors, are now requesting brighter and livelier colors for their machines, in each instance paying particular attention to the color combination and stripes to effect a special mark of individuality, placing their car above a standard classification

W. C. Sills, president of the Sills-Chevrolet Company, stated that the demands for short jaunts are more noticeable now than ever before, which is evidenced by orders now on file for spring delivery.

Many of these sport models dressed in different colors, now ready for delivery, will be displayed at our salesroom every day during the auto show. The prevailing colors to be shown are the Saginaw red, aage brush green, straw, dark maroon and suburban blue.

BRAKE INSPECTION YOUR PROTECTION

If every automobile owner had his brakes examined at regular intervals at a reliable service station there would be marked decrease in the number of traffic accidents

Motorists should remember that good brakes prevent bad breaks. The average driver does not appreciate that giving proper attention to brakes will not only lessen the chances of accidents, but also will result in lengthening the life of the asbestos brake lining. There are but few car owners who are really familiar enough with brakes to properly adjust them, so those who are not expert mechanics will find it cheaper to have their brakes inspected, adjusted or relined at a service station

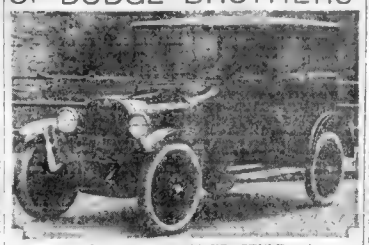
ADVANTAGES IN TRANSMISSION LOCK

The Cadillac transmission lock positively and simultaneously engages both shifter shafts and locks them against movement in either direction. Locking the shifter shaft is obviously more secure than locking simply the control lever The Cadillac construction is patented

PROTECTION IN TIRE CARRIER

The construction which renders the Cadillac tire carrier theft-proof as well as instantly accessible in case of puncture is a Cadillac patent. In this construction the entire locking mechanism is contained within the clamp screw, and the lock barrel itself is protected by a removable theft-proof cap.

NEW TYPE "A" SEDAN OF DODGE BROTHERS



RETAINS FORMER STYLE

This model has several recent refinements added. The most noticeable change in the design is the higher radiator and engine hood, resulting in a straight line effect from windshield to radiator cap. The sides of the cowl have a pleasing curve to the hood, thus retaining the former Dodge Brothers' style.

LABOR SAVING DEVICES ON PEERLESS

That R. H. Collins, president of the Peerless Motor Car Company of Cleveland is a firm believer in the old saw to the effect that "it's the little things that count," becomes perfectly apparent to anyone making a close study of the New Peerless.

Details of car construction, ordinarily treated with only casual attention, are in the New Peerless, made the subject of exacting specifications and an infinite amount of time and study.

For example, the filler spout to the gasoline tank, located on the curbing side of the car, is a short tube of cast bronze that takes care of the impact of the gasoline without allowing it to back up or overflow

CAP SNAPS OFF.

The gasoline filler cap snaps off in one single short turn, and is replaced the same way, thereby eliminating time-consuming labor on the part of the filling station attendant. The opening itself rides free, so that the hose used in filling does not come in contact with the enamel or paint on any part of the car. Should the filler cap be lost, the owner has only to remove the polished aluminum cap underneath the radiator and snap it in place on the filler spout.

One master key locks or unlocks the ignition, transmission, tire carrier, tool pocket in the left front doors of the open cars, an additional tool compartment underneath the front seat on all cars, and the doors on the closed cars.

UNIQUE SWITCH.

The light switch has a unique and distinctive feature about it which minimizes the possibility of driving at night without tail or front lamps burning. On entering the car, the driver raises the light switch as far as it will go.

This turns on the tail light and instrument board light, illuminating the transmission lock and ignition lock When the ignition is then unlocked, the light switch automatically snaps to a new position and turns on the cowl lamps.

In Peerless closed bodies the attention to small details is emphasized in a variety of ways. Arm rests are constructed of a special molded sponge rubber, so fashioned and placed as to provide natural comfort.

NEW STUTZ MODEL SHOWS ENDURANCE

What is said to be a record for a stock car is that set by the Stutz Six in a semi-official test at the Indianapolis Motor Speedway when in an endurance run of more than sixteen hours' duration this new six-cylinder Stutz established an average speed of more than sixty-five miles per hour, which, according to track officials, has never been equaled by any comparable stock car.

In addition, the Stutz six ran at wide open throttle for more than ten complete laps of the track. Until a short time ago the Speedway offered a prize to any stock car manufacturer whose car could be made to run on wide open throttle for four complete circuits of the two and one-half "s oval

The reason for this sustained high speed testing of the new Stutz 8.2 was not to encourage fast driving among buyers of the car, but to establish with certainty the staying qualities of the car and to test the lubrication of the engine, which is said to be the most complete so far developed for an internal combustion engine.

MOTORS TESTED IN "SILENT" ROOM

One of the most interesting phases of motor car manufacture is the "silent" test rooms of the Oakland Motor Car Company, Pontiac, Mich There each motor, after having been run for hours in the block test department, is given final inspection by men whose keen sense of hearing and knowledge of motors are their chief assets. It is their business to detect any noise other than the "purr" of the motor. Hours are devoted to each motor and no motor gets a final okay until it hums as steadily and softly as a Summer breeze.

STYLE OF HOOD IMPROVES CHEVROLET

The almost amazing response of the motoring public to the Chevrolet Utility Coupe naturally led to its continuance in the line. The special two-passenger model with its extra wide doors was acknowledged one of the most attractive cars on the market, but the new style of hood and radiator greatly improves its appearance. It was designed to meet the special needs of busy men and women who seek individual transportation that is highly economical and entirely dependable. In commercial use especially has this model established itself as a leader.

The Sills-Chevrolet Company also exhibits a complete line of Chevrolet commercial cars ranging from the New Superior Light Delivery to the model "T" one-ton truck, equipped with express body and eight-foot top The Chevrolet commercial cars meet every demand of merchants and manufacturers who are looking for lowest possible first cost or capital investment, lowest operating cost and day in and day out dependability.

W. C. Sills, president and owner of the Sills-Chevrolet Company, is very enthusiastic over the New Superior models.

"In the New Superior Chevrolet line of motor cars Chevrolet has again emphasized its admitted leadership as producer of the world's lowest priced quality automobiles The New Superior models being exhibited at the Motor Show represent, we believe, the greatest value ever established in modern, economical transportation Quality has been still further improved by more perfect design and added improvements Economy has been still further increased by engineering refinements and through greatly broadened production and distribution facilities, and yet prices remain the same.

"Chevrolet, fully equipped as sold, offers the best value per dollar. It costs least per mile to operate. It is roomy, easy to handle and reliable. Chevrolet is a low price, high quality car, with distinctive features since as found on high price cars Chevrolet is fully equipped when the customer buys it. There is nothing more to buy but the license."

CHEVROLET SALES TREBLED UNDER SILLS

The achievements of W. C. Sills since the inception of the Sills-Chevrolet Company are quite in keeping with his record while general manager of sales of the Chevrolet Motor Company for about nine years, when he created and supervised one of the most successful automobile organizations of the country. The personality, initiative, ability and integrity of the man have been built into his business and his policy of a square deal for all is reflected in the treatment accorded customers and employes.

Since August, 1921, when Mr. Sills resigned as general manager of sales of the Chevrolet Motor Company and formed the Sills-Chevrolet Company, with headquarters at No. 110 Cumberland street, Boston, the sale of Chevrolet motor cars in New England has trebled.

DEALERS SHOULD TELL NEW DRIVERS

Although the reasons for driving a car slowly the first 500 miles are specific and easy to comprehend, the average man has not had them fully explained to him. This accounts for the fact that so many motors receive abusive and unnecessary ruinous treatment at first.

NEW MILEAGE PLAN OFFERED BY OAKLAND

By C. R. DUNBAR.

As a result of one year of success with the original written 18,000 mile guarantee against excess oil in the combustion chamber—which has cost the company but a fraction of a cent per car—the Oakland Motor Car Company, Pontiac, Mich., now announces a further mileage with the most comprehensive ever offered over the signature of any automobile company.

The 15,000 mile guarantee was the first step to give the public a definite gauge—a mileage gauge—by which to judge automobile value. Due to the success of this guarantee and exhaustive factory, road and laboratory tests, backed by the experience of the thousands of owners of these cars, the company now offers an even more extensive "mileage basis plan" on their 1923 models.

FEATURES OF PLAN.

The main features of this new plan are as follows:

1. The Oakland main crankshaft bearings will run 40,000 miles or more, without adjustment or replacement.

2. Oakland valves will function properly for 15,000 miles or more without grinding.

3. Connecting rod bearings will run 40,000 miles or more without adjustment or repairs.

4. Cylinders, pistons and piston rings will give no trouble for at least 15,000 miles. The special written guarantee now in effect covering this mileage will be continued in the 1923 cars.

5. The cars will average, in daily use, from 20 to 25 miles per gallon of gasoline.

6. Tires will average from 18,000 to 25,000 miles.

7. Transmission, axles, frames, steering gears, body and other major parts will endure for the life of the car.

CAR UNDERSTATED.

This "mileage basis plan" has been announced by the Oakland Motor Company after due deliberation, due to its firm belief that the average motor car purchaser is entitled to know what an automobile should do.

The theme of every motor car owner, in conversation with his car-owning friends, is mileage. He talks of gasoline mileage, oil mileage, bearing mileage or how long his car will run before it is necessary to have the valves reground. He always speaks in terms of mileage

If the instructions given with the car are followed, our set of figures will prove conservative. We have understated the case, of course, in these instances when the cars are actually in service.

It is also worthy of note that this mileage plan covers completely the three essential parts of the car—the motor, for instance, the very heart of the car—and particularly those parts which in general use given motorists most trouble

1,000,000 FORD CARS IN 8 MONTHS

One million cars in eight months! That is the new production record set up at the Ford Motor Company's plant, according to advices received from Detroit.

On January 17 the seven millionth mark was reached. The six millionth mark was obtained on May 18 1922, so that within just one day less than eight months the Ford plant turned out one million cars a record breaking achievement in the production of automobiles.

The record means that in eight months the plant averaged a daily production of more than 4,800 cars or 125,000 cars a month. And some idea of the speeding up in production may be gained from the fact that the first million cars were turned out four months quicker than the previous million. The five millionth mark was reached May 28, 1921, and it was nearly a year, lacking ten days, in fact, before the six millionth car went out of the plant

Gray Performer

Best gasoline mileages recorded on the Gray transcontinental economy run were made between Chicago and Pittsburgh, where an average of thirty-seven miles to the gallon was maintained for the run Much of this run was made at night, and the party was unfortunate in getting lost on some long detours. The achievement of the Gray in crossing the continent with an average of 20 miles to the gallon of gas is attracting interested crowds to their exhibit on the third floor of Grand Central Palace, where five models of the Gray are shown.

LINCOLN MODEL SHOWS CLASS IN LINES

Lincoln car models exhibited by the Ford Motor Company at the auto show and in the salon of the Copley Plaza Hotel are representative types of the quality product and standard in every respect

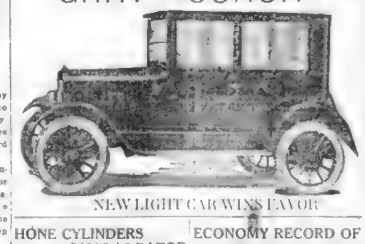
The limousine is beautifully finished in one color, the interior being upholstered in choice fabrics This model is conspicuous for its extent of the window space, the width of the doors and the deep luxury of the seats.

The Lincoln seven-passenger sedan is another car of striking and individual beauty. The exterior finish is exceptionally beautiful even as beautiful coach work is judged. The interior fittings and upholstery, as is the limousine, represent the highest achievements in luxurious comfort and ease.

Equally as aristocratic in appearance and design as the other enclosed Lincoln models is the three-window type sedan. Its spacious compartment provides ample roominess for five occupants and the appointments throughout are all that refined elegance could desire.

The new model phaeton is a car of distinctive lines and a model that instantly appeals. It is upholstered in fine, extra long grain leather, has a burbank top and carries a trunk at the rear, affording a most luxurious car for general touring.

POPULAR NEW MODEL GRAY "COACH"



NEW LIGHT CAR WINS FAVOR

EIGHT CYLINDERS SAME AS RAZOR

The unique Oakland process of "honing" the cylinder walls is simply the usual "honing" process associated with razors and high-grade steel. The cylinder walls resemble the surface of a polished mirror after this process. It is said that only when photographs are taken of the four processes—reaming, boring, grinding or honing—that the superior smoothness of the wall obtained through the last process is fully appreciated.

35 to Gallon

Between Philadelphia and New York, the Gray stock touring car that went across the continent on 33.8 miles to a gallon of gas encountered a rain storm in addition to the usual traffic jam getting on the ferry and passing through Newark. It shifted gears fifty-times. Yet it made the leg of the journey at 35.2 miles to a gallon.

ECONOMY RECORD OF 25.1 MILES TO GALLON

The Overland holds the National Economy record of 25.1 miles to the gal on—an average attained in special tests conducted simultaneously in 25 cities throughout the United States

Air-Pressure Systems

Gasoline pressure systems give very [illegible] there are two places which must be constantly watched: The filling cap and the check valve on the pump Always see that the cap is screwed down extra tight, and watch the pressure gauge to see if the check valve is leaking air. If it is, a few squirts of gasoline may be all that is necessary [illegible]

Tons of Solder

A million pounds of solder are consumed annually at the Willys-Overland auto factory at Toledo.

MANY 'FIRSTS' ACHIEVED BY CADILLAC

The following firsts have been achieved by the Cadillac Motor Car Company:

First to produce a standardized car, a car in which all parts are exact duplicates of other parts of the same kind

First to detect [illegible] and adopt [illegible] a most dependable form of [illegible]

First to introduce a complete electrical system of [illegible] lighting and [illegible]

First to develop and in order a thermostatic control of circulating cooling medium in motor car engines

First to adopt [illegible] a starter [illegible]

First [illegible] in the [illegible] under [illegible] proof

First to [illegible] speed [illegible]

First in the [illegible] cars

Chosen [illegible] because of its reliability [illegible] most rigorous tests. Proved [illegible] by [illegible] Americans and Allies in the W.

Proved more than 50 per cent of all cars selling at the same price and over

Powerful Motor

Although its powerful motor gives the Gray unusual hill-climbing ability, it does not detract from the general riding qualities of the car

If Economy Interests You You Cannot Afford to Pass by the Gray

Its economy of operation was definitely proven when a Gray stock touring car established a World's Economy Record. It was driven 4819 miles from San Francisco to New York under the official sanction and observance of the American Automobile Association, with an average gasoline consumption of 33.8 miles per gallon.

That gruelling Cross Country Run also proved the power and the rugged construction of the Gray. Its strength results in unusually low operating costs—a fact that is vouched for by thousands of Gray owners. Its power will take you up any hill or through mud and sand that any car can negotiate. Its economy in first cost is evident, from $490 for the touring car and roadster to $835 for the 4-door sedan, the most elegantly appointed closed car in its price class.

Touring - - $490
The twin of the Panama Cross Country Economy Car, exceptionally and dependable.

Roadster - - $490
Comfortable, roomy, with ample luggage space. The rear deck is removable.

2-Pass. Coupe $685
An all year car, handsome, well finished

Coach - - - $785
Gray special spring suspension contributes to the comfort of the Coach.

4-Door Sedan $835
The most elegantly appointed closed car in its price class.

This Day in Our History—March 10, 1923

THIS is the anniversary of the ratification by the Senate, in 1848, of the treaty to end the war with Mexico. By it we acquired 850,000 square miles, including California, where gold had been discovered nine days previously.

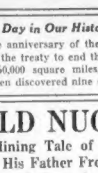
The Catacombs of Paris

THE catacombs are the antique quarries from which old Paris was built. Vast subterranean streets still exist, totalling 200 acres, between the Observatory and the Jardin des Plantes.

A GOLD NUGGET SMILE

Western Mining Tale of a New-Born Babe Who Saved His Father From Being Hung by a Rough Gang for Horse-Stealing

By Lillian N. Shearon



THE ten men, self-appointed gunrulers of Camp Royal Flush, paused at the cabin door. Bessinger, who carried the rope — a hair rope looped many times around his arm, dropped a little to the rear. They baited to face Lady Jane. She had not shown herself for six months, not since Red Bessinger's quarrel with Lord Harry about the gold missing from Bessinger's sluice box. The most reluctant had been forced to admit Lord Harry's innocence that time, but tonight they had the drop on him.

FOLDING BACK A DIRTY FLANNEL SHE SHOWED A CHUBBY, ROSY-FACED BABY.

"Lord Harry" and "Lady Jane" — contemptuous nicknames, these, for the quiet English couple who would not mix with anybody, and who used such high sounding language only a schoolmaster could understand more than half they said.

They cooked their own supper over hot coals in a big open fireplace just like everybody else, but they called it "dinner," and couldn't sit down to eat until Lord Harry had put on a "smaller-tail" coat and Lady Jane had changed into a black dress cut out at the neck and off at the elbows. And Lord Harry shaved every day. Such a man was an insult to the community.

The men at the cabin door were not sorry to close this sin of Lord Harry's against his neighbor, Bessinger, as a sin-in against Camp Royal Flush. But to face Lady Jane! She wasn't any larger than a pint of cider, and stuck up or not, she was a woman.

Door Unbarred

They found the door unbarred, and the ten rest crowded into the little room and stood in silence at Lord Harry himself sitting at the table, fully dressed, his head drooped upon his outstretched arms. He stirred, then looked up, dazed with sleep, to find Red Bessinger's revolver pointed at his heart.

Joe Thompson, official spokesman, threw an empty revolver upon the table. "I reckon you ain't denyin' as that is yourn."

Lord Harry put his hand to his head and fingered the empty holster. "It's mine" he answered quietly.

"An' I reckon you know what comes of hoss stealin' in these diggin's."

He nodded, glancing apprehensively at the closed door leading into the other room of the shack.

"Well, the same thing happens when a fellar sneaks out his neighbor's only hoss an' shoots her head full o' holes, jes' for spite. Let up!"

Lord Harry stood up. "Gentlemen, my wife!" But his pleading gesture brought no pity into those leering faces.

"Might 'a thought of yere wife 'fore you shot my hoss." Red Bessinger suggested grimly, "knowin' what was comin' to you."

"I thought of her." Lord Harry answered. "I suppose you will let me speak before——" His eyes on the rope finished the sentence.

"A word or two," conceded Joe, "but be damn quick about it."

"What I have to say won't matter much, I suppose, in a country where a horse is worth more than a man. Luck has been against me. You've all been against me because my ways are not yours. We put up a fight, my wife and I, to keep this wilderness from downing us, and it made us contemptible in your sight——"

"Come to the p'int!" Jim interrupted. "Did you or did you not steal Bessinger's mare?"

"I took Bessinger's mare——" There was no time to ask, and, besides, I could not risk a refusal. I stirred her cruelly five miles up to old Moll's cabin, and back again with old Moll riding behind me. It began to rain, the trail was slippery, and just before we reached Bessinger's place the mare stumbled and fell, breaking her foreleg. I stripped her of her saddle, rope and bridle, turned her loose, and left her for Moll to see. Will some one please tell my wife that I am all right?"

"Ain't no use. He never'd a-got here 'fore we was ready to start," Red Bessinger said, "an' it was almost time late. Gentlemen, open that door and look in."

"Suppose you open that door yourself, whilst we keep our guns in position," drawled Joe.

The man obeyed.

The crowd moved to the door and broke in.

A bed of rough boards in the corner—a woman's white face against the pine needle pillow—a wrinkled bag with a bundle wrapped in red flannel across her knees. The woman in the bed, sleeping the sleep of exhaustion after long hours of agonish, did not stir.

Old Moll raised a silencing hand and tottered to the doorway, holding the bundle carefully in her arms. Folding back a layer of red, she triumphantly displays the red, puckered face of a newborn baby. The men scuffled nearer, a breathless semicircle gazing upon a miracle. And then, right before their very eyes, another miracle happened, the baby cooled up at the group, smiled broadly, fingeringly, and then stuck a thumb in his mouth.

There was not a pistol in sight when old Moll at last closed the door in their faces.

Dropped the Rope

Bessinger moved to the hearth and dropped the rope into the glowing embers. "Glad to see ya, the gosh-ding little rascal," he said huskily.

"Knew where to put his thumb, the darn little cuss," chuckled Joe.

Comments in whispers filled the air.

Red Bessinger approached the father and held out his hand. "How much did he weigh, pardner?"

"Eight pounds, Red."

"Gosh ding! A reglar whopper! Say, boys, let's turn this into a birthday party for shure. Game for anything?"

They were.

"Then out with your pokes," commanded Red, emptying his own bag upon the rude table, a heap of shining nuggets of gold. "Get your scales ready, Harry. A horse may be worth more'n a man in these diggin's, as you said a while ago, but a kid that can smile like the risin' sun an soon as he's born is worth his weight in gold to Royal Flush."

Bein' Great

DRAWN BY NELL BRINKLEY

THERE was a young lady who stepped out into the world with a head full of bright notions, a great curiosity, a hardy heart, a love of everything beautiful, full knowledge that her face was not her fortune—so, perforce, she must make herself one—and a burning desire for *greatness*.

How could she be "great"? She had a talent tucked under her arm and some good friends and relations to stand under and give her a shiny-up.

Well—so the young lady scratched away with a black little devil of a pen, and with soft, deeply-black charcoal, and designed slender women who were taller than any women ever were before or since! But the good public seemed to like them, once she got them where they could set an eye on them.

Between the first day she landed in the big town and tried to live in a tiny "flat" with the courtyard at the bottom of a well—she who had never seen a courtyard of an apartment house, and had always had a "big backyard"—between that day and the day when she first saw her tall ladies in print was a violent period made up of battles with self and the world, battles with T. E. Powers' Glooms, battles with homesickness—than which there is no sickness more terrible, unless it be mal de mer.

At the end of this dazed period of struggle where the soft lights of Fifth avenue spelled romance and she seemed to live with each one of the millions who milled through the city canyons, came a measure of success. A good measure. And for a week or two the young lady thought that she was at last and completely *great!*

And just about when she decided on it she began to learn in earnest and suddenly discovered that she was a little ignorant—and had just set her foot on the bottom rung of the ladder.

And then one day—one wonder day, the young lady fell in love, and married the man she loved, and she was very happy; and on another wonder day her baby came and the young lady discovered herself to be a GREAT WOMAN!

"There are more ways than one of being a great woman—and there is a *best* way—and I have found it," said the young lady who came to the city to be "great."

—*NELL BRINKLEY.*

When a Girl Marries

By Ann Lisle

THANK goodness. I'm sure of that!" cried Miss May, wiping her eyes barefacedly, while a smile twinkled through. "Now I'm not afraid to make Mrs. Winston a 100 per cent. expert," she laughed. "Oth erwise I guess I'd have held out on you."

"YOU AREN'T ANGRY?" I ASKED WITH A SENSE OF DISAPPOINTMENT.

With a jerk my mind came back to a realization that young Frank had borne me a note this morning asking me to be at the Star in time for lunch. The press of business plus my chat with Miss May had delayed me. So as she hurried out to join Betty for lunch I took down the telephone to say I'd be on my way shortly. But when I got Mr. Lacy his voice came back with a note of shortness I'd never known him to use.

"You aren't angry?" I asked with a sense of disappointment and hurt.

An Equivocal Answer

His answer seemed to have very little to do with my question.

"Didn't you get good results from your previous want ad?" he asked.

"You don't understand." I gave back with a sense of relief at his seeming blunder. "This is Anne Harrison. I'm phoning to say I'm just ready to start and sorry for the delay"

"Quite so," he replied imperturbably. "I thought you'd find that our columns always give service. But we don't close the forms and go to press as early as you seem to think. You're quite right not to trust this important advertisement to the wires or messenger. I think you should bring it down in person. But we don't need it for tomorrow's makeup until 4 o'clock. Five! Did you get that?"

"Yes." I answered, reacting to what I now realized was a code. "You want me to bring the ad down in person and 5 o'clock is time enough. I'll be able to get out some good copy by then."

"That's fine," he said, abating no jot of his crisp business tone. "I thought you would be able to meet my ideas in the matter. No use employing advertising experts unless you can work in perfect harmony with them and adopt their methods. Five then. Goodbye, Madam."

I tuned my goodbye to the needs of the occasion and plunged back into my work on the now almost completed Dalton-Sturges campaign. Again I lunched on a sandwich and cup of coffee brought me by Frank and stayed right on the job, which needed just such concentrated work as I was giving it. But all that day—strive as I might to banish it—there came back the question: Who had been in Ralph Lacy's office to make him act and talk so?

No Need to Worry

"When I left the office at 4:30, I told Betty not to worry if I was late for dinner or didn't arrive at all. But I added no other information, since Mr. Lacy's manner had conveyed to me the need of absolute secrecy. I didn't like hiding my movements from Betty and Miss May—but ever since I enlisted in the ranks to fight for Jim I've been made to realize that a private has no matter for orders and put the cause above self.

I arrived at Mr. Lacy's office on schedule time, but, greatly to my astonishment, Jerry informed me that he had been called out and wouldn't be back for an hour. Curbing my natural impatience, I accepted the latest editions of the afternoon papers and pretended to read. One by one the advertising staff left the department, but I was conscious that faithful Jerry waited with me. He marched in and out now and then—unobtrusively but reassuringly.

SPIRAL NEBULAE

By GARRETT P. SERVISS

Eminent Astronomer and Author[ity] on Subjects of Scientific Interest

WONDERFUL new light is being thrown upon the mystery of the spiral nebulae—those strange whirlpool masses of luminous matter, whose curved and twisted arms often appear partially broken up into glowing bulbs, which look as if they might be half-formed stars condensing out of nebulous matter.

These nebulae, as a class, have only become known to astronomers within the last quarter of a century, and although large and powerful telescopes are required to show them, they are easily photographed in all their marvelous details. It is in the photographs that they are studied.

Adrian Van Maanen of the Mt. Wilson Observatory has just published the ninth of a series of papers on the measurement of the internal motions of the spiral nebulae, and the conclusions reached are immensely interesting, and must throw a clear up some of the deepest problems of the universe.

If you look at a photograph of one of these objects these photographs can be found in any public library where astronomical books and magazines are kept) you will be immediately impressed by the appearance of swift rotation of the glowing mass, together with its curved arms, around a more or less distinct central condensation. Some of them look very much like fiery pin wheels spinning in the darkness on a Fourth of July night.

Now, Van Maanen has shown by comparing photographs of some of the largest and brightest of the spiral nebulae, taken from the outer limit of twenty years apart, that the appearance of rotation, which seems so evident to the eye (although no motion can be perceived in the telescope) is based upon actual, measurable movement in the nebulous arms. These objects are so far away that no certain estimates of their distance have yet been made, but enough is known to enable Astronomers to say that they probably range in diameter from ten to three hundred light-years.

Now, ten light-years make sixty trillions of miles, and three hundred light-years make eighteen hundred trillions of miles.

How long do you think it probable that a wheel of first size would require to make one turn? Well, the measures referred to show that the spiral nebulae make a turn in from say 45,000 up to 180,000 years.

A considerable achievement, isn't it, to measure on little photographs, a few square inches in area, motions so apparently slow as that, especially when, as it has been, from 1,200th to 1-6000th of a single turn of the nebula has occurred in the twenty years separating the two photographs that are compared?

But, on the other hand, think of the actual speed at the periphery of the gigantic mass. Suppose the moving point observed is half way between the center and the circumference of a nebula only ten light-years in diameter. It will, then, be five light-years from the centre, and measuring for the sake of an easy calculation that the motion is in a circle, the whole circumference of which will have to traverse in making a single turn, will be 31.4 light-years, or 184,800,000,000 miles, and if it traverses this distance in 50,000 years its speed must be 3,700,000,000 miles per year, more than 122 miles per second.

3834 4114

A DAINTY UNDER GARMENT

3834—Properly made under garments are essential to well fitting dresses. The style here shown shows ease and comfort in its simple lines. It lends itself well to a development in batiste with trimming of Val or filet lace edges, or to crepe, with briar stitching, or other simple decoration.

The pattern is cut in 4 sizes: Small, 34-36; medium, 38-40; large, 42-44; extra large, 46-48 inches bust measure. A medium size requires 2¼ yards of 36-inch material.

A SMART FROCK FOR THE GROWING GIRL

4114—Serge with braid trimming would be good for this model. It is nice also for combinations of material. The collar, vest and skirt panel could be of plain goods, with the other portions of striped, plaid or figured material.

The pattern is cut in 3 sizes: 12, 14 and 16 years. A 14-year size requires 4¾ yards of 36-inch material.

Crooked Work

Hale—How did you get that sty in your eye?

Hardy—I had a mocking party with a cross-eyed girl the other night.

ROYAL ROMANCES

QUEEN ELIZABETH AND ROBERT DUDLEY

By Barbara Bayne

THAT Leicester was immensely clever and had the gift of ingratiating himself with honeyed words is proved by his long tenure of Elizabeth's capricious heart. For thirty years he was a dominant figure in Gloriana's court.

He was a born courtier, tall, remarkably handsome, suave, with fascinating mannerisms. Elizabeth, as princess, had known him in her brother's court. As queen, when she was ill with the smallpox and thinking herself to be dying, she expressed a wish that Dudley should be made protector of the realm with a salary of 20,000 pounds a year. From that hour his part in the Queen's affairs was an inextricable thread in the woof of English history.

Elizabeth made no secret of her liking for "sweet Robin" and heaped honors, estates and revenues upon her favorite. He was constantly in attendance upon her. At tournaments he rode a splendid charger with magnificent trappings and carried the queen's colors. And disguised as her maid's maid Elizabeth would slip away and mingle in the crowd to watch him with enthusiasm. Though singularly reckless with her good name, she complained bitterly when the court whispered behind its several hands of her too evident familiarity with her master of horse.

Dudley, secure in her favor, defied the court and played the game. He played for high stakes —the crown of king consort. Elizabeth was capricious. Foreign ambassadors flocked to her court to enter the competition for her hand. But Elizabeth kept them all dangling and diplomatically postponed the bestowal of her difficult hand.

But sometimes netted sometimes scorned. Dudley still remained her been companion and favorite. Then occurred the tragic death of his wife, to whom he had been married at eighteen. Amy Robsart was destined to be more famous in death than in life.

With the obstacle to their marriage removed, their relations became more intimate, yet Elizabeth delayed placing the eager Dudley beside her on the throne. His position was no sinecure. At the slightest presumption on his part he received one of those snubs Elizabeth knew so well how to administer. She petted him one minute and boxed his ears the next.

The Spanish ambassador declared her "a woman possessed with a hundred thousand devils."

The prospects of their marriage became more and more remote. In 1563 Elizabeth proposed him for a husband for the Queen of Scotland. To make him a more suitable match for Mary she gave him the long deferred peerage, creating him Earl of Leicester.

But Mary showed her what was what and secretly married Darnley. Leicester won distinction in the English victory over the "Invincible Armada," for which Elizabeth desired to make him Lieutenant-General of England and Ireland—but grave councillors curbed her impetuosity.

Leicester's death occurred in 1588, and the last fifteen years of Elizabeth's reign were desolate. Her work was done with the defeat of the Spanish Armada. She was inexpressibly lonely without her favorite, and withdrew from the court. The once brilliant mind gone, she died, the last of her race, March 24, 1603.

ANECDOTES OF THE FAMOUS

The methods of composition adopted by well known authors are as varied as they are interesting. Mark Twain could write 4,000 words daily for three or four days, and then retire to bed for a few days.

De Maupassant would finish a 4,000-word short story in four days, and not cause a word to be over his longer works he struggled painfully while his master, Flaubert, toiled over the pattern pages of "Madame Bovary" in one day as his record.

It was Balzac's boast that "a Woman of Thirty" was finished in a fortnight. This was a bit about 20,000 words a week. He was a prodigious worker and thought nothing of working eighteen hours a day.

Dr. Johnson's most notable feat of composition was the production of "Rasselas," which he wrote in a bookseller's order in a week. The book runs into 40 pages than 20,000 words.

R. L. Stevenson produced about 1,000 words a day, and it is said that Jack London wrote 1,000 to 2,000 words every day of his writing career of fifteen years.

While on his recent visit to this country Marshal Foch made a short reply to a man who, when one of the guests at a dinner party in Denver, given by a party of Americans, took exception to French politeness. "The French is in it but wind," he said with unmistakable taste. "Neither is there anything but wind in a pneumatic tire," retorted the gallant Marshal, "yet it raises the jolts along life's highway wonderfully."

PROBABLY the largest candle in the world has just been placed in the Church of the Madonna of Pompeii, at Naples. It is 18 feet high and weighs a ton. It is a memorial to Caruso from a home for orphans.

THE ENEMIES OF WOMEN By BLASCO IBANEZ

A Russian Prince of Fabulous Wealth and Some Friends Bind Themselves to Bar All Women From Lives

THE STORY TO DATE.

Prince Michael Fedor, a Russian of fabulous wealth, is at Monte Carlo while the Great War is on. With him is his friend, Attilio Castro, and other acquaintances. He announces, to the amazement of his hearers, that he is ruined. The Prince proposes that Castro and a few of their friends live together with the proviso that no women shall enter their lives. They will be known as "The Enemies of Women." Castro tells the Prince he has seen the Duchess de Delille. She calls at the Villa Sirena and asks the Prince to finance her gambling system. He refuses, but grows interested in her, and later calls at her home where she tells him she has a son in the war. Michael tries to make love to her but she resists. He goes to the Casino and watches the Duchess win large sums.

By Vicente Blasco Ibanez,
Author of "The Four Horsemen of the Apocalypse" and other Novels of World Renown

HE stopped talking as though depressed by the thought that he was painting his own picture.

"In gambling," continued Attilio, "our human weaknesses and the tendency which we all have toward superstition are shown most clearly. What madness! Just as though the past could influence the present! How many useless efforts to conquer luck! More wealth and imagination has been wasted in the invention of new systems to gambling than to find perpetual motion, and just as uselessly. All these wonderful systems lead the gambler infallibly toward ruin, with more or less rapidity, but always with certainty.

Abiding Faith

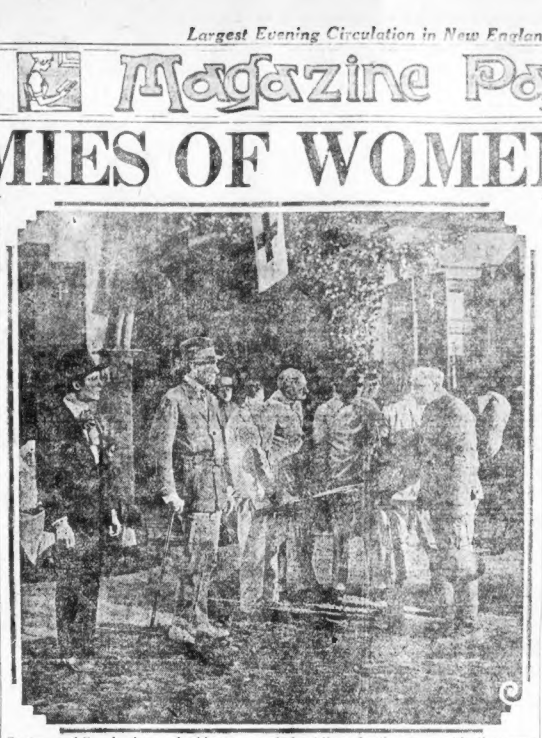
"And how strong our faith is. I feel that it is greater than that of religious martyrs. When one thinks he has a combination which is sure to win, there is no use trying to persuade him to the contrary. Nothing can convince him.

It is curious that the failure of his system and the consequent losses never discourage a good gambler. He immediately seizes upon some new combination, a true one this time which will enable him to make a fortune—one time followed by another, and thus we go on living until death overtakes us."

The melancholy of these last few words was brief. Castro seemed suddenly to recall something which made him smile.

Inconsistencies

"How many inconsistencies in the lives of gamblers! They are not afraid to risk their money and there is no class of people that is more stingy. Notice the women who play most passionately. They are all badly dressed; some of them are often careless about their persons. They must have money to gamble, and postpone buying necessities until the next day. There are men who carry their hats in their arms all afternoon in order to save ten cents which it costs to leave them in the vestibule of the Casino.



Castro and Spadoni are asked by a wounded soldier why they are not in the army

"I saw an old gentleman who waits for a friend every day standing by the cloakroom window. They leave their hats and coats together and that way each one has to pay only five cents. Later on, at the roulette table, I saw them handling a roll of thousand-franc bills."

From time to time people at the tables called out to the players just entering the bar:

"Is she still winning?"

They referred to Alicia. The various reports did not agree. Some of the people seemed indignant: "Yes, she went on winning with luck that would make you tired." The enthusiasm of the first moment had vanished, there was a note of envy concealed in words and glances. Others, moved by some selfish sentiment, were pleased to point to a decline in her marvelous luck. She was losing and winning. Her runs of luck were not so frequent as in the beginning, but at all events if she were to stop at once, she might well take away three hundred thousand francs.

It was Dona Clorinda—Castro's "generous"—who a few days after Alicia's spectacular play at the Casino introduced a new personage into the lives of the Enemies of Women, the Duchess de Delille of Villa Sirena.

"He is a Spanish lieutenant in the Foreign Legion," she announced, "who lives in the hotel which the Prince of Monaco has given up for convalescent officers. Martinez is a great soldier, and a friend. I don't know how he manages to survive his wounds."

An Uninvited Guest

The Generalessa made a point of keeping track of all the soldiers of his fame as soon as they arrived in Monte Carlo, and she had promptly taken young Martinez under her protection. The Duchess de Delille was also interested in him, and the two women, proud of being his marvalees, showed him off in the afternoon of the Casino, until carriages to procession aside around to the most beautiful spots on the Riviera, and treated him to the finest war-time foods and pastry that they could find.

With his lungs injured by German poison gases, he had also received a hand grenade wound on his head, and suffered from time to time from nervous trouble, which caused him to fall to the ground unconscious. The doctors talked despairingly of his condition.

So Attractive

Perhaps he would live for years, perhaps he would die in one of these crises, the important thing was that he should live a quiet life, without any deep emotion. And the two ladies, who knew the real state of his health, lamented it when he was not present. He is so young, so affectionate, and so manly. On the breast of his mustard-colored uniform attached by red ribbons, as a symbol of bravery given to the foreign battalions, were the War Cross and the Legion of Honor.

One afternoon, Dona Clorinda, with all the natural boldness of her character, took Lieutenant Martinez to Villa Sirena. It was a shame that the handsome building and its vast gardens should be given over to five men who did nothing for humanity at all.

As long as it was impossible to occupy the villa with a band of convalescents, she took the Spanish officer to see the gardens, without first asking permission. So in his own garden, Michael met for the first time the young hero who had so fascinated Alicia and the generalessa. Michael saw nothing in him to indicate extraordinary deeds. This was a youth, ready to blush when forced to tell what he had done in the war. Without his uniform and his insignia of honor, he would have seemed like a poor office clerk, modest and resigned and incapable of being anything else. His appearance contrasted with the deeds which he was finally pe to confess, after much pl

The young lieutenant, v been a member of the Legion, had received som wounds in every period of the fighting. Some belonged to modern warfare, produced by fragments of high explosive shells, others came from machine guns, and even that cough which interrupted his speech from time to time, was caused by asphyxiating gases. Others were made by knives, by clubbings from gun stocks, by flying stones, and even the teeth of the Germans in night encounters and surprise attacks, in which men fought as they did in the infancy of human life on this planet.

In spite of himself, Prince Lubimoff could not help admiring this slight, dark young man, who looked so insignificant. It seemed impossible that a human organism could resist so many blows, and that his weak body could sustain so many shocks without succumbing.

Purely Impersonal

But he, with the solidarity of all those who face danger, refuse all personal glory. He talked about the Legion as a soldier talks about his regiment, as a sailor talks about his ship, considering it the finest of all. He saw the entire war in terms of the Legion. The French were all brave. But the Foreign Legion!

TEST OF HAPPINESS

AS APPLIED TO MARRIED COUPLES

By Beatrice Fairfax,
Who Occupies a Unique Position in the Writing World as an Authority on the Problems of Girls.

"OPPOSITES attract." This is one of the oldest love-theories in the world. And it is a tragic half-truth. Opposites do attract, but then seldom hold together.

No one can get on for long with anyone who does not speak his language—and who will make no effort to learn it. In our friendships we all seek those who understand us, who find enjoyment in the things which please us and whose standards and beliefs are at least intelligible to us.

The man and woman who have nothing in common but their physical attraction for each other are taking a grave chance when they try to build a life's happiness in the appeal which is dangerously likely to be physical and perhaps passing.

The mere lure of the senses cannot be counted upon to hold two people together in an existence that is well-rounded and satisfying. Kissing and holding hands won't do to fill a lifetime. And the men and women who try to build a life together on physical attraction with no mental community of ideas are likely to end up by feeling a sort of spiritual revulsion which is hideous to endure.

To come home from the day's work to someone who is agreeable to your nature and in harmony with your ambitions, longings, tastes and desires means peace and the sort of joy which is far more enduring than the emotional excitement some "stake for happiness.

The love that is based on congeniality has a real foundation. It has a fine chance of enduring. Two who have tastes and ambitions as well as desires in common are bound to grow together instead of drifting apart.

"I often think friendship consists more in liking the same things than in liking each other," a man of deep philosophy once wrote.

Somewhat the same theory holds in the case of love. Love does not consist in enjoying the same things—but tastes in common give love a reserve stock of interests when emotion and nothing more would be bound to pall.

Love sickens and dies when it arrives to endure in the hostile atmosphere of feelings set widely and needlessly apart.

Tenderness is beautiful. Unselfishness is noble. Devotion is heart-warming. But even they might be blighted if the two who felt them for each other could never sit down and talk things over in comfortable fashion. We can't always stay on mountain peaks.

We need the homely things of everyday life to make love prosper.

So when a man and woman care for each other, but neither cares for the things that are the breath of life to the other, they must either Ers the toleration and wisdom to cultivate interests in common—or to leave each other free to find them—somewhere else. And which of you is big enough to do that?

WHEN DID IT HAPPEN?

1—When did Rumania become a kingdom?

2—When was the law of gravitation announced by Newton?

3—When did the signing of the Declaration of Independence take place?

4—When was Vermont admitted to the Union as a State?

5—When was the key to the Egyptian hieroglyphic inscriptions discovered?

ANSWERS
To Yesterday's Questions

1—The Arch of Titus was erected at Rome about 71 A. D., to commemorate the capture of Jerusalem.

2—The district of Saskatchewan, Canada, was formed in 1882.

3—The Spanish Netherlands were ceded to Austria in 1714.

4—The Hartford convention was held from December 16, 1814, to January 5, 1815.

5—Millard Fillmore was President of the United States from 1850 to 1853.

BEST RECIPES

New England housewives are requested to send in recipes for appetizing dishes. One dollar will be sent each winner printed here. Address Recipe Editor, Boston American 8, Boston, Mass.

Beef Hearts

Put a fresh beef heart in a kettle and almost cover it with water and some salt. Let it boil 4 or 5 hours. Thicken the broth with flour. This makes a very good dish of meat and brown gravy, and a very inexpensive one.

Centre Harbor, N. H. FLORENCE BEEDE.

Cream of Tomato Soup

Add 1 pint water to 1 pint stewed tomatoes, a slice of onion, level teaspoon salt, pepper. Bring to a boil and add 1 rounding tablespoon butter rubbed with 3 tablespoons flour. Stir until it boils again and strain. Serve with toasted squares of bread.

Mrs. I Park street, Middlebore, Mass. D. H. SHAW.

FURNITURE IN HOME

By Marian Moore

THE tea table must have an out-of-the-way place, yet a position which puts it within convenient serving distance. A comfortable easy chair for a neighbor is an absolute necessity. Thus the tea corner is automatically furnished.

The woman who prefers a tea table to a tea wagon will find a clover leaf, six-legged one both useful and decorative. The table in the photograph is of that variety and represents an interesting study in curves, the curved edge, tapered

For the Afternoon Tea

legs and graceful stretchers being nicely harmonious.

An upholstered wing chair is a pleasant companion piece, and when the tea things are cleared away, the group serves admirably for reading or sewing. A reading lamp would make a very welcome addition to this corner.

(Copyright, American Homes Bureau)

WHO SAID IT AND WHERE

"Yes and no are the causes of all disputes."

Is an old French proverb that sizes up the situation with precision.

"Sunday clears away the rust of the whole week."

Addison was a believer in Sabbath repose, and advocated it in his essays in the Spectator, from which the above is taken.

"Woman's love is writ in water!"

Declares William E. Ayton (1813-1865), in his poem, "Charles Edward at Versailles."

The poet apparently had little faith in women.

"The greater the fool the better the dancer."

These harsh words are from "Maxwell," by Theodore E. Hook (1788-1841).

GOOD NIGHT STORIES

BE SURE TO READ THEM TO CHILDREN

By Blanche Silver

DICK AND DORIS DISCOVER QUEER FOOTPRINTS.

"OH, DICKY!" Doris cried, excitedly one day, when she and her brother were visiting their Aunt Elsie, who lived in Greenland. "Do come and look at these funny little footprints on the ground."

"Hum," he mused. "They look almost like the feet of Santa Claus' reindeer. Wouldn't it be funny if we should find his reindeer while we're here?"

"That's right!" cried Doris. "Uncle did say the reindeer run wild around here in the Arctic. Oh, I do wish we might see him. I'm sure they're his footprints. And Dicky, maybe they will lead to Santa Claus' house. Wouldn't that be great sport?"

"Pooh!" exclaimed Dicky with a disgusted air. "That's just like a girl—always thinking of such things."

"Just the same, maybe they will lead us to Santa Claus' place! I'm going to follow them up and see where they do lead. Of course they are reindeer's prints."

"Of course they are!" laughed Dicky.

"Are what?" shouted a merry voice, and Happy Giggles, the little elfin from Makebelieve land hopped down beside the two children.

"Why, those footprints," replied Dicky, catching hold of the elfin's hand and leading him up to the footprints. "Whose are they, anyway, Happy Giggles?"

"Well, now," said the elfin, after looking at the ground, "you're not the only one Musk-ox has fooled that way." And quick as a wink he blew on the magic whistle at the side of his belt, and out from behind the bushes jumped a queer-looking creature whom Happy Giggles introduced to the children as "Mr. Musk-ox."

He was rather a heavily built fellow, with short legs and a very long, brown coat of hair. Even his nose was covered with the coarse brown hair. His horns looked a great deal like Mr. Buffalo's and met in the centre of his forehead.

"My goodness! we're used to that," laughed Mr. Musk-ox when Happy Giggles told him the children thought his footprints were those of Santa Claus' reindeer. "That's because our feet are so much alike. I'm sorry if you're disappointed."

"Indeed, we're not disappointed!" exclaimed Dicky. "I'm glad to know you."

"So am I," said Doris politely. "I've never seen a musk-ox before."

"Very few people have seen us," laughed Musk-ox. "They hunt us, but if the wind is blowing right they never find us."

"What's that got to do with it?" asked Dicky.

"Why, the only time a hunter ever gets near any of us is when he has the wind against him. For when the wind blows our way we can scent him. Yes, indeed," replied Mr. Musk-ox. "Our noses

"Few People Have Seen Us."

may be covered with long hair, but our sense of smell is very keen."

Just then they heard a dog bark. Before Happy Giggles and the children knew what was going on, Mr. Musk-ox had taken to his heels and disappeared in the bushes.

The hunters, dogs and horses dashed by, and Happy Giggles, Dicky and Doris had a good laugh for they knew they would never find wise old Musk-ox.

DAILY HOROSCOPE

Mary Blake Says:

Today Lucky If You Are IN LOVE.

TODAY the aspects are fairly good. The best appears during the early afternoon, while those of the evening are of an unimportant character.

You will meet friends from whom you will derive benefit, as well as acquaintances of intellectual lines. Any new business undertaken by you today promises to be successful.

Owing to the benign influences that operate in your favor today, you will create an atmosphere of good fellowship and kindness of heart.

Friendships will be cemented, and love affairs will be brought to a happy fruition. The aspects show that if you are a girl, the glamour of your charm today will be irresistible. The love-sick swain who has been so long sitting on the anxious seat, will cast his troubles from him, and will tell you that which you have been longing to hear.

ETIQUETTE POINTERS

By Ann Adams

DEAR MISS ADAMS:

Should a gentleman walk on the outside or is it proper for the lady to be at his right?

When leaving a person to whom one has been introduced, what is the proper thing to say?

A GENTLEMAN should walk on the side of the pavement nearest the curb.

When leaving a person to whom you have been introduced, it is good form to shake hands and acknowledge your pleasure. Say, for instance, "Good-by, Ann, very glad to have met you." This, of course, can be varied according to the nature of the acquaintanceship.

QUICK RECOVERY FROM THE GRIPPE

YOU have seen how your friends suffer for weeks and months from the after effects of "flu" and grippe. Don't run the same risk.

If you have been ill from any of these winter diseases, take Gude's Pepto-Mangan for a short time as a safeguard against serious consequences.

Gude's goes directly to the root of the trouble by giving you a new supply of rich, red blood, and toning up every function of the body. At your druggist's, in both liquid and tablet form.

Tonic and Blood Enricher

THREE-MINUTE TRIPS

WHERE IT'S CRIME TO KILL A COW

MANY years ago in India it was considered that a distinguished visitor was entertained in the most lavish way when beef was served to him. It was the highest form of hospitality for his host to set before him beef in any form.

A Hindu Will Not Eat Beef

This former custom among the Hindus resembled the killing of the "fatted calf" among the early Jews.

But, should the traveler visit the home of a Hindu today he would not find roast beef as the "piece de resistance" for dinner. He would have to satisfy himself with an almost entirely vegetable dinner. For vegetables are the staple food of India.

This change is not due to any attempt at diet for reasons of health or from lack of beef—because there are many cows in India. But these cows are not for eating purposes. They are not even considered as a possibility for food. To think of a cow in terms of roast beef would be an offense! For in India cows are sacred.

They have always had a place of honor in India. But as the years have passed by they have gained in honor, prestige and religious importance.

To slaughter a cow is now considered a horrible crime.

This has risen to many quarrels between the Hindus and the Mahommedans—the two prevailing religions of India.

Mahommedans are a meat-eating race and are particularly fond of beef. The Mahommedans therefore kill cows. This to the Hindu is an inexcusable crime. They cannot forgive this practice among their neighbors.

Reverence of the sacred cows of the Hindus is carried to such an extent that many a Hindu considers it a greater crime to kill a cow than to murder a Mahommedan.

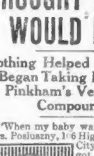
THOUGHT BACK WOULD BREAK

Nothing Helped until She Began Taking Lydia E. Pinkham's Vegetable Compound



"When my baby was born," says Mrs. Fosbanny, 116 High Street, Bay City, Michigan, "I got up too soon. I thought it would break in two, and if I started to do any work I would have to lie down. I do not believe that any one ever suffered worse than I did. I spent lots of money, but nothing helped me until I began to take Lydia E. Pinkham's Vegetable Compound. I felt a whole lot better after the first bottle, and am still taking it for I am sure it is what has put me on my feet."

If you are suffering from a displacement, irregularities, backache, nervousness, sideache or any other form of female weakness you should write to the Lydia E. Pinkham Medicine Co., Lynn, Mass, for Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." It will be sent you free upon request. This book contains valuable information.

Cuticura Talcum To Powder And Perfume

To soothe and cool the skin and overcome heavy perspiration, dust lightly with this pleasingly scented powder. It imparts a delicate lasting fragrance and leaves the skin refreshed and cool.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. 14G, Malden 48, Mass." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Soap shaves without mug.

Newlywed Wails

By Nat N. Dorfman

THEY say the good die young. It must be so, because then they escape matrimony.

A bowlegged girl has a hard time getting a beau in the town where she was raised.

Love laughs at locksmiths, but then, love is the key to all trouble.

Who is responsible for so many American divorces? a writer asks. Well, marrying persons, it seems to us, are more or less to blame.

The country won't be safe for benedicts until the laws against home brutes are strictly enforced.

Benjamin Franklin said, "Don't put off for tomorrow what can be done today," unless possibly it happens to be your wedding day.

When divorcees get together, their talk is probably side-splitting.

Every time a man proposes to a girl and is rejected he is given a new lease of life, but the trouble with those fellows is that their leases expire so soon thereafter.

When a bride offers her husband some of her newly-made biscuits, she makes it hard for him right off the bat.

Our idea of a fool's paradise is a place where a group of married men set up a wall for their wives who are hundreds of miles away.

The woman who says she loves a caveman periodic shrieks in horror when a man with a three-days' growth of beard tries to kiss her.

No matter how much a woman talks, she always knows when to listen to a proposal.

Medbury Says---

By John P. Medbury

WE'VE at last solved the congestion on the streets and what we need now is a traffic cop in the one arm lunch rooms.

IT'S easy enough to get a cup of coffee and a piece of pie, but it's hard to find a place to park it.

A GUY walking down the aisle with a bowl of soup on his arm should be made to put his hand out before he turns the corner.

IT'S hard to tell when anybody is coming unless you get warning, but the average bird who eats in a lunch room hasn't got eathips.

MOST lunch room accidents could be avoided if the diners were forced to wear bumpers.

THEY could strap a shock absorber on their chests and pin a license number on their coat tails.

NO customer should be allowed to park over fifteen minutes in any one chair.

PEOPLE would soon obey the traffic rules. No guy would want the lunch room cop to walk up and tie a tag on his doughnut.

IF you disobeyed the rules very often they'd punish you by sentencing you to eat one of their regular dinners.

GREATER punishment than this hath no lunch room.

THERE should be another law passed also, forcing the proprietors to make their chairs larger so that you'd have more space to back into.

AS it is now you have to eat in one of the places three or four weeks before you're thin enough to fit into one of their chairs comfortably.

WHAT we need is some kind of an officer to stand in the middle of the floor and direct traffic with a whistle.

STILL, a man's soup would get cold while he was giving traffic in the other direction a chance to pass.

BUT you couldn't expect a guy with tenderloin steak, hash browned potatoes, boiled onions and French pastry to give the right of way to a bird with only a doughnut and a cup of coffee.

A FELLOW with a ninety cent check is bound to have more pull than the man with one for a dime.

HE may be dieting for his health, but that doesn't improve the cash register any.

ORDINARILY, your health comes first, but not in a one-arm lunch room.

ONCE OVERS

Copyright, 1923, by International Feature Service, Inc.

WHAT'S WRONG WITH YOUR CHARACTER PICTURE?

Have you ever asked someone whom you believed to be truthful to point out some of your disagreeable traits or habits?

You do things which are not pleasing (we all do), and you have mannerisms which are unpleasant to others at times.

You may not know, but it might be well for you to find out what they are.

Have you ever noticed that people tire of talking to you?

It is because you say little that is worth listening to or is it something about you personally that makes some people want to get away from you?

Do you find it difficult to hold the attention of one person when another arrives and joins your conversation?

Have you asked yourself the cause of this?

It will be valuable for you to know your weak spots.

It may be a bitter pill to hear these things from another, but it will be worth all the embarrassment of disclosure to find out why you are so unlike your ideal.

SMART SAYINGS OF CLEVER CHILDREN

Church Notes

During a month of self-denial, giving up even necessary things, the 190 members of the Norwood Methodist Church realized by their efforts the sum of $1,000, which paid the current expenses deficit and allowed some repairs to be made on the church edifice.

* * *

The three Methodist churches in New Bedford will be consolidated. The Pleasant St. and the Second Methodist churches will unite with the County Street Church in one large working church.

* * *

The annual "home coming" of the Church of the New Jerusalem, Bowdoin street, will be observed April 2. Easter Sunday, when all members, far and near, will return to the family church.

* * *

A protest meeting against the continued imprisonment of Nicola Sacco, convicted two years ago of murder and robbery, will be held in Ford Hall, Sunday at 2 p. m. Many ministers have been invited to attend this meeting by the Greater Boston Federation of Churches.

* * *

The budget of the Greater Boston Federation of Churches for the coming year is $12,000. The Rev. Roy Guild of New York will speak Monday in Park Street Church about the needs and opportunities of this organization and why it should be liberally supported.

* * *

The Rev. Robert Watson, D. D., pastor of the First Presbyterian Church, and Dr. W. A. Bartlett of the Near East Fund will address Boston ministers in Park Street Church, Monday at 10:30 a. m.

* * *

The Rev. George L. Paine, executive secretary of the Greater Boston Federation of Churches, will deliver his first radio sermon Sunday evening from Medford Hillside Radio Station, WGI.

* * *

The Rev. John S. Schroeder of the Central Congregational Church, Newbury street, has accepted a call to Community Church, Bagola, N. J.

* * *

Bishop Charles T. Slattery will conduct a "Quiet Evening" at the St. Paul's Cathedral, Thursday, from 7:30 to 9 p. m.

* * *

The Rev. W. F. Bailey of Oldtown, Me., has accepted a call to St Stephen's Episcopal Church, Fall River, and will begin his duties the first Sunday after Easter.

* * *

The Rev. Michael J. Scanlan, pastor of St. Rose Church, Lowell, and formerly director of Catholic charities in Boston, will address the Boston Social Union, Wednesday, at 11 a. m., at the rooms of the Twentieth Century Club.

Much interest has been aroused in the meeting held at the Home of the Universal Educator Centre, No. 489 Boylston street, by the unique lectures given by Dr. Howard on the "Drama of Life."

Typical Biblical characters are made to move and tell the story of life on anatomical charts. The "Passion Play" with all its sublime beauties, in miniature Diana is reproduced and vivid illustrations are presented harmonizing the dramas enacted in the Bible with those of the human body. The growing need of a better and clearer understanding of the "Drama of Life" has persuaded Dr. Howard to continue these educational free lectures during month of March.

"King Tut-Ankh-Amen and the Explorations in Egypt" will be the subject of an address in Trinity Church, Newton Centre, by Professor Albert E. Bailey next Sunday evening at 7:15.

Marriage Intentions

Walter Warner, asst. chief electrician, 135 Marsh st., Watertown, and Jessie M. Kinley, bookkeeper, 29 Cheshire st., Jamaica Plain.

REAL ESTATE HAPPENINGS

The large mansion dwelling, stable and 48,624 square feet of land at No. 80 Winthrop road, Brookline, fronting on Winthrop road and Colbourne Crescent, adjoining the property of Cardinal O'Connell, has been sold by Loren D. Swift to John J. Fitzgerald. The assessed value is $42,700. Mr. Fitzgerald has already started to improve the property for development, intending to erect several two-family houses on the premises. Edwards & Warren were the brokers.

BROOKLINE APARTMENTS

Deeds have been recorded in the sale of the four-apartment houses at Nos. 152-154-156-158 Harvard street, corner of Harris street, Brookline, from Mrs. E. J. Brown to Thomas J. Craig, who purchased for investment. The property consists of sixteen suites of seven rooms and bath each, with $,993 square feet of land, assessed for a total of $45,100, of which $8,100 is on the land. The sale was negotiated through the office of Edwardes & Warren.

UPHAM'S CORNER TRANSFER.

The property known as Upham's Corner Garage, at No. 610 Columbia road and No. 5 Ramsey street, Upham's Corner, Dorchester, has been sold by John M. McDonnell to Upham's Corner Market, who buy for improvement and occupancy. This is a two-story brick fireproof building, with 10,000 square feet of land, assessed for a total of $75,000.

The Dorchester Taxi Company has leased from John M. McDonnell, for a term of years, the modern garage, known as Murfee Garage, at No. 1052 Dorchester avenue, Dorchester.

PARK SQUARE SALE.

Mercantile property at Nos. 31 and 33 Stanhope street, near the corner of Berkeley street, in the Park square district, comprising a four-story and basement building and a one-story building, 4,200 square feet of land, has been conveyed to Samuel Robinson by Herbert T. Beardman. The total assessed value is $24,000, of which $14,000 is on the land. The grantor was represented by A. Wilbert Starratt, and the purchaser by John S. Cronin of the office of John A. Cronin.

ACQUIRES BROOKLINE HOUSE.

Alexander Strain has acquired from the Davis heirs the modern frame dwelling house at Nos. 58-60 Davis avenue, Brookline, assessed for $20,000, of which $5,500 is on the 15,220 square feet of land. The sale was negotiated by the office of Frederick A. Leavitt and Henry A. Burnham.

MASS. AVENUE SALES.

The trustees of the James E. Stewart estate have conveyed to Mary Mullinger, in the proportions of Nos. 615 and 689 Massachusetts avenue. No. 615 comprises a three-and-one-half-story brick dwelling, containing 1,650 square feet of land, assessed for a total of $8,000. No. 689 contains a three-and-one-half-story brick dwelling and 1,962 square feet of land, assessed for $7,000. William C. Codman & Son negotiated the sale.

NEW HOME FOR MEDFORD MERCURY.

Work will start in about two weeks on the construction of a brick building on Forest street, Medford, which will house the Medford Mercury, and a number of stores fronting on Forest street, and have a ten-foot arcade running through the centre to the rear, to be occupied by the Mercury. Space will be provided in the arcade for six stores. The lot is 60 by 100 square feet. The William T. Reed Company of Boston has the contract.

RECORD OF TRANSFERS
